

Exhibit "A"

Ordinance No. 154

9.04.030 Drainage review - when required.

- A. PERMITS. A drainage review is required for any proposed project requiring one of the King County permits or approvals listed in K.C.C. 9.04.030B which would:
1. Add more than one thousand five hundred square feet of new impervious surface; or
 2. Collect and concentrate surface and storm water runoff from a drainage area of more than one thousand five hundred square feet; or
 3. Contain or be adjacent to a floodplain, stream, lake, wetland or closed depression, or a sensitive area as defined in K.C.C. 21A.24 (Sensitive Areas) excluding seismic, coal mines, and volcanic hazard areas.
- B. The following King County permits and approvals will be required to have a drainage review if the project involves the planned actions listed in K.C.C. 9.04.030A:
1. Commercial building;
 2. Commercial Site Development;
 3. Conditional use;
 4. Formal subdivision (plat);
 5. Grading
 6. Master plan development;
 7. Planned unit development;
 8. Residential building;
 9. Right-of-way use;
 10. Shoreline substantial development;
 11. Administrative subdivision (short plat);
 12. Special use;
 13. Unclassified use;
 14. Zoning reclassification; and/or
 15. Zoning variance. (Ord. 11016 § 13, 1993; Ord. 9163 § 3, 1989).
