

Parks and Recreation Projects

Review of the City's goals, policies and needs has resulted in a list of potential parks and recreation projects. The staff and consultant team used community input and technical analysis to assign projects a draft level of priority. We need additional community input to determine whether these priorities are in line with community expectations. Prioritization will help determine which projects are addressed first and will guide the assignment of funding between projects.

What factors are the most important to you for ranking parks and recreation projects? *(Please check the 3 you feel are most important)*

- Degree of Work Already Completed
- Grant/non-City Funding Available
- Ability to Pay for Itself (collects user fees)
- Improve Existing Parks
- Community Need/Demand for Facilities
- Underserved Area of City
- Potential Loss of Available Land to Other Uses
- Ability to Maintain in the Future
- Neighborhood Park
- Community, Urban and Regional Park
- Nature Areas and Trails
- Shoreline and Beach Access
- Paved Multi-Purpose Trail
- Athletic Fields
- Indoor Facilities
- Community Survey Results
- Other _____
- Other _____

The following is the draft list of parks and recreation projects that was developed from technical analysis of Shoreline's parks and recreation needs. Please check the box next to each project that best describes your preference for each of these projects. Note that, because these projects support long-range objectives, they may not be fully defined and cost estimates are preliminary. Please ask City staff if you would like more information about any of the projects.

<i>Support</i>	<i>Neutral</i>	<i>Oppose</i>	Project Location	Improvement	Draft Priority	Projected Cost (millions)
			Park System	20 Yr Life Cycle Replacement Costs	1	4.000
			Cromwell Park Subtotal	Master Plan, playground, picnic, restroom, ballfields, stormwater	1	0.879
			James Keough Park	Concept Plan Improvements	1	0.525
			Boeing Creek Park	Concept Plan Improvements	1	0.700
