CONSTRUCTION UPDATE

May 16, 2005

The North City Project construction office is now open at 17711 15th Ave. NE. Staff will be available in the construction office to answer questions and address concerns. The City's construction management team is KBA and the construction contractor is SCI, Infrastructure.

Last week, crews removed two trees and several shrubs and cleared some soil from the landscape areas adjacent to Safeway on 15th Ave. NE near N. 172nd St. in preparation for installing underground utility vaults under the sidewalk and shoulder of 15th Ave. NE between N. 172nd and 175th Streets.

This week, crews will begin installing underground utility vaults. Over the next few weeks, four vaults will be installed – one on the east side of 15th, two on the west side of 15th and one on 172nd – along with the conduit for the above ground utilities.

Installation of the vaults may cause some disruption to traffic along 15th Ave. NE. Traffic control personnel will be on site at all times during construction to help keep traffic moving through the construction area.
