SHORELINE CITY COUNCIL WORKSHOP DINNER MEETING

Monday, July 22, 2013
5:45 p.m.

Conference Room 104 · Shoreline City Hall
17500 Midvale Avenue North

TOPICS/GUESTS: Shoreline Fire Commissioners and Chief

SHORELINE CITY COUNCIL BUSINESS MEETING

Monday, July 22, 2013
7:00 p.m.

Council Chamber · Shoreline City Hall
17500 Midvale Avenue North

	<u>Page</u>	<u>Estimated Time</u>
1. CALL TO ORDER		7:00
2. FLAG SALUTE/ROLL CALL		
(a) Proclamation of National Night Out Against Crime	<u>1</u>	
3. REPORT OF THE CITY MANAGER		
4. COUNCIL REPORTS		
5. PUBLIC COMMENT		
<i>Members of the public may address the City Council on agenda items or any other topic for three minutes or less, depending on the number of people wishing to speak. The total public comment period will be no more than 30 minutes. If more than 15 people are signed up to speak, each speaker will be allocated 2 minutes. When representing the official position of a State registered non-profit organization or agency or a City-recognized organization, a speaker will be given 5 minutes and it will be recorded as the official position of that organization. Each organization shall have only one, five-minute presentation. Speakers are asked to sign up prior to the start of the Public Comment period. Individuals wishing to speak to agenda items will be called to speak first, generally in the order in which they have signed. If time remains, the Presiding Officer will call individuals wishing to speak to topics not listed on the agenda generally in the order in which they have signed. If time is available, the Presiding Officer may call for additional unsigned speakers.</i>

(b) Approval of expenses and payroll as of July 12, 2013 in the amount of \$283,863.15	<u>10</u>	
(c) Motion to Authorize the City Manager to Obligate \$435,000 of Safe Routes to School Program State Funding for the Einstein Safe Routes	<u>11</u>	

Project

(d) Motion to Authorize the City Manager to Obligate \$540,000 of Pedestrian and Bicycle Safety Program State Funding for the Shoreline-Interurban Trail/Burke-Gilman Connectors Project 15

(e) Motion to Authorize the City Manager to Execute a Construction Contract for the N. Fork Thornton Creek LIP Stormwater Retrofit Project 19

8. ACTION ITEM

(a) Adoption of Resolution No. 349 Adopting the 2014-2019 Transportation Improvement Plan 23 7:20

9. EXECUTIVE SESSION: Litigation - RCW 42.30.110.1(i) 7:50

The Council may hold Executive Sessions from which the public may be excluded for those purposes set forth in RCW 42.30.110 and RCW 42.30.140. Before convening an Executive Session the presiding officer shall announce the purpose of the Session and the anticipated time when the Session will be concluded. Should the Session require more time a public announcement shall be made that the Session is being extended.

10. ADJOURNMENT 8:30

The Council meeting is wheelchair accessible. Any person requiring a disability accommodation should contact the City Clerk's Office at 801-2231 in advance for more information. For TTY service, call 546-0457. For up-to-date information on future agendas, call 801-2236 or see the web page at www.shorelinewa.gov. Council meetings are shown on Comcast Cable Services Channel 21 and Verizon Cable Services Channel 37 on Tuesdays at 12 noon and 8 p.m., and Wednesday through Sunday at 6 a.m., 12 noon and 8 p.m. Online Council meetings can also be viewed on the City's Web site at <http://shorelinewa.gov>.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

<p>AGENDA TITLE: Proclamation of "30th Annual National Night Out" DEPARTMENT: Police Department PRESENTED BY: Shawn Ledford, Police Chief ACTION: ___ Ordinance ___ Resolution ___ Motion ___ Discussion _X_ Proclamation</p>
--

PROBLEM/ISSUE STATEMENT:

The Shoreline Police Department is joining with the National Association of Town Watch in sponsoring this year's "National Night Out" in Shoreline. The event, which is part of a nationwide crime, drug and violence prevention program, will take place on Tuesday, August 6, 2013. Along with the Police Department, Shoreline neighborhood associations and block watches are participating by sponsoring a variety of activities to celebrate this annual event. The goal of the event is to emphasize police-community partnerships as well as to promote and enhance the City's safe community and neighborhood initiatives and programs.

Herb and Gloria Bryce from a Block Watch group in the Highland Terrace neighborhood will be in attendance to accept the proclamation.

RECOMMENDATION

No action is required.

Approved By: City Manager **JU** City Attorney **IS**

PROCLAMATION

WHEREAS, the National Association of Town Watch (NATW) is sponsoring a nationwide crime, drug and violence prevention program on August 6th, 2013 entitled “National Night Out”; and

WHEREAS, the “30th Annual National Night Out” provides a unique opportunity for the City of Shoreline to join forces with thousands of other communities across the country in promoting police-community crime prevention efforts; and

WHEREAS, the neighborhoods of the City of Shoreline play a vital role in assisting the Shoreline Police Department through joint crime, drug and violence prevention efforts and are supporting “National Night Out 2013” locally; and

WHEREAS, it is essential that all Shoreline residents are aware of the importance of crime prevention programs and the impact that their participation can have on reducing crime; and

WHEREAS, police-community partnerships are key in promoting and enhancing the City’s safe community and neighborhood initiatives and programs;

NOW, THEREFORE I, Keith McGlashan, Mayor of the City of Shoreline, on behalf of the Shoreline City Council, encourage residents to join the Shoreline Police Department and the National Association of Town Watch in supporting this event and do hereby proclaim August 6, 2013, in the City of Shoreline as

NATIONAL NIGHT OUT

Keith A. McGlashan, Mayor

CITY OF SHORELINE
SHORELINE CITY COUNCIL
SUMMARY MINUTES OF BUSINESS MEETING

Monday, July 8, 2013
7:00 p.m.

Council Chambers - Shoreline City Hall
17500 Midvale Avenue North

PRESENT: Mayor McGlashan, Deputy Mayor Eggen, Councilmembers Hall, McConnell, Winstead, Salomon, and Roberts

ABSENT: None

1. CALL TO ORDER

At 7:00 p.m., the meeting was called to order by Mayor McGlashan, who presided.

2. FLAG SALUTE/ROLL CALL

Mayor McGlashan led the flag salute. Upon roll call by the City Clerk, all Councilmembers were present.

3. REPORT OF THE CITY MANAGER

Julie Underwood, City Manager, provided reports and updates on various City meetings, projects, and events.

4. COUNCIL REPORTS

Councilmember Winstead looked for consensus from the Council to distribute a letter to Richmond Beach residents that addresses the community's concerns over the Point Wells development and explains the reasoning behind Council's past and future course of action.

Deputy Mayor Eggen commented on the review of the KC Solid Waste Transfer Station Plan. The Council agreed to talk about it further later on the agenda as part of the "SCA PIC Policy Issue" discussion.

5. PUBLIC COMMENT

a) Joyce Lingerfelt, Shoreline, commented on a letter she wrote to Council back in 2010 regarding the Brugger's Bog Maintenance Facility. She expressed her discontent with the decant facility's air pollution, odor, noise, etc. and requested that the property be returned to a wetland.

b) Arnold Peterson, Shoreline, complained about the ditch in front of his home being dug up unnecessarily.

c) Tom Jamieson, Shoreline, commented that Council’s discussion on Goal #4 - Enhance openness and opportunities for community engagement - keeps getting delayed. Due to community concern over the lack of outreach, he requested that the discussion be moved up.

Ms. Underwood responded to public comment and indicated staff would follow-up on concerns that were addressed.

6. APPROVAL OF THE AGENDA

Upon motion by Councilmember McConnell, seconded by Councilmember Roberts and unanimously carried, the agenda was approved.

7. CONSENT CALENDAR

Upon motion by Deputy Mayor Eggen, seconded by Councilmember Winstead and unanimously carried, the following Consent Calendar items were approved:

(a) Minutes of Business Meeting of June 17, 2013

(b) Approval of expenses and payroll as of June 28, 2013 in the amount of \$7,127,945.19 as specified in the following detail:

***Payroll and Benefits:**

Payroll Period	Payment Date	EFT Numbers (EF)	Payroll Checks (PR)	Benefit Checks (AP)	Amount Paid
Prior pay period adjustment	4/19/2013	50095			(\$2,886.33)
			12533		\$2,736.19
5/12/13-5/25/13	5/31/2013	50527-50691	12534-12557	53647-53651	\$527,798.36
5/26/13-6/8/13	6/14/2013	50692-50878	12558-12579	53850-53855	\$404,375.65
6/9/13-6/22/13	6/28/2013	50879-51092	12580-12624	53925-53932	\$557,116.10
					<u>\$1,489,139.97</u>

***Wire Transfers:**

Expense Register Dated	Wire Transfer Number	Amount Paid
6/26/2013	1069	\$3,703.05
		<u>\$3,703.05</u>

***Accounts Payable Claims:**

Expense Register Dated	Check Number (Begin)	Check Number (End)	Amount Paid
6/5/2013	53652	53661	\$18,822.95
6/5/2013	53662	53686	\$124,166.01
6/5/2013	53687	53699	\$53,344.88
6/5/2013	53700	53713	\$44,674.76
6/13/2013	53714	53742	\$119,500.99
6/13/2013	53743	53750	\$7,012.69
6/13/2013	53751	53773	\$45,415.32
6/13/2013	53774	53786	\$1,350.90
6/13/2013	53787	53787	\$980.00
6/13/2013	52664	53664	(\$125.00)
6/13/2013	53788	53788	\$125.00
6/19/2013	53789	53790	\$50,644.14
6/19/2013	53791	53813	\$118,400.50
6/19/2013	53814	53825	\$50,789.82
6/19/2013	53826	53845	\$4,802,327.98
6/19/2013	53846	53849	\$321.55
6/26/2013	53856	53877	\$106,603.06
6/26/2013	53878	53886	\$22,970.87
6/26/2013	53887	53912	\$62,482.94
6/26/2013	53913	53924	\$5,292.81
			<u>\$5,635,102.17</u>

(c) Adoption of Resolution No. 348, Authorizing an Interfund Loan to the General Capital Fund for the Brugger’s Bog Maintenance Facility Acquisition and Improvements Project, from the General Fund in an Amount Not to Exceed \$3,348,000 through November 30, 2013

8. PUBLIC HEARINGS, ACTION ITEMS, & STUDY ITEMS

(a) Public hearing to receive citizens’ comments on Resolution No. 345, adopting a Community Renewal Area (CRA) Plan for Aurora Square; and Adoption of Resolution No. 345

Dan Eernisse, Economic Development Manager, provided the staff report recommending that Council hold a public hearing on the proposed Community Renewal Area (CRA) Plan for Aurora Square and then adopt the CRA Plan through Resolution No. 345.

Mr. Eernisse reviewed the refinements to the CRA Plan since Council last reviewed it on June 10. The CRA Plan’s Master Planning section now emphasizes the City’s role of catalyst rather than director of the entire process, and language has been enhanced throughout to inspire even more exceptional development. He then responded to comments that the City is being heavy handed and reviewed the following points on what the CRA Plan does seek to accomplish:

- Does not constrain owners, but makes targeted investment possible.

- Does not create a master plan or zoning overlay, but identifies whole center improvement projects.
- Does not propose displacing tenants or property owners, but seeks to aid and add to them all.
- Does not propose significant public use on site, but seeks to integrate Shoreline Community College.

Mayor McGlashan opened the public hearing.

a) Aaron Laing, Seattle, on behalf of Sears, provide written comments and expressed concern over Resolution No. 345 and the CRA Plan. He reviewed that Sears has been a long time partner in the Shoreline community and is concerned that materials suggest it is not valued or included in future plans. He requested that Council hold off taking action and allow for more time to engage with property owners.

b) Peggy Mayer, Edmonds, said she is the Head of School at the Northwest School for Hearing-Impaired Children (NW School) on Westminster Way North. She recalled that when the CRA process started the school asked to be excluded. She reiterated this request.

Mayor McGlashan closed the public hearing.

Councilmember Winstead moved to adopt the CRA Plan for Aurora Square through Resolution No. 345. Councilmember McConnell seconded the motion.

Councilmember Winstead summarized Aurora Square has been underutilized for some time and is where the community wants economic development to happen. She disagreed with Sears' opinion that the CRA Plan does not include them and encouraged Council to support the motion.

Councilmember Salomon recalled that he previously moved an amendment to exempt the NW School and WSDOT from the CRA but it failed. He indicated that if there was Council support, he would move another amendment. He then noted that eminent domain has not been authorized by the Council and he does not support imposing anything on owners.

Councilmember McConnell agreed that the Sears' property is an important part of Aurora Square and the whole area needs to be redeveloped. She asked staff to remedy the concerns of the NW School.

Councilmembers Roberts asked for information on parking Covenants, Conditions & Restrictions within the CRA and on any implications of postponing adoption of the CRA Plan.

Councilmember Hall pointed to the statement made by Sears' that the CRA Plan's purpose is to increase tax revenues. Although an increased tax base would be beneficial to the City, the purpose of the CRA Plan is to make Aurora Square a thriving area with businesses, community gathering places, and clusters of mid-rise buildings.

Deputy Mayor Eggen indicated he does not want to delay the process and believes the CRA Plan is non-specific enough that it is not too late for Sears to join in the planning process. He inquired about master planning and subarea planning, and asked staff to provide additional assurance that the City would not exercise eminent domain.

Mayor McGlashan expressed support for the CRA Plan and is pleased it has captured Sears' attention. He concurred with many of the remarks from other Councilmembers.

Councilmember Roberts moved to amend the CRA Plan by striking “After 45 years the Sears store and its surroundings are” and inserting “Today the Aurora Square area is”; and striking “Unfortunately, given the current retail climate the building and site are underutilized.” Councilmember Hall seconded the motion. There was discussion and a vote was taken, which failed 2-5 with Councilmembers Hall and Roberts voting in favor.

Deputy Mayor Eggen moved to amend the text on the front page of the CRA Plan by striking “store” and inserting “facility”. Councilmember Winstead seconded the motion. The motion passed 5-2, with Councilmember Hall and Roberts dissenting.

The main motion to adopt Resolution No. 345, as amended, was unanimously approved.

(b) Public hearing to receive citizens' comments on, amending conditions for the Property Tax Exempt Target Area within the Aurora Square Community Renewal Area to encourage Affordable Housing as detailed in Resolution No. 346; and Adoption of Ordinance No. 664

Dan Eernisse, Economic Development Manager, provided the staff report recommending that Council hold a public hearing on the proposal to amend the conditions for the Property Tax Exempt Target Area within the Aurora Square Community Renewal Area (CRA) to encourage affordable housing as detailed in Resolution No. 346. He further recommended that Council discuss and adopt Ordinance No. 664 following the public hearing. He then reviewed the proposal, benefits, and implications of the 12-year PTE program.

Mayor McGlashan opened the public hearing.

a) Tom Jamieson, Shoreline, expressed disapproval of using the acronym “PTE” and requested that it be called what it is, a Property Tax Exemption. He further explained he opposes them categorically and for the Aurora Square CRA.

Mayor McGlashan closed the public hearing.

Councilmember McConnell moved adoption of Ordinance No. 664 expanding the Aurora Square Community Renewal Area Property Tax Exemption program to include a 12-year affordable multi-family PTE program capped at 500 units, requiring that 20% of project units be affordable with studios and one bedroom units rented or sold to families with 70% of the median household income or less and two bedroom or larger units to households

with income of 80% of the median household income or less. Councilmember Roberts seconded the motion.

Councilmember McConnell spoke in favor of the motion stating PTE's are necessary for the time being to stay competitive and encourage development.

Councilmember Hall stated due to the additional interest in seeing redevelopment at Aurora Square, a 12-Year PTE program is appropriate for the CRA.

Councilmember Roberts emphasized that the City only establishes PTE programs in return for public benefit. He is supportive of a 12-year PTE in the CRA for creating a catalyst but wants to have a deeper affordability measure.

Councilmember Roberts moved to amend the main motion to replace language in Ordinance 664, Section 2, 3.27.030 (B)(2) to read “;provided, however, that for this target area, the household income may in no case exceed 75% of the area median household income adjusted for family size for two or more bedroom units.” The motion was seconded by Councilmember Hall. After Council discussion, the motion was withdrawn.

Councilmember Roberts moved to amend the main motion to replace language in Ordinance 664, Section 2, 3.27.030 (B)(2) to read: “provided, however, that for this target area, the household income may in no case exceed 60% of the area median household income adjusted for family size for studios and one bedroom units, and may in no case exceed 75% of the area median household income adjusted for family size for two or more bedroom units.” Councilmember Salomon seconded the motion.

Councilmembers discussed the threshold for achieving a higher level of affordability while keeping the proposed development viable.

There was a vote on the amendment which failed 3-4, with Councilmember Hall, Roberts, and Salomon voting in favor.

A vote was taken on the main motion to adopt Ordinance No. 664, as amended, which carried unanimously.

At 9:13 p.m. Mayor McGlashan called for a recess and at 9:17 called the meeting back to order.

(c) Public hearing to receive citizens' comments on the 2014-2019 Transportation Improvement Plan (TIP) and Discussion

Kirk McKinley, Transportation Services Manager, and Alicia McIntire, Senior Transportation Planner provided the staff report on the Draft Transportation Improvement Plan (TIP). Staff summarized the proposed project list and requested direction from Council regarding any revisions to the 2014-2019 TIP, including items that should be added or removed.

Mayor McGlashan opened the public hearing.

a) Tom Jamieson, Shoreline, asked for clarification on the use of the word "discrete" when referring to TIP projects along the Richmond Beach corridor.

Mayor McGlashan closed the public hearing.

Councilmembers identified maintenance of City assets to be the most cost effective use of the budget and expressed concern over the chronic underfunding of road maintenance. There was a question on how the Richmond Beach Corridor projects were identified, and on what the tradeoffs would be for employing cost reducing methods to the remaining Aurora construction.

Mr. McKinley agreed to bring information back on July 22 when the TIP is scheduled for adoption.

(d) Discussion of SCA PIC Policy Issue: Flood Control District

Scott MacColl, Intergovernmental Relations Manager, explained that Councilmember Roberts, the City's representative on the Sound Cities Association (SCA) Public Issues Committee, is seeking Council input regarding the King County Flood Control District (FCD) 2014 Budget. The SCA Caucus of the FCD Advisory Committee is requesting input from cities regarding concerns or policy direction.

Councilmembers acknowledged the City does benefit from regional flooding projects being solved but it is a small benefit relative to its contribution. Councilmembers offered the following feedback for Councilmember Roberts to forward:

- Include coastal and urban stream projects.
- Create a separate funding structure for smaller urban problems.
- Oppose FEMA accreditation as a policy priority for District funding.
- Allocate money towards acquiring properties in flood control areas for habitat restoration.

Deputy Mayor Eggen announced SCA has requested Metropolitan Solid Waste Management Advisory Committee to develop a process to review the 2007 King County Solid Waste Transfer Station Plan. King County had planned to upgrade the Factoria Transfer Station, but with Bellevue dropping off, the County is now questioning if the money should be spent elsewhere. He asked if Council had any comments.

Deputy Mayor Eggen moved to extend the meeting 5 minutes. The motion died from lack of a second.

9. ADJOURNMENT

At 10:00 p.m., Mayor McGlashan declared the meeting adjourned.

Scott Passey, City Clerk

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Approval of Expenses and Payroll as of July 12, 2013
DEPARTMENT: Administrative Services
PRESENTED BY: R. A. Hartwig, Administrative Services Director

EXECUTIVE / COUNCIL SUMMARY

It is necessary for the Council to formally approve expenses at the City Council meetings. The following claims/expenses have been reviewed pursuant to Chapter 42.24 RCW (Revised Code of Washington) "Payment of claims for expenses, material, purchases-advancements."

RECOMMENDATION

Motion: I move to approve Payroll and Claims in the amount of \$283,863.15 specified in the following detail:

***Accounts Payable Claims:**

Expense Register Dated	Check Number (Begin)	Check Number (End)	Amount Paid
7/1/2013	53933	53933	\$50,000.00
7/2/2013	53934	53948	\$24,419.47
7/3/2013	53949	53959	\$13,178.88
7/3/2013	53960	53973	\$9,986.99
7/3/2013	53974	53977	\$2,139.58
7/3/2013	53978	53981	\$1,731.50
7/3/2013	53982	53982	\$2,200.00
7/11/2013	53983	53996	\$67,754.21
7/11/2013	53997	54010	\$82,814.05
7/11/2013	54011	54017	\$933.83
7/11/2013	54018	54027	\$28,704.64
			<u>\$283,863.15</u>

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Motion to Authorize the City Manager to Obligate \$435,000 of Safe Routes to School Program Funding for the Einstein Safe Routes Project		
DEPARTMENT:	Public Works		
PRESENTED BY:	Iain Draper, Engineering Manager		
ACTION:	<input type="checkbox"/> Ordinance	<input type="checkbox"/> Resolution	<input checked="" type="checkbox"/> Motion
	<input type="checkbox"/> Discussion	<input type="checkbox"/> Public Hearing	

PROBLEM/ISSUE STATEMENT:

Staff is requesting that Council authorize the City Manager to execute a Local Agency Agreement with the Washington State Department of Transportation (WSDOT) to obligate \$435,000 of Safe Routes to School grant funding for the construction of the Einstein Safe Routes Project. This funding source is through WSDOT and provides for 100% of eligible costs.

In accordance with the City’s purchasing policies, Council authorization is required for staff to obligate grant funds exceeding \$50,000. Additionally, WSDOT requires formal authorization of their contracts prior to execution.

RESOURCE/FINANCIAL IMPACT:

The 2013-2018 Capital Improvement Program includes \$348,000 for the Safe Routes to School NW 195th project (identified here and on the grant as Einstein Safe Routes Project). The cost was updated when staff applied for grant funding. The Einstein Safe Routes project is funded through \$435,000 by Safe Routes to School Program grant funding. This grant does not require a City match.

RECOMMENDATION

Staff recommends that Council authorize the City Manager to execute a Local Agency Agreement to obligate grant funds totaling \$435,000 for the Einstein Safe Routes project, including authorization of the Project Prospectus and any addendums or supplements required by the Washington Department of Transportation.

Approved By: City Manager **JU** City Attorney **IS**

INTRODUCTION

The City applied for and was awarded a state grant for the installation of sidewalks and school zone flashing signs on the routes to Einstein Middle School. Education and enforcement are also included. Staff is requesting Council to authorize the City Manager to obligate these funds with the Washington State Department of Transportation.

BACKGROUND

In 2006, the City Council established a six-year Priority Sidewalk Program focused on sidewalks serving schools. NW 195th was a priority one route in this program; however, there has not been adequate funding to construct the improvements. Improvements on 3rd Ave NW and 8th Ave NW were installed through this program in 2006. NW 195th provides a valuable connection between these two routes. During the development of Shoreline's Transportation Master Plan (approved 2011), the City Council continued to recognize the importance of sidewalks to the community and emphasized their construction as high-priority transportation investments. NW 195th was again a high priority for the non-motorized system portion of the plan. The project was identified in the surrounding Neighborhood Transportation Action Plan approved in 2009.

The project would install sidewalks adjacent to Einstein Middle School on the south side of NW 195th Street from 3rd Avenue NW to 8th Avenue NW (connecting other recent sidewalk installations on 3rd Avenue NW to create a continuous sidewalk along this stretch of roadway) and on the east side of 5th Avenue NW from NW 196th Place to NW 195th Street. School zone flashers on all four legs of the NW 195th Street to 3rd Avenue NE intersection approaching the school would also be installed. Curb ramps at the intersections of 3rd Avenue NW, 5th Avenue NW, and 8th Avenue NW will also be installed or updated. This particular route was developed cooperatively with City, Police and School District staff.

COUNCIL GOAL(S) ADDRESSED

This project addresses Council Goal #2, "provide safe, efficient and effective infrastructure to support our land use, transportation and surface water plans." This project will meet this goal by constructing new sidewalks where pedestrians travel along shoulders or unimproved areas.

RESOURCE/FINANCIAL IMPACT

Below is a breakdown on the funding for the Einstein Safe Routes Project:

Safe Routes to Schools Grant	\$435,000
Total Funding	\$435,000

A no-action alternative would include not entering the grant agreements and returning the identified funding to the State; doing so would result in either not constructing the project or identifying other revenue sources to fund it.

RECOMMENDATION

Staff recommends that Council authorize the City Manager to obligate \$435,000 of Safe Routes to School Program Funding for the Einstein Safe Routes Project, including authorization of the Project Prospectus and any addendums or supplements required by the Washington Department of Transportation.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Motion to Authorize the City Manager to Obligate \$540,000 of Pedestrian and Bicycle Safety Program Funding for the Shoreline-Interurban Trail/Burke-Gilman Connectors Project
DEPARTMENT:	Public Works
PRESENTED BY:	Iain Draper, Engineering Manager
ACTION:	<input type="checkbox"/> Ordinance <input type="checkbox"/> Resolution <input checked="" type="checkbox"/> Motion <input type="checkbox"/> Discussion <input type="checkbox"/> Public Hearing

PROBLEM/ISSUE STATEMENT:

Staff is requesting that Council authorize the City Manager to execute a Local Agency Agreement with the Washington State Department of Transportation (WSDOT) to obligate \$540,000 of Pedestrian and Bicycle Safety Program grant funding for the Shoreline-Interurban Trail/Burke-Gilman Connectors Project. This funding source is through WSDOT.

In accordance with the City’s purchasing policies, Council authorization is required for staff to obligate grant funds exceeding \$50,000. Additionally, WSDOT requires formal authorization of their contracts prior to execution.

RESOURCE/FINANCIAL IMPACT:

The 2013-2018 Capital Improvement Program includes the Interurban Trail to Burke-Gilman Trail north connector as an unfunded project. The Interurban Trail/Burke-Gilman Connectors project obtained \$540,000 in grant funding through the Pedestrian and Bicycle Safety Program in early 2013. The grant does not require a City match.

RECOMMENDATION

Staff recommends that Council authorize the City Manager to execute Local Agency Agreements to obligate grant funds totaling \$540,000 for the Interurban Trail/Burke-Gilman Connectors project, including authorization of the project prospectus and any addendums or supplements required by the Washington Department of Transportation.

Approved By: City Manager **JU** City Attorney **IS**

INTRODUCTION

The City was awarded a state grant for the installation of signage, striping, sidewalks and bike lanes to connect the Interurban and Burke-Gilman Trails through two routes (north and south).

Staff is requesting Council to authorize the City Manager to obligate these funds with the Washington State Department of Transportation.

BACKGROUND

In 2008, the City of Shoreline completed the entire section of the Interurban Trail that runs north and south through the City of Shoreline. While this provides a valuable connection for users traveling north/south through Shoreline, it is missing a connection to the Burke-Gilman Trail. The City has collaborated with the City of Lake Forest Park to identify northern and southern routes to connect the Interurban Trail and the Burke-Gilman Trail. The Bicycle Master Plan contained within the 2011 Shoreline Transportation Master Plan includes these routes.

The northern route follows N/NE 195th from the Interurban Trail east to the pedestrian bridge crossing I-5. In 2011, a separated trail was constructed in unimproved right-of way between Meridian Ave N and 1st Ave. NE. Council authorized the obligation of funds in December 2012 for a project to continue the separated trail from 1st Ave NE to 5th Ave NE along the north side of the existing right-of-way and adjacent to the Holyrood Cemetery. From the pedestrian bridge crossing, the route follows 10th Ave NE south to NE Perkins Way and then east on NE Perkins Way to the city limits. Along the northern route, the project provides striping/traffic markings and signage.

The southern route follows N/NE 155th from the Interurban Trail east to 15th Ave NE. It then follows 15th Ave NE south to NE 150th Street, then turns east to 25th Ave NE, and north to NE 160th Street, where it heads east to the city limits. At NE 160th, there will be a trail connection to Hamlin Park. The City's Transportation Management Plan identifies NE 155th Street from 25th Avenue NE to the city limits as a signed bicycle route. Additionally, the City of Lake Forest Park has identified NE 155th Street as the preferred route to the Burke-Gilman Trail. Bicyclists on 15th Ave NE will be directed to NE 155th Street. Those traveling on NE 160th Street will be diverted to NE 155th Street via 27th Ave NE. The south connector project improvements include signage, striping/traffic markings, sidewalks to fill in the gaps for bike lanes and a separated path.

Three locations are identified to have paved paths constructed in unimproved right-of-way to provide connections and shorter distances from one street to another. The entire project is scalable.

COUNCIL GOAL(S) ADDRESSED

The Interurban Trail/Burke-Gilman Connectors project addresses Goal 2, "Improve Shoreline's utility, transportation, and environmental infrastructure."

RESOURCE/FINANCIAL IMPACT

The projects are funded as follows:

Pedestrian and Bicycle Program	\$540,000
Total Funding	\$540,000

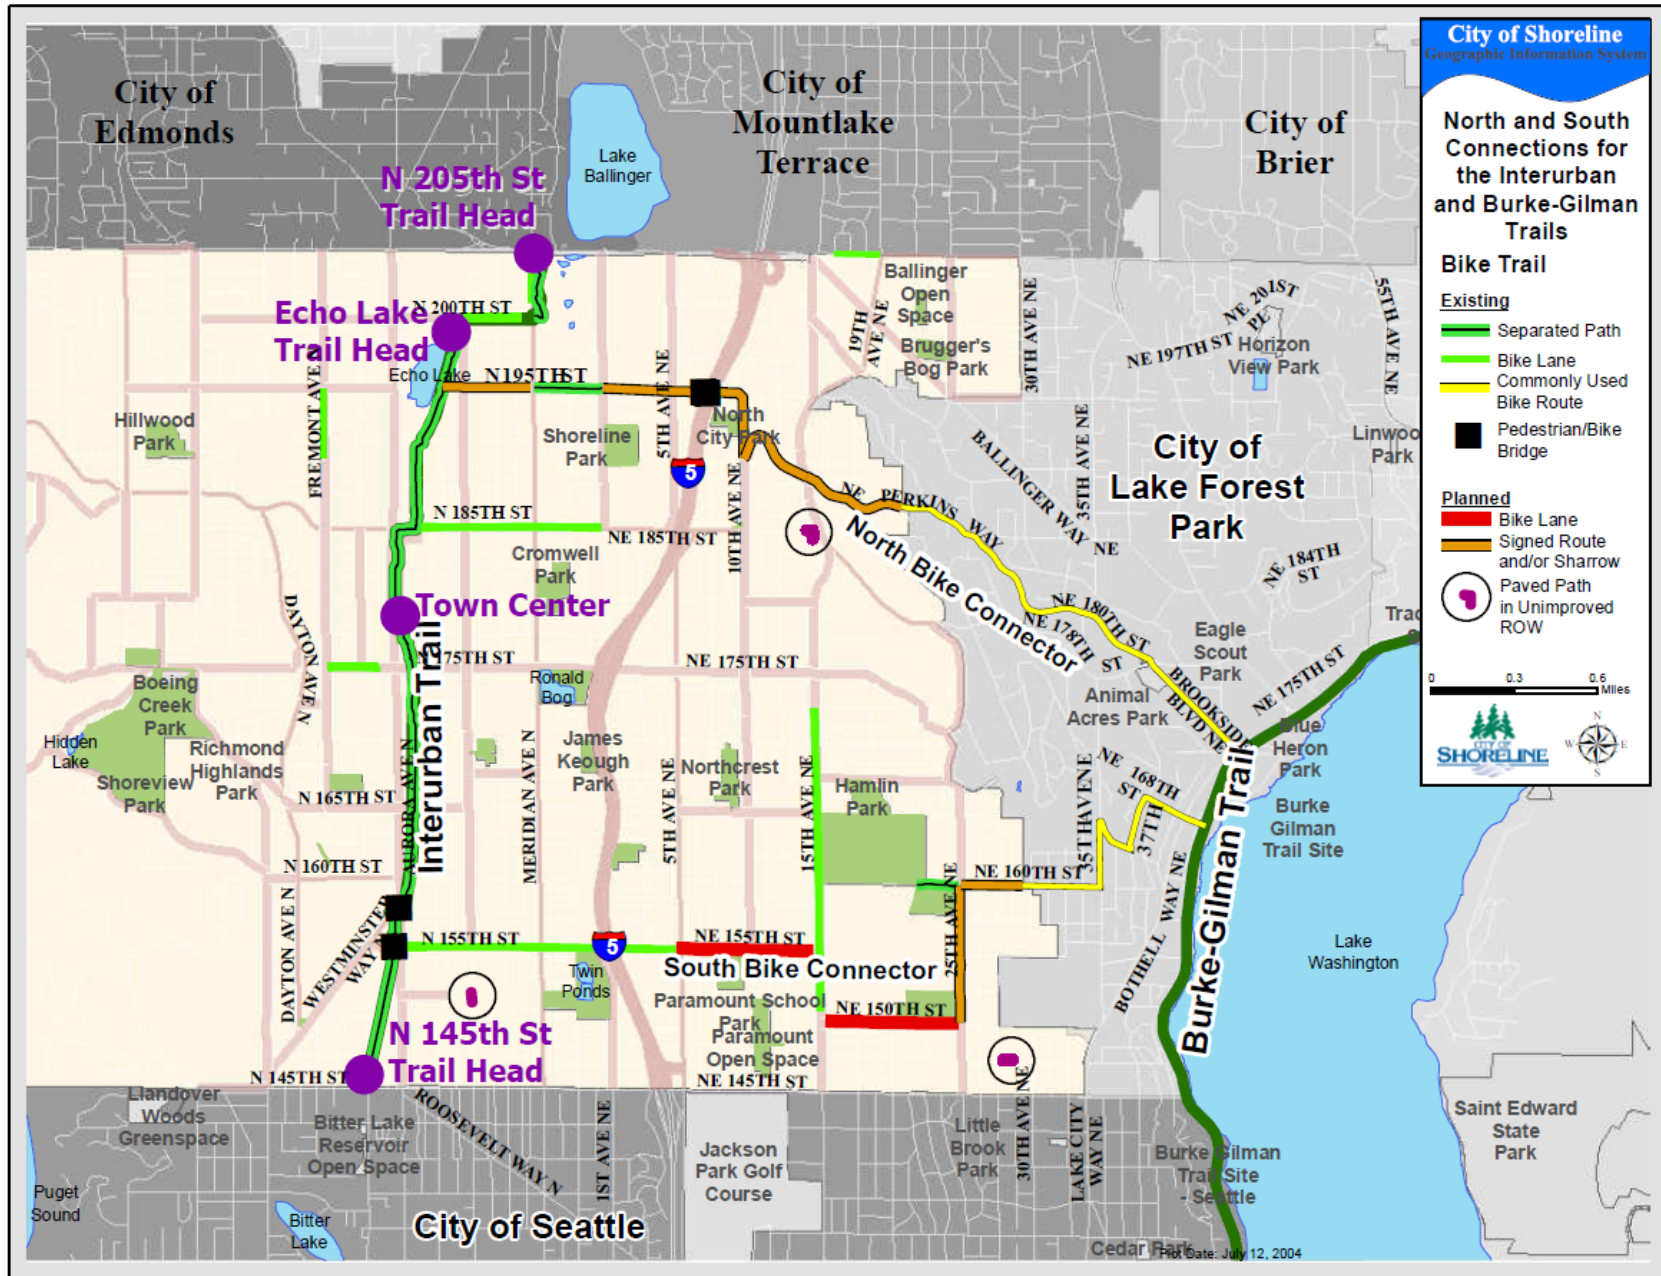

RECOMMENDATION

Staff recommends that Council authorize the City Manager to obligate \$540,000 of Pedestrian and Bicycle Safety Program Funding for the Shoreline-Interurban Trail/Burke-Gilman Connectors Project.

CITY COUNCIL AGENDA ITEM

CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Authorize the City Manager to Execute a Construction Contract with Kamins Construction in the amount of \$555,302.04 for the N Fork Thornton Creek Low Impact Development (LID) Stormwater Retrofit Project
DEPARTMENT:	Public Works
PRESENTED BY:	Tricia Juhnke, City Engineer
ACTION:	<input type="checkbox"/> Ordinance <input type="checkbox"/> Resolution <input checked="" type="checkbox"/> Motion <input type="checkbox"/> Discussion <input type="checkbox"/> Public Hearing

PROBLEM/ISSUE STATEMENT:

The 2013-2018 Capital Improvement Program (CIP) includes the project to install low impact development (LID) features within the North Fork Thornton Creek area subbasin (Attachment A). This project was formally advertised and bids were opened July 11, 2013. The low bid is from Kamins Construction, in the amount of \$555,302.04. The City's purchasing policies require that Council authorize any public works contract in excess of \$300,000.

RESOURCE/FINANCIAL IMPACT:

This project is funded by the Surface Water Utility and a Department of Ecology water quality grant in the adopted Capital Improvement Plan (CIP). The adopted 2013-2018 CIP includes \$840,000 for this project.

RECOMMENDATION

Staff recommends that the City Council authorize the City Manager to execute a construction contract with Kamins Construction in the amount of \$555,302.04 for the N Fork Thornton Creek LID Stormwater Retrofit Project.

Approved By: City Manager **JU** City Attorney **IS**

BACKGROUND:

In 2010 the City was awarded a grant through the Washington State Department of Ecology's Water Quality Program to install low impact development (LID) facilities within the North Fork Thornton Creek subbasin (Attachment A). Specifically gravel galleries (an underground trench that allows stormwater to be absorbed into the ground by way of perforated stormwater pipes) and bioretention cells (rain gardens) are to be installed at the following locations:

Facility	Location
Gravel Gallery (qty:2)	5 th Ave NE between NE 178 th St and NE 178 th PI
Bioretention Cell (qty: 3)	NE 180 th St at 9 th Ave NE and 10 th Ave NE
Bioretention Cell (qty: 2)	10 th Ave NE at NE 180 th St
Bioretention Cell (qty: 7)	10 th Ave NE between NE 177 th PI and NE 178 th PI
Bioretention Cell (qty: 3)	10 th Ave NE at NE Serpentine PI
Bioretention Cell (qty: 2)	12 th Ave NE at NE 177 th St

The project was formally advertised on June 10, 2013 and bids were opened on July 11. Four bids were received, and Kamins Construction was determined to be the lowest responsible bidder at an amount of \$555,302.04. City staff has verified that the contractor meets all the responsibility criteria defined by State law and within the City contract documents. Construction is anticipated to start in mid-August with completion anticipated at the end of October.

ALTERNATIVES ANALYSIS

Four bids were received as detailed in the following table:

Contractor Name	Bid Amount
Kamins Construction	\$555,302.04
Interwest Construction	\$576,938.50
Roads Construction NW	\$596,565.00
A1 Landscaping and Construction	\$637,836.00
<i>Engineer's Estimate</i>	<i>\$489,855.00</i>

City staff has determined that the Kamins Construction bid is responsive and that they have met the bid requirements. This was verified by:

- Evaluation of all bids through the creation of bid tabs
- Verification that the contractor has not been barred from contracting on federal- and state-funded projects
- Coordination with the Department of Ecology (DOE) to ensure that their requirements were met.

FINANCIAL IMPACT

EXPENDITURES

Design:		
Staff and other Direct Expenses		\$13,750
Consultant Design Contract		\$195,650
Construction:		
Staff and other Direct Expenses	\$ 27,070	
Consultant Services during Construction	\$ 10,000	
Construction Contract	\$555,302	
Total Construction		\$592,372
Contingency		\$38,228
Total Project Cost		\$840,000

REVENUE

Department of Ecology Stormwater Grant	\$630,000
Surface Water Capital Fund	\$210,000
Total Revenue	\$840,000

With the uncertainty of construction during design, the project was packaged with additive bid work to better maximize the available funding. The additive bid work would be awarded as funding was available. Based upon the bids received, all of the additive bids are being recommended for award. The total award amount (including all additive bid items) results in a remaining revenue balance of \$38,228 of which \$28,671 is from grant funds. These funds will be held in reserve to cover the cost of any unforeseen circumstances that may arise during construction. Any grant funds that are remaining after construction is complete will be returned to the DOE as the balance would not be sufficient to design and construct further improvements.

RECOMMENDATION

Staff recommends that the City Council authorize the City Manager to execute a construction contract with Kamins Construction in the amount of \$555,302.04 for the N Fork Thornton Creek LID Stormwater Retrofit Project.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Adoption of Resolution No. 349 adopting the 2014-2019 Transportation Improvement Plan (TIP)
DEPARTMENT:	Public Works
PRESENTED BY:	Mark Relph, Public Works Director Kirk McKinley, Transportation Services Manager Alicia McIntire, Senior Transportation Planner
ACTION:	<input type="checkbox"/> Ordinance <input checked="" type="checkbox"/> Resolution <input type="checkbox"/> Motion <input type="checkbox"/> Discussion

PROBLEM/ISSUE STATEMENT:

In accordance with RCW 35.77.010, cities in Washington State are required to prepare and adopt a comprehensive six-year transportation plan. A city's six-year transportation improvement plan (TIP) must be consistent with its comprehensive plan transportation element. RCW 35.77.010 requires that the City hold at least one public hearing on the TIP and to submit the adopted TIP to the Washington State Secretary of Transportation. The Department of Transportation has historically accepted submittal of TIPs through the month of July.

The six-year TIP should include transportation projects, such as road and bridge work as well as new or enhanced bicycle or pedestrian facilities. In addition to local projects, the TIP should also identify projects and programs of regional significance for inclusion in the regional TIP. The City's TIP is used to secure federal funding for transportation projects as part of the Statewide Transportation Improvement Plan (STIP).

Through development of the TIP, the City prioritizes these unfunded needs utilizing information such as the City's Transportation Master Plan (TMP), safety and accident history, growth trends, traffic studies and the transportation element of the City's Comprehensive Plan. Project descriptions, costs, funding options and the project status are identified for each project in the TIP.

Until recently, the annual update of the City's TIP was conducted in conjunction with a review of the Capital Improvement Plan (CIP). Through the CIP update process, the City develops a revenue forecast that provides an estimate of the funding available to accomplish transportation improvement needs. Generally, the desire and need for transportation improvements greatly exceeds the available revenues. With the change in schedule for development of the CIP to coincide with the annual budget schedule, the TIP is now being prepared and presented to Council in advance of the CIP. The City Council will review the City's proposed six-year CIP as part of the 2014 budget process later this fall. Next year, staff anticipates bringing the TIP to Council for review in March or April.

RESOURCE/FINANCIAL IMPACT:

There is no financial impact associated with adoption of the TIP. The projects identified in the City's TIP are a combination of funded projects in the CIP, including projects that are partially funded or underfunded, as well as currently unfunded projects the City would like to undertake should funding become available. Listing projects in the TIP makes them grant eligible, as most grant programs will not fund projects not included in a jurisdiction's TIP. The vast majority of projects included in the TIP are unfunded or partially funded. All of the funded programs are identified as underfunded, as additional work could be completed through these programs with supplemental funding.

RECOMMENDATION

Staff recommends that Council adopt Resolution No. 349, adopting the 2014-2019 TIP.

Approved By: City Manager ***JU*** City Attorney ***IS***

INTRODUCTION

In accordance with state law, the City is required to prepare a six-year Transportation Improvement Plan (TIP). The TIP identifies projects to meet local transportation needs, as well as projects of regional significance, such as the Aurora Corridor project. It also includes some on-going programs, including the curb ramp, gutter and sidewalk program and the traffic safety improvements program. The TIP identifies projects for all modes of transportation, including bicycles, pedestrians, vehicles and transit. Projects in the TIP can be funded and unfunded and the draft TIP includes the transportation projects identified in the preliminary 2014-2019 CIP. Including projects in the TIP improves the city's eligibility to secure grant funding. As discussed with the CIP policy issues at the June 17 and July 8 Council meetings, many grants require a match and including a dedicated fund in the CIP to meet this requirement can improve the City's success in securing grant funding.

DISCUSSION

Until recently, the annual update of the City's TIP was conducted in conjunction with a review of the Capital Improvement Plan (CIP). Through the CIP update process, the City develops a revenue forecast that provides an estimate of the funding available to accomplish transportation improvement needs. Generally, the desire and need for transportation improvements greatly exceeds the available revenues. With the change in schedule for development of the CIP to coincide with the annual budget schedule, the TIP is now being prepared and presented to Council in advance of the CIP. The City Council will review the City's proposed six-year CIP as part of the 2014 budget process later this fall.

In the past, the City has utilized the preceding year's TIP as the foundation for development of a new TIP. Last year's TIP incorporated the high priority projects identified in the 2011 Transportation Master Plan (TMP) as part of the prioritized lists for safety and operations, bicycle and pedestrian projects. Staff also included several projects from the previous year's TIP which were identified by Council as important projects for the City.

The draft 2014-2019 TIP was presented to Council on July 8, 2013. The staff report, including discussion, can be viewed at <http://cosweb.ci.shoreline.wa.us/uploads/attachments/cck/council/staffreports/2013/staffreport070813-8d.pdf>.

At the July 8 public hearing, one public comment was received about the projects identified for the Richmond Beach Road corridor.

Council discussed the draft 2014-2019 TIP at the July 8 meeting. Councilmembers emphasized the importance of maintaining existing infrastructure and would like to see additional funding allocated toward this purpose. Specific allocations for the City's infrastructure will be discussed in conjunction with development of the City's CIP this fall. Council also discussed the projects identified for Richmond Beach Road NW and the ongoing efforts by staff to reduce costs associated with the Aurora Corridor Improvement project (N 192nd Street – N 205th Street).

In the July 8 staff report, staff followed up on Council's June 17 conversation about the CIP. Sidewalks on 8th Avenue NW were identified as a potential project at the June 17 meeting. Construction of sidewalks on 8th Avenue NW in the vicinity of Einstein Middle School is divided into smaller projects, all of which are medium priorities in the TMP. Two other high priority sidewalk projects in the vicinity of Einstein Middle School (3rd Avenue NW from NW 189th Street to NW 195th Street and NW 195th Street from 3rd Avenue NW to Aurora Ave N) are included in the draft TIP. Additionally, staff does not believe that sidewalks on 8th Avenue NW would be a good candidate for grant applications, one of the primary criteria used by staff to identify sidewalk projects for the TIP. For these reasons, staff is recommending that sidewalks on 8th Avenue NW not be included in the TIP. If Council determines that they would like to include sidewalks along 8th Avenue NW from NW 195th to NW 205th Street the estimated cost for sidewalk improvements is estimated at \$775,000. This would be an unfunded project at this time. Even though staff does not recommend including the 8th Avenue NW sidewalks at this time, this does not preclude Council from including this project (or any other project not identified in the TIP) in the CIP.

STAKEHOLDER OUTREACH

The draft 2014-2019 TIP was presented to Council and a public hearing held on July 8.

COUNCIL GOAL(S) ADDRESSED

This project addresses Council Goal 2, "Improve Shoreline's utility, transportation, and environmental infrastructure." By identifying and developing a plan for multi-modal transportation improvements, the City is working to preserve and enhance the infrastructure and Council Goal 5: "Promote and enhance the City's safe community and neighborhood initiatives and programs by funding the Traffic Safety Improvements program."

RESOURCE/FINANCIAL IMPACT

There is no financial impact associated with adoption of the TIP. The projects identified in the City's TIP are a combination of funded projects in the CIP, including projects that are partially funded or underfunded, as well as currently unfunded projects the City would like to undertake should funding become available. Listing projects in the TIP makes them grant eligible, as most grant programs will not fund projects not included in a jurisdiction's TIP. The vast majority of projects included in the TIP are unfunded or partially funded. All of the funded programs are identified as underfunded, as additional work could be completed through these programs with supplemental funding.

RECOMMENDATION

Staff recommends that Council adopt Resolution No. 349, adopting the 2014-2019 TIP.

Attachment A: Resolution 349
Exhibit A – 2014-2019 TIP

RESOLUTION NO. 349

A RESOLUTION OF THE CITY COUNCIL THE CITY OF SHORELINE, WASHINGTON, ADOPTING A SIX-YEAR (2014-2019) TRANSPORTATION IMPROVEMENT PLAN AND DIRECTING THE SAME TO BE FILED WITH THE STATE SECRETARY OF TRANSPORTATION AND TRANSPORTATION IMPROVEMENT BOARD.

WHEREAS, the City Council of the City of Shoreline has previously adopted a Comprehensive Plan including a six-year Transportation Improvement Plan required by RCW 35.77.010 as part of the Transportation Element of the Plan, and

WHEREAS, the City Council of the City of Shoreline has reviewed the work accomplished under the said Plan, determined current and future City Street needs, and based upon these findings a Six-Year Transportation Improvement Plan for the ensuing six (6) calendar years has been prepared, and

WHEREAS, a public hearing was held on the Six-Year Transportation Improvement Plan on July 8, 2013.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF SHORELINE, WASHINGTON, HEREBY RESOLVES AS FOLLOWS:

Section 1. Plan Adopted. The Six-Year Transportation Improvement Plan for the City of Shoreline for the ensuing six (6) calendar years (2014-2019 inclusive) attached hereto as Exhibit A and incorporated herein by this reference, which Plan sets forth the project location, type of improvement and estimated cost thereof, is hereby adopted.

Section 2. Filing of Plan. Pursuant to Chapter 35.77.010 RCW, the City Clerk is hereby authorized and directed to file a copy of this resolution forthwith, together with the Exhibit attached hereto, with the Secretary of Transportation and a copy with the Transportation Improvement Board for the State of Washington.

ADOPTED BY THE CITY COUNCIL ON JULY 22, 2013.

Keith A. McGlashan, Mayor

ATTEST:

Scott Passey
City Clerk

EXHIBIT A
City of Shoreline
2014-2019 Transportation Improvement Program

1. What is the Six-Year Transportation Improvement Program (TIP)?

The City of Shoreline Six-Year Transportation Improvement Program (TIP) is a short-range planning document that is updated annually based upon needs and policies identified in the City's Comprehensive Plan and Transportation Master Plan. It identifies Shoreline's current needed transportation projects and programs for the next six years.

2. What is included in the TIP?

A project sheet for each project or program in the TIP has been developed and includes the following:

- **Scope/Narrative:** A description of the project or program including the specific work to be performed, project elements, project/program purpose and/or interagency coordination efforts.
- **Funding:** Identifies whether a project is funded, partially funded or unfunded and known funding sources.
- **Funding Outlook:** A description of the current funding projection for the project (when applicable).
- **Project Status:** Identifies Council goals achieved by each project, the stage of a project (such as design, environmental review or construction), previous years' work and expenditures and/or potential revenue sources for projects.
- **Purpose/Goals Achieved:** Identifies which of several purposes the project satisfies and/or general goals the project achieves including Non-motorized Transportation; System Preservation; Growth Management; Improves Efficiency and Operations; Safety; Major Structures; Corridor Study; and/or Interjurisdictional Coordination.

Projects in the TIP are sorted into four categories: Funded Programs, Funded Projects, Unfunded Programs and Unfunded Projects. Projects and programs that are underfunded or partially funded are included in the funded categories. Generally, funded projects are those included in the City's 2013-2018 Capital Improvement Plan. All projects and programs identified for 2019 are unfunded. All of the funded programs are identified as underfunded, as additional work could be completed through these programs with supplemental funding.

3. Project Costs and Funding

Each project listed in the TIP includes an estimated project cost, the amount of funding secured or unsecured and the funding source for the six year period covered by the TIP. If grant funding has been secured from a specific source, it is identified. The Funding Outlook section of each project sheet identifies the total project cost and any previous expenditures. Potential grant funding sources are also identified in this section. Projects listed that are necessary to accommodate growth and allow the City to maintain its adopted Levels of Service may be funded in part by transportation impact fees. While the City has not adopted an impact fee program at this time, Council has directed staff to develop such a program so this potential funding source is included. The costs for projects programmed for the first three years of the TIP have been developed with a higher level of detail whereas those in the latter three years have been developed with less specificity, as the projects are generally less defined.

4. Developing the TIP

The annual TIP update starts with the previously adopted TIP. Projects in the previously adopted TIP are reviewed and projects that have been completed, or because of changing conditions, are no longer needed are removed from the TIP. The remaining projects carried over from the previous TIP are reviewed for changes to cost estimates, project funding, schedule, or scope during the update process to ensure that the best information is represented in the TIP.

New projects are generated from many sources, including the City's adopted Transportation Master Plan (TMP), Council priorities, identification of new issues or deficiencies, response to growth, accident locations or the potential to secure grant funding. The City may use tools such as pavement management rating, analysis of accident data and transportation modeling to help identify potential new projects. Potential new projects undergo a review of scope, priority, schedule and cost analysis.

Updated projects from the previous TIP and new projects are then used to create a draft TIP project list. The phasing and funding of these projects in the draft TIP is based on an evaluation of project priority compared with priorities laid out in the Transportation Master Plan, commitments to projects and programs that are already underway, secured grants, partnerships the City has entered into with other jurisdictions and agencies and new opportunities that arise to leverage local transportation funding in combination with other funding sources.

Once the draft TIP has been developed, a public hearing is held to provide an opportunity for the community comment. Based on the results of the public hearing and comments from the Shoreline City Council a final version of the TIP is developed. This final version is then adopted by the City Council.

5. Relationship of the TIP to other Transportation Documents

A. Six-Year Capital Improvement Plan

Once adopted, the TIP helps to guide funding and implementation priorities during the development of the transportation portion of the Capital Improvement Plan (CIP). The CIP is a six-year financial plan addressing capital needs and is updated along with the development of the City's operating budget. The CIP shows the City-funded portion of projects and is constrained by current budget forecasts, whereas the TIP shows the complete project list, including unfunded projects and programs.

B. Transportation Master Plan

The City of Shoreline's Transportation Master Plan (TMP) is the long-range blueprint for travel and mobility, describing a vision for transportation that supports the City's adopted Comprehensive Plan. The TMP provides guidance for public and private sector decisions on local and regional transportation investments, including short-, mid-, and long-range transportation and related land-use activities. In this way, the City can assess the relative importance of projects and schedule their planning, engineering and construction as growth takes place and the need for the facilities and improvements is warranted. It also establishes a prioritization of the projects to be included in future capital improvement plans. The TMP covers all forms of personal travel – walking, bicycling, transit and automobile.

C. State and Federal Requirements

State law requires that each city develop a local TIP and that it be annually updated (RCW 35.77.010). It is also requires that projects be included in the TIP in order for cities to compete for transportation funding grants from most Federal and State sources. Federal grant funded and regionally significant projects from the first three years of the City's TIP are included in the Regional TIP, which is assembled by the Puget Sound Regional Council for King, Kitsap, Pierce, and Snohomish Counties. The regional TIPs (RTIP) from around the State are then combined to form the State TIP (STIP), which is approved by the Governor and then submitted to the Federal Highway Administration and Federal Transit Authority for their review and approval.

FUNDED PROGRAMS
(FULLY OR PARTIALLY)

Project # and Name

1. Curb Ramp, Gutter and Sidewalk Program

Scope / Narrative

The ongoing Curb Ramp, Gutter and Sidewalk Program includes design and construction of curb ramps in compliance with the Americans with Disabilities Act (ADA) standards and repairing and replacing existing cement concrete gutters and sidewalks damaged by tree roots, cracking or settlement. Curb ramp installation and sidewalk repair is often performed in advance of roadway overlay work.

Funding

FUNDING SOURCE	PARTIALLY FUNDED					UNFUNDED	2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Roads Capital	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000	\$150,000	\$900,000

Funding Outlook

This program is currently underfunded, as it is known that additional work could be performed annually. It is unknown how much additional funding is needed at this time. A full inventory is required in order to accurately assess the need. (The inventory is not funded at this time.) It is estimated that this program is underfunded annually by at least half. Future TIPs may include this information.

Project Status

Annual program, 2014-2019. This program helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

2. Traffic Safety Improvements

Scope / Narrative

This program addresses priority traffic and pedestrian safety concerns on both arterial and local streets. The primary purpose of this program will be to investigate traffic and pedestrian safety concerns, evaluate possible alternatives, and implement spot improvement projects to improve safety and enhance the livability of neighborhoods. The program works closely with neighborhoods to address cut-through traffic and neighborhood safety issues, and implement priority projects as identified in the Neighborhood Traffic Action Plans (NTAPs). This program seeks grant-funding sources for the implementation of new pedestrian safety concepts and traffic calming devices, such as school zone flashing signs.

Funding

FUNDING SOURCE	PARTIALLY FUNDED					UNFUNDED	2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Roads Capital	\$285,000	\$285,000	\$285,000	\$285,000	\$285,000	\$285,000	\$1,710,000

Funding Outlook

This program is currently underfunded by \$97,500 annually in both 2014 and 2015. Additional improvements that could be implemented with supplemental funding include street lighting, ADA upgrades, countdown pedestrian signals and projects identified in the NTAPs.

Project Status

Annual program, 2014-2019. This program helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure and Goal 5: Promote and enhance the City's safe community and neighborhood initiatives and programs.

Purpose / Goals Achieved

Project # and Name

3. Annual Road Surface Maintenance Program

Scope / Narrative

The City's long-term road surface maintenance program is designed to maintain the City's road system to the highest condition rating with the funds available using various thicknesses of asphalt overlay and bituminous surface treatments (BST). By performing continuous maintenance with BST, the City will extend the useful life of City streets by 10-12 years, increase skid resistance of the street surface, and improve ride quality. Each year, the City identifies roadways that require maintenance through this program. Preparatory work may include roadway grinding, crack sealing, pothole filling, curb ramp installation or replacement and sidewalk repair. As part of this program, the City repaints roadway markings and replaces signs. Roadways may be rechannelized where it has been determined that a different cross-section is needed.

A portion of this project budget will be dedicated to the implementation of bicycle signing and channelization throughout Shoreline in accordance with the City's adopted Bicycle System Plan. Bicycle facilities will include dedicated lanes, sharrows and freestanding signage, as well as wayfinding signs directing riders to local and regional destinations. Interim signage or striping may be installed in areas where a larger capital project is required in order to construct the permanent improvements. Installation of new roadway markings striping will be coordinated with the City's annual restriping to eliminate duplication of efforts.

Funding

	PARTIALLY FUNDED					UNFUNDED	
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Roads Capital	\$1,450,000	\$1,650,000	\$2,050,000	\$2,050,000	\$2,050,000	\$2,050,000	\$11,300,000

Funding Outlook

This program is currently underfunded by approximately 50 percent (\$700,000 - \$1,000,000) annually. Additionally, the project fund includes \$50,000 annually for installation of bicycle markings and signage, including sharrows, bicycle lanes and signage. This portion of the project is currently unfunded.

Project Status

Annual program 2014-2019. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

4. Traffic Signal Rehabilitation and Intelligent Transportation System (ITS)

Scope / Narrative

There are currently 46 traffic signals in operation in Shoreline. The typical life span of the electronic hardware is 20 years. As technology improves, the older electronics become obsolete. By the end of a signal's 20-year life span, repair and maintenance becomes more expensive as parts may no longer be available. Older traffic signal controllers are very simple and have limited functionality. New controllers can accept a wide range of timing schemes and incorporate special timing patterns for dealing with emergency traffic rerouting, fire truck pre-emption and transit signal priority. They can be connected to operate in a coordinated network and connected to a master controller. Signal timing changes can then be made from a Traffic Management Center (TMC), thereby increasing efficiency. There are rechargeable battery packs that can be installed in signal controller cabinets that will keep a traffic signal operating in the event of a loss of power. For extended outages, a generator can be added to keep the signal running. The ability to keep traffic signals operating and vehicles moving is a key part of the City's emergency back-up support in conjunction with Shoreline's Emergency Management Plan.

Intelligent Transportation System (ITS) improvements help roadways operate more efficiently. By improving efficiency, there is also an improvement in safety, productivity, travel speed and reliability. Elements of an ITS system include variable message signs that help drivers make informed decisions about travel routes (such as indicating lane closures or estimated travel times to destinations), real-time traffic flow maps, traffic monitoring cameras and communications between each traffic signal and a TMC. Existing ITS components in the City include new fiber optic lines and traffic monitoring cameras installed as part of the Aurora Corridor Improvement project. The City will begin development of TMC to help manage these systems in 2013. It may be expanded or modified as the City's ITS system grows. This project will fully integrate and coordinate all city signals, with ITS improvements where appropriate, including traffic monitoring cameras. Future expansions of the system may include coordination with traffic signals in Seattle, cities to the north and those operated by the Washington State Department of Transportation.

Funding

FUNDING SOURCE	PARTIALLY FUNDED					UNFUNDED	2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Roads Capital	\$230,000	\$230,000	\$200,000	\$200,000	\$200,000	\$200,000	\$1,260,000

Funding Outlook

The project fund includes approximately \$100,000 annually to complete the ITS components of this project. This portion of the project is currently unfunded.

Project Status

Annual program 2014-2019. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

FUNDED PROJECTS
(FULLY OR PARTIALLY)

Project # and Name

5. NE 195th Street Trail – 1st Avenue NE to 5th Avenue NE

Scope / Narrative

This project includes design and construction of a twelve foot wide separated bicycle and pedestrian trail on the north side of NE 195th St. The City will need to coordinate with Seattle City Light as relocation of the utility poles is necessary. This project is the final separated trail segment of the Northern Route of the Interurban/Burke-Gilman Connector. This project will connect to the separated trail located to the west between Meridian Ave N and 1st Ave NE and leads to the pedestrian and bicycle bridge crossing I-5. This project helps complete the Northern Connector between the Interurban and Burke Gilman Trails (Project #6).

Funding

FUNDING SOURCE	FUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
CMAQ	\$320,050						\$320,050
Roads Capital	\$49,950						\$49,950
PROJECT TOTAL	\$370,000						\$370,000

Funding Outlook

The total cost for this project is \$430,000. The City estimates \$60,000 will be spent in 2013 for project administration, including design.

Project Status

Design initiated in 2013, Construction to be completed in 2014. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

6. Interurban/Burke-Gilman Connectors

Scope / Narrative

Construct improvements to strengthen the connections between Shoreline's Interurban Trail and the Burke-Gilman Trail to the east in Lake Forest Park along two routes identified cooperatively by the Cities of Shoreline and Lake Forest Park. Projects include:

- Completion of the sidewalk gap on the north side of NE 150th St between 18th Ave NE and 20th Ave NE
- Rechannelization of NE 150th St from 15th Ave NE to 25th Ave NE to provide for bicycle lanes
- Installation of markings (lanes and sharrows) and signage for bicycles, including signage through Hamlin Park
- Construction of short pathways that provide access to the connectors

The City will work with Lake Forest Park to ensure facilities and signage are coordinated. A portion of the Northern Connection route will be the separated trail on NE 195th St from 1st Ave NE to 5th Ave NE (Project #5).

Funding

FUNDING SOURCE	FUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
WSDOT Pedestrian & Bicycle Safety Program	\$540,000						\$ 540,000

Funding Outlook

Design may be initiated in 2013, Construction to be completed in 2014 or 2015, depending upon when design begins.

Project Status

Wayfinding signage for this project will be coordinated with the City of Lake Forest Park. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

7. NW 195th Street – Safe Routes to School Project

Scope / Narrative

This project will improve pedestrian access to Einstein Middle School through the following projects:

- Construct sidewalks where missing on the south side of NW 195th St from 3rd Ave NW to 8th Ave NW
- Construct a sidewalk on the east side of 5th Ave NW between NW 195th St and NW 196th Pl
- Install or replace curb ramps at the intersections with 3rd Ave NW, 5th Ave NW and 8th Ave NW
- Install four School Zone Flashing Signs on all legs of the NW 195th St to 3rd Ave NW intersection.

This project will connect into the existing sidewalk adjacent to the school and 2 other intermittent sections previously constructed. When combined with the existing sidewalk improvements, this project will result in a continuous sidewalk along this stretch of roadway.

Funding

FUNDING SOURCE	FUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
WSDOT Safe Routes to School Program	\$168,500	\$251,500					\$420,000

Funding Outlook

The total cost for this project is \$435,000. The City estimates \$15,000 will be spent in 2013 for project administration, including design.

Project Status

Design initiated in 2013, Construction to be completed in 2015. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

8. Aurora Corridor Improvement Project – N 192nd Street to N 205th Street

Scope / Narrative

This project begins at N 192nd St and extends to N 205th St. The project scope of work includes adding Business Access and Transit (BAT) lanes, curbs, gutters, landscaping/street furnishings, sidewalks on both sides. The project adds a landscaped center median safety zone with left turn and U-turn provisions, interconnects traffic signals which also include pedestrian crosswalks, improves transit stops with new shelters and new street lighting, places overhead utility lines underground and improves the existing storm water drainage system with natural stormwater management treatments. N 200th St will be constructed in concrete, as this is the primary bus route to the Aurora Village Transit Center. N 195th St will be closed at Aurora Ave N, the intersection at Firlands Way N realigned and a "gateway" installed at N 205th St. Improvements at major intersections to enhance east-west traffic flow will also be included in the project. This is the final phase of a three mile long project. The City may also revisit previous improvements to Aurora Ave N from N 145th Street to N 192nd Street to resolve minor design or maintenance issues.

Funding

FUNDING SOURCE	FUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Roads Capital	\$50,000	\$2,510,000-\$3,000,000					\$2,560,000-\$3,050,000
Federal - STP		\$390,000					\$390,000
King County Metro		\$170,000					\$170,000
CMAQ	\$4,490,000	\$2,180,000					\$6,670,000
Transportation Improvement Board	\$3,960,000	\$3,410,000					\$7,730,000
Utility Reimbursements	\$4,090,000	\$3,440,000					\$7,530,000
Regional Mobility	\$2,370,000						\$2,370,000
FTA – RapidRide	\$2,510,000	\$2,280,000					\$4,790,000
DOE	\$400,000	\$380,000					\$780,000
HSIP		\$2,180,000					\$2,180,000
PROJECT TOTAL	\$17,870,000	\$16,940,000-\$17,440,000					\$34,810,000-\$35,310,000

Funding Outlook

The total cost for this project is estimated to be approximately \$45,000,000. The City spent approximately \$8,140,000 in previous years and will spend approximately \$1,190,000 in 2013 for project administration and construction. City staff and the consultant team are currently evaluating project scope to reduce costs and improve the potential for acceptable/fundable bids from contractors. The bid package will also include some additive alternates to the base bid whereby if there is adequate funding, then these alternates could be added back into the construction design. If the lowest acceptable bid is slightly more than the budget, then Council has the option to add more funds to the project to award the bid.

Aurora Corridor Improvement Project – N 192nd Street to N 205th Street (cont.)

Project Status

Construction will begin in 2014 and will be complete by 2016. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

10. 145th Street (SR 523) Corridor Improvements

Scope / Narrative

145th Street (SR 523) serves as the boundary between the Cities of Shoreline and Seattle. Shoreline residents utilize the roadway as a primary travel route however the right-of-way is not within the City's jurisdiction. The southern half (eastbound lanes) of the street is within the City of Seattle and the northern half (westbound lanes) is in unincorporated King County. Seattle classifies 145th St as a Primary Arterial from Greenwood Ave N to Bothell Way NE. The City of Shoreline is interested in annexing the roadway in order to develop a plan for corridor improvements and subsequently design and construct them. Planning work would be coordinated with the City of Seattle, the Washington State Department of Transportation, King County, Metro Transit and Sound Transit to evaluate the future transportation needs for this corridor.

This project incorporates multiple improvements along the corridor to improve safety and capacity. The first step will be to perform a multi-modal corridor study of 145th St (SR 523) from Bothell Way NE (SR 522) to 3rd Ave NW. The study will include an examination of safety, traffic, transit and non-motorized needs resulting from anticipated changes in the area such as growth, location of light rail station(s) and regional tolling. The cross-section is likely to be different in various segments of the corridor based upon issues such as traffic volumes and multi-modal needs. The City will begin this project pursuant to annexation of the roadway and confirmation of the location of the light rail station at NE 145th St. This project is the first phase of completing improvements to this corridor.

Upon completion of the Corridor Study, preliminary engineering and environmental work can proceed, followed by design and construction. Funding for these latter phases is not yet secured. Construction of transportation improvements will be coordinated with construction of the new waterline that is required as part of the City's acquisition of Seattle Public Utilities water system. Anticipated projects along the corridor include:

- Improvements to vehicular capacity, safety and traffic flow, transit speed and reliability and accessibility to I-5 and the future light rail station
- Upgrade of the existing substandard, non-ADA compliant sidewalks and construct new sidewalk for a continuous system along the corridor
- Installation of continuous illumination and landscaping,
- Bus stop improvements
- Upgrade the existing stormwater management system to improve water quality and provide flow control
- Installation of bicycle facilities.

145th Street (SR 523) Corridor Improvements (cont.)

Funding							
	FUNDED	UNFUNDED					
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Roads Capital	\$250,000						\$250,000
Unknown		\$1,000,000	\$2,000,000	\$5,000,000	\$20,000,000	\$20,000,000	\$48,000,000
PROJECT TOTAL	\$250,000	\$1,000,000	\$2,000,000	\$5,000,000	\$20,000,000	\$20,000,000	\$48,250,000

Funding Outlook

The estimates for 2015-2019 are included as placeholders. The corridor study will provide a general project design and more specific cost estimates for the project. It is anticipated that the total cost for this project will be significantly greater and that the project will continue beyond 2019. The City has submitted a total project cost estimate of \$200 million to the Puget Sound Regional Council for the purposes of regional transportation planning. If the City is able to complete annexation of the roadway by 2013, initial work on the corridor study may begin in late 2013. The costs associated with installation of the new waterline can be used as a grant match.

Project Status

Project initiated in 2013 and estimated for completion in 2019. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

11. 10th Avenue NW Hidden Lake Bridge Rehabilitation/Replacement

Scope / Narrative

Hidden Lake Bridge No. 167 C, located on 10th Ave NW at Innis Arden Way, was built in 1931. It is showing signs of deterioration and is in need of rehabilitation or replacement in order to ensure safe vehicle crossing. The Bridge Sufficiency Rating from the 2010 inspection is 51.3 which should make the bridge eligible for bridge repair/rehabilitation funding through WSDOT.

Funding

	UNFUNDED						
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Unknown	\$75,000	\$1,500,000-\$2,250,000	\$1,500,000-\$2,250,000				\$3,075,000-\$4,575,000

Funding Outlook

The City will pursue grant funding for this project through the Federal Highway Bridge Program. The funding identified for 2014 is for the project study to identify the appropriate improvements for the roadway, including cost estimates. It is estimated that the total study cost will be \$275,000. It is estimated that the City will begin this study and spend \$200,000 in 2013. Because these costs are unknown at this time, a placeholder for design and construction in 2015 and 2016 is included and will be updated in future TIPs.

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

UNFUNDED PROGRAMS

Project # and Name

12. Transportation Project Grant Matching Fund

Scope / Narrative

There are many grants available to fund transportation projects and programs, provided by various sources including federal and state governments. Grants are awarded for specifically identified projects, often through a competitive evaluation process. Project applications are evaluated against a set of established criteria and compared to other submitted applications. Grant programs are often administered in categories, such as traffic safety or capacity improvements, nonmotorized transportation or transit improvements. Many agencies issue calls for grant projects in accordance with an annual or biennial cycle.

Many agencies require that the City provide a match to supplement the grant. The amount of the match varies among agencies. Sometimes grants from different agencies can be used to serve as a match. However, many projects do not qualify for multiple grants (or do not have additional grant sources at the time of application) and the City must provide the match. This fund would serve as a resource to provide a grant match for unfunded or partially funded projects. Projects within the TIP that are likely to qualify for grants and may be able to utilize matching funds include New Sidewalks Projects (#13), N 160th Street Corridor Improvements (#14), NE Perkins Way Improvements (#15), 15th Avenue NE (#16), Fremont Avenue Corridor Improvements (#17), N/NE 175th Street Corridor Improvements (#18) and Midvale Ave N (#24).

Funding

	UNFUNDED						
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Unknown	\$500,000						\$500,000

Funding Outlook

It is anticipated that any funds remaining at the end of 2014 would be carried over into 2015 to continue serving as grant match. As funds are allocated to specific projects, this program fund would be periodically replenished.

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

UNFUNDED PROJECTS

Project # and Name

13. New Sidewalk Projects

Scope / Narrative

The 2011 Transportation Master Plan (TMP) includes a Pedestrian System Plan, which identifies key pedestrian corridors in Shoreline that result in a comprehensive pedestrian network throughout the City. Over 100 projects are identified in order to complete the system. These projects are prioritized in the TMP.

The City's standard design for sidewalks includes construction of an amenity zone between the curb and the sidewalk. The amenity zone provides a buffer between pedestrians and traffic and is often vegetated. The amenity zone can be utilized as a stormwater management and treatment facility through the use of low impact development techniques such as rain gardens. It is the City's policy to maintain open stormwater channels whenever possible and these are often in the right-of-way where sidewalks would be constructed. In these circumstances, the City will need to implement flexibility in its design standards to maintain these channels as much as possible.

The primary focus of the sidewalk projects listed in this TIP is to complete sidewalks on one side of a street in order to create continuous walkways along a street or corridor. The TMP includes 28 high priority projects, many of which identify construction of sidewalks on both sides of the street as they are not present on either side. The sidewalk projects listed in this TIP include a combination of projects that fill in gaps between existing segments, projects that are well qualified for grant programs and those projects that will be required as mitigation for public projects.

*Project would only be constructed if fully funded by grants.

Project # and Name

14. N 160th Street Corridor Improvements

Scope / Narrative

This project incorporates a series of improvements along this corridor to improve safety and capacity. Individual projects include the following:

- a. Redesign and construction of the intersection at Greenwood Ave N, N 160th St and Innis Arden Way N. This could include a five legged signalized intersection or a roundabout.
- b. Design and construct improvements to the intersection at Dayton Ave N including ADA curb ramps and crossings, regrading N 160th St to improve vertical curve transition, sight distance, and accessibility, reconstruction of the traffic signal and installation of transit signal priority.
- c. Corridor wide improvements including:
 - Rechannelization of the roadway to a three lane cross-section (one travel lane in each direction with a center turn lane) with bicycle lanes and construction of islands within the center lane with turn pockets and pedestrian refuge space where feasible. The existing curbs may remain in place. The cross-section at the intersection with Aurora Ave N would be modified as needed before tapering to three in order to ensure efficient transit and traffic operations. Redevelopment of the Aurora Square site could necessitate widening N 160th St to 5 lanes to maintain LOS of the intersection at Aurora Ave N.
 - Completion of the sidewalk system, including upgrades to existing sidewalks. All sidewalks would be eight feet wide, include curb and gutter and five foot amenity zones separating the pedestrians from the roadway. This project will include reconstruction of the southside wall from approximately Linden Ave N to Dayton Ave N.
 - Upgrades to the stormwater management system to improve water quality and flow control. One component of these upgrades will be the use of low impact development techniques such as rain gardens and natural stormwater treatment features. The medians and amenity zones could be used for this purpose.
 - Continuous illumination.
 - Upgrade utilities as needed, with possible undergrounding of overhead power. The City will need to negotiate this improvement with Seattle City Light in order to receive utility reimbursement.

Some of these projects can be constructed individually, allowing the complete set of improvement to be phased over time.

N 160th St serves as a primary route to Shoreline Community College and the Aurora Square Community Revitalization Area.

N 160th Street Corridor Improvements (cont.)

Funding							
	UNFUNDED						
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Greenwood/ N 160 th St/ Innis Arden intersection (a) – unknown		\$100,000	\$700,000	\$700,000			\$1,500,000
Dayton Intersection (b) – unknown		\$100,000	\$450,000	\$450,000			\$1,000,000
Corridor wide Improvements (c) – unknown		\$100,000	\$2,475,000	\$2,475,000			\$5,050,000
PROJECT TOTAL		\$300,000	\$3,625,000	\$3,625,000			\$7,550,000

Funding Outlook
 The City is pursuing federal grant funding for this project. Funding allocated to 2014 will be used to refine the project scope and perform alternatives analysis for the entire corridor.

Project Status
 This project helps to implement City Council Goal 1: Strengthen Shoreline's economic base and Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

<input checked="" type="checkbox"/> Improves Efficiency and Operations	<input checked="" type="checkbox"/> Interjurisdictional Coordination	

Project # and Name

15. NE Perkins Way Improvements – 10th Avenue NE to 15th Avenue NE

Scope / Narrative

Construct bicycle and pedestrian improvements on NE Perkins Way from 10th Ave NE to 15th Ave NE. This roadway segment currently includes two travel lanes and a pedestrian walking area on the north side separated from the travel lanes by jersey barriers. No bicycle facilities are present. This segment is part of the Northern Connector route from the Interurban Trail in Shoreline to the Burke-Gilman Trail in Lake Forest Park. A study is needed to determine the appropriate improvements for this roadway. This project helps complete the Northern Connector between the Interurban and Burke Gilman Trails (Project #6).

Funding

	UNFUNDED						
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Unknown		\$50,000				\$440,000-\$580,000	\$490,000-\$630,000

Funding Outlook

The funding identified for 2015 is for the project study to identify the appropriate improvements for the roadway, including cost estimates. Because these costs are unknown at this time, a placeholder for design and construction in 2019 is included and will be updated in future TIPs.

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

16. 15th Avenue NE – NE 172nd Street to NE 195th Street

Scope / Narrative

This project would construct sidewalks and accessible bus stops on the west side of the road from NE 180th St to NE 195th St. There are significant topographic challenges related to constructing a sidewalk on the west side of this arterial. A corridor study will be performed to identify a preferred transportation solution for this roadway segment. Alternatives to accommodate bicycles will be analyzed, including rechannelization of the roadway from four lanes to three. The cross-section of the road from NE 175th St to NE 180th St would be reduced from four lanes to three and bicycle lanes would be installed. Right-of-way may need to be purchased to complete this project.

Funding

Project # and Name

18. N/NE 175th Street Corridor Improvements

Scope / Narrative

This project incorporates a series of improvements along this corridor to improve safety and capacity. Individual projects include the following:

- a. *N 175th St – Stone Ave N to Meridian Ave N* and Interstate 5 to 15th Ave NE*: This project will design and construct improvements which will tie in with those recently constructed by the Aurora project. The improvements include: reconstruction of the existing street to provide two traffic lanes in each direction, a center lane with two-way left turn areas, medians and turn pockets, bicycle lanes (integrated into the sidewalk), curb, gutter, and sidewalk with planter strip where feasible, illumination, landscaping and retaining walls. Intersections with high accident rates will be improved as part of this project. The profile of the roadway between Ashworth Ave N and Stone Ave N will be lowered to meet standard sight distance requirements. This project includes improvements to the I-5 intersections, in coordination with WSDOT.
- b. *N 175th St and Meridian Ave N**: Construct an additional northbound add lane on Meridian Ave N, which involves widening the northbound approach to include a second through lane. Rechannelize the southbound approach with a single left turn lane and increase the westbound left turn pocket length.
- c. *N/NE 175th St – Meridian Ave N to the Interstate 5 on-/off-ramps**: Extend the left-turn pockets between Meridian Ave N and I-5 to provide additional storage capacity for left turning vehicles at the intersections.
- d. *NE 175th St – 15th Ave NE – 25th Ave NE**: Perform overlay/preservation work. Re-stripe the westbound approach to provide a dedicated left-turn pocket and shared through/right lane. With dedicated left-turn pockets, remove split-phase signal operation and optimize for eight-phase signal operation.
- e. *Interchange Improvements*: Projects were identified in the City's TMP to accommodate growth and maintain the City's adopted transportation level of service including several of the projects listed above. In addition to these projects, the City's travel demand model also identified the potential need to improve the interchange at NE 175th Street and I-5. Currently, this interchange experiences delays during the AM and PM peak periods, due in part to the ramp metering, and this backup affects other intersections. Reconstruction of this interchange would allow the City to improve bicycle and pedestrian safety at this location, as well as improve the operations of the nearby intersections. Because this project is not entirely within the jurisdiction of the City, it will require coordination with WSDOT.

Some of these projects can be constructed individually, allowing the complete set of improvement to be phased over time. Preservation work may occur in advance of other projects in order to maintain them until funding is available for the larger capital projects.

* Projects have been identified in the City's Transportation Master Plan as necessary to accommodate growth and allow the City to maintain its adopted Levels of Service. These projects may be funded in part by transportation impact fees.

Project # and Name

19. NW Richmond Beach Road and Richmond Beach Drive NW Corridor Improvements

Scope / Narrative

This project incorporates a series of improvements along this corridor to improve safety and capacity. Many of these projects will be constructed by private developers as mitigation for the Point Wells development. Individual projects include the following:

- a. *NW Richmond Beach Rd at 3rd Ave NW*: NW Richmond Beach Rd is a high-volume arterial street at this location and this intersection has a high accident rate. This project will design and construct left-turn lanes on NW Richmond Beach Road at the intersection with 3rd Ave NW in order to improve safety and traffic flow.
- b. *Improvements to Richmond Beach Drive NW and NW Richmond Beach Road – NW 205th Street to Aurora Ave N*: Perform a transportation corridor study in response to development proposals at Point Wells located in unincorporated Snohomish County and construct mitigation measures. The study needs to address multimodal usage, capacity and traffic flow as well as safety improvements and impacts. Additional projects may be identified in the study that will be included in future TIPs. The analysis should ultimately be approved by the City Council to form the basis for developer mitigation.
- c. *NW 196th St – Richmond Beach Dr NW to 24th Ave NW*: NW 196th St is a collector arterial with a speed limit of 25 miles per hour. It consists of two 12 foot wide lanes with no sidewalks. Improvements to the roadway should include sidewalks on both sides of the street and a continuous two-way center turn lane to help maintain traffic flow and improve pedestrian access across NW 196th St.
- d. *NW 196th St – 24th Ave NW to 20th Ave NW*: NW 196th St is a collector arterial with a speed limit of 25 miles per hour. It consists of two 12 foot wide lanes with a sidewalk on the north side and part of the south side of the street. Improvements to the roadway should include construction of a complete sidewalk on the south side of the street.
- e. *NW 195th St at 20th Ave NW*: Construct a traffic signal at this intersection which is currently controlled by stop signs on all approaches.
- f. *NW Richmond Beach Road at 15th Ave NW*: Improve operations and safety at the existing off-set intersection. This could include signalization or construction of twin roundabouts.
- g. *Richmond Beach Dr NW – NW 196th St to NW 205th St*: Richmond Beach Dr NW is the only road to serve the Point Wells site. It is designated as a collector arterial and local secondary street. It consists of two 12 foot wide lanes with no sidewalks. Some areas on the east side are wide enough to accommodate on-street parking. Improvements to this roadway include, at a minimum, widening to help maintain traffic flow and construction of a sidewalk on one side of the street.
- h. *NW Richmond Beach Rd at 8th Ave NW*: Improve safety and operation at this existing five legged intersection through a reconfiguration that eliminates the southwest approach or construction of a roundabout.
- i. *Richmond Beach Drive NW at NW 196th St*: Improve operations and safety at this intersection with modifications such as a channelized westbound to northbound right turn, an intersection reconfiguration or a roundabout.
- j. *NW 196th St at 24th Ave NW*: Improve safety and operations at this intersection through reconfiguration or a roundabout.
- k. *NW/N Richmond Beach Rd - Richmond Beach Dr NW to Fremont Ave N*: Perform overlay/preservation work. Preservation work may occur in advance of other projects in order to maintain them until funding is available for the larger capital projects.

NW Richmond Beach Road and Richmond Beach Drive NW Corridor Improvements (cont.)

Project # and Name

20. N/NE 185th Street Corridor Improvements

Scope / Narrative

NE 185th Street at Interstate 5 is the future site of a light rail station planned as part of Sound Transit's Lynnwood Link Light Rail Extension project. With the construction of this station and the operation of light rail service, the City expects increases to traffic on N/NE 185th Street as residents will drive to access the parking garage planned as part of this facility, as well as increased bicycle, pedestrian and bus traffic. Additionally, the City anticipates that the surrounding areas will transition over time to more densely developed, mixed use neighborhoods, which will also be a source of increased multi-modal traffic. The development of the Point Wells property in Snohomish County is likely to put added pressure on this roadway as well. This project incorporates a series of improvements along this corridor to improve safety and capacity. Individual projects include the following:

- a. *NE 185th St – 1st Ave NE to 7th Ave NE* and 7th Ave NE to 10th Ave NE*: Rechanelize the roadway to add a center two-way left-turn lane and bicycle lanes and remove on-street parking.
- b. *N 185th St and Meridian Ave N**: Construction of northbound and southbound add/drop lanes, which involves widening the northbound and southbound approaches to include a second through lane and receiving lane. This project also includes construction of an eastbound right-turn pocket, which involves widening eastbound approach to include a southbound right-turn pocket. This signal will be coordinated with the signal at Meridian Ave N and 1st Ave NE.
- c. *N 185th St – Midvale Ave N to Stone Ave N*: Extend the second eastbound through lane from Midvale Ave N to Stone Ave N. The lane will terminate as a right-turn only lane at Stone Ave N.
- d. *NE 185th St – Midvale Ave N – 10th Ave NE*: Perform overlay/preservation work. Work may include milling the roadway and sealing the joints between the concrete panels to improve the smoothness and improve the pavement life span

Some of these projects can be constructed individually, allowing the complete set of improvement to be phased over time. Preservation work may occur in advance of other projects in order to maintain them until funding is available for the larger capital projects.

* Projects have been identified in the City's Transportation Master Plan as necessary to accommodate growth and allow the City to maintain its adopted Levels of Service. These projects may be funded in part by transportation impact fees.

N 185 th St and Meridian Ave N(b) - unknown						\$3,390,000	\$3,390,000
N 185 th St and Meridian Ave N (b) – impact fee						\$1,130,000	\$1,130,000
N 185 th St – Midvale Ave N to Stone Ave N (c) - unknown						\$2,200,000	\$2,200,000
NE 185 th St – Midvale Ave N – 10 th Ave NE (d) - unknown						\$550,000	\$550,000
PROJECT TOTAL						\$7,540,000	\$7,540,000

Funding Outlook
 Projects identified in the City’s Transportation Master Plan as necessary to accommodate growth and allow the City to maintain its adopted Levels of Service may be funded in part by transportation impact fees.

Project Status
 This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure. Bicycle lanes were installed in 2013, however, the roadway will need to be rechannelized again in order to provide the center turn lane.

Project # and Name

21. Major Preservation Projects

Scope / Narrative

Keeping the City's physical infrastructure in good condition is a fundamental transportation capital investment. As transportation facilities age and are used, a regular schedule of rehabilitation, reconstruction and replacement is needed to keep the system usable. Timing is important: if preservation investment is deferred, costs increase dramatically.

In addition to the City's annual road surface maintenance program, several roadways in Shoreline are in need of significant maintenance work on the following roadways including:

- N/NE 155th St: Aurora Ave N to 15th Ave NE
- N/NE 175th St: 15th Ave NE to 25th Ave NE (costs included with Project #18)
- N/NE 185th St: Midvale Ave N to 10th Ave NE (costs included with Project #20)
- NW/N Richmond Beach Rd: Richmond Beach Dr NW to Fremont Ave N (costs included with Project #19)
- Fremont Ave N: N 175th St to N 185th St (costs included with Project #17)
- Meridian Ave N: N 145th St to N 205th St (costs included with Project #22)
- Westminster Way N: N 145th St to N 155th St
- 15th Ave NE: NE 150th St to NE 172nd St
- Greenwood Ave N: Westminster Way N to N Carlyle Hall Rd
- Dayton Ave N: N 172nd St to N Carlyle Hall Rd
- N Carlyle Hall Rd: NW 175th St to Fremont Ave N
- 8th Ave NW: NW Richmond Beach Rd to NW 180th St
- 6th Ave NW: NW 175th St to NW 180th St
- N/NW 200th St: 3rd Ave NW to Aurora Ave N
- N/NW 195th St: 8th Ave NW to Aurora Ave N
- Linden Ave N: N 175th St to N 185th St

On roadways where both capital projects and preservation work are identified in this TIP, the preservation work may occur in advance of those projects in order to maintain them until funding is available for the larger capital projects. The costs for these projects are identified on the individual project pages.

Funding

FUNDING SOURCE	UNFUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Unknown	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$2,000,000	\$12,000,000

Funding Outlook

The City will pursue federal grant funding for overlay work. Grant funding would be pursued for the projects that are most highly qualified. The annual funding identified for 2014-2019 will not be adequate to perform overlay work for all of the roadways identified.

Major Preservation Projects (cont.)

Project Status

Overlay work on N/NE 175th Street from Stone Ave N to I-5 was completed in 2013 and funded in part through by STP grant funding. This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

22. Meridian Avenue N – N 145th Street to N 205th Street

Scope / Narrative

This project incorporates a series of improvements along this corridor to improve safety and capacity including:

- Rechannelize the roadway to add a center two-way left-turn lane and bicycle lanes (requires removal of on-street parking)
- Installation of traffic calming measures, such as radar speed display signs
- Repair damaged sidewalks, curbs and gutters and install new sidewalks where missing
- Installation of curb ramps to improve ADA accessibility
- Perform overlay work
- Underground utilities.

Right-of-way may need to be acquired in order to meet ADA requirements around trees. This project has been identified in the City's Transportation Master Plan as necessary to accommodate growth and allow the City to maintain its adopted Levels of Service. These projects may be funded in part by transportation impact fees.

As part of improvements to this corridor, the City may choose to incorporate additional projects identified in this TIP, such as intersection improvements at N 175th St (Project # 18) or N/NE 185th St (Project # 20)

Funding

	UNFUNDED						
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Unknown						\$5,910,000	\$5,910,000
Impact Fee						\$1,970,000	\$1,970,000
PROJECT TOTAL						\$7,880,000	\$7,880,000

Funding Outlook

Projects identified in the City's Transportation Master Plan as necessary to accommodate growth and allow the City to maintain its adopted Levels of Service may be funded in part by transportation impact fees.

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

23. Aurora Avenue N at N 145th Street Dual Left Turn Lane

Scope / Narrative

Construction of an additional south to east bound left turn lane (for a total of two) at N 145th St and Aurora Ave N and construction of a new signal at N 149th St and Aurora Ave N. The N 145th St dual left turn lane will require acquisition of additional right-of-way along the western edge of Aurora Ave N (the Aurora project constructed "interim" sidewalks in this location). Schedule of this project may be influenced by redevelopment of the northwest corner of Aurora Ave N and N 145th St, implementation of improvements to the 145th St corridor or improvements by the City of Seattle. The additional width required for this turn lane is currently under consideration by the City of Seattle as part of their Aurora Ave N project planning. Shoreline would only proceed with this project in conjunction with construction by the City of Seattle as part of their Aurora Ave N project. The new signal at N 149th St will need to meet signal warrants and receive Washington State Department of Transportation approval. This signal project should be combined with the dual left turn at N 145th St in order to address queue length demands.

Funding

FUNDING SOURCE	UNFUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Unknown						\$4,700,000	\$4,700,000

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

24. Midvale Avenue N – N 175th Street to N 183rd Street

Scope / Narrative

Design, acquire right-of-way and reconstruct Midvale Ave N. This project will move lanes off Seattle City Light (SCL) right-of-way. The project is proposed to include undergrounding electrical distribution lines, curb, gutter, sidewalks, amenity zone and on-street parking and angle parking on the west in the SCL right-of-way. Midvale Ave N serves the City's Town Center.

Funding

UNFUNDED							
FUNDING SOURCE	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	2014-2019 Total
Unknown						\$510,000	\$510,000

Funding Outlook

Much of this project will be constructed by private development as properties within the Town Center are redeveloped. The City's primary contributions will be the construction of on-street parking and some sidewalks. The cost estimate does not include the funding needed for utility undergrounding.

Project Status

This project helps to implement City Council Goal 1: Strengthen Shoreline's economic base and Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Purpose / Goals Achieved

Project # and Name

25. N 165th Street and Carlyle Hall Road N Sidewalk and Intersection Safety

Scope / Narrative

This project will improve an odd-shaped intersection to improve visibility and safety, as well as providing pedestrian safety features. The design has not been completed and one of the first steps will be to scope out alternatives.

Funding

FUNDING SOURCE	UNFUNDED						2014-2019 Total
	2014 Estimate	2015 Estimate	2016 Estimate	2017 Estimate	2018 Estimate	2019 Estimate	
Unknown				\$50,000		\$2,100,000	\$2,150,000

Funding Outlook

The funding identified for 2017 is for the project study to identify the appropriate improvements for the intersection, including cost estimates. Because these costs are unknown at this time, a placeholder for design and construction in 2019 is included and will be updated in future TIPs.

Project Status

This project helps to implement City Council Goal 2: Improve Shoreline's utility, transportation, and environmental infrastructure.

Project # and Name

26. Firlands Way N –Aurora Avenue N to Linden Ave N

Scope / Narrative

Construct sidewalks and amenity zones and install angle-in on-street parking on both sides of the street. The project scope may include exposing and refurbishing the original red brick roadway surface, if it still exists and is usable. This segment of Firlands Way N is located in the City's Town Center.

Funding
