

**CITY COUNCIL AGENDA ITEM**  
CITY OF SHORELINE, WASHINGTON

<b>AGENDA TITLE:</b>	Public Hearing on 2002 Proposed Budget Revenue Sources and Ordinance No. 289 Adopting the 2002 Property Tax Levy
<b>DEPARTMENT:</b>	Finance
<b>PRESENTED BY:</b>	Debbie Tarry, Finance Director

**PROBLEM/ISSUE STATEMENT:** State law requires the City Council to hold a public hearing on revenue sources for the next year's budget. The hearing must include consideration of property tax revenues and must be held before the property tax levy ordinance is passed and submitted to King County. State law requires that the City adopt its property tax levy by November 15, although this is usually waived by the King County Council by establishing an alternative date. Based on prior years we are estimating that the City of Shoreline will be required to adopt its levy ordinance and certify the amount to the County Assessor by December 7, 2001. Staff is bringing forward alternative property tax levy ordinances for Council consideration and proposed 2002 fee changes consistent with past Council policy. The purpose of this public hearing is to provide an opportunity for public comment on these proposals as required by state law.

After the public hearing, Council can choose to take action on the proposed property tax levy ordinance, or can direct staff to bring these issues forward at a future regular meeting.

**ALTERNATIVES ANALYZED:** Staff has prepared information regarding the following property tax levy alternatives for Council consideration:

1. Adopt a levy increase of 1% consistent with the restrictions of Initiative 747 (subject to a statewide election November 6<sup>th</sup>). The proposed budget is based upon this levy amount. (Ord. 289, Attachment A)
2. Adopt a levy increase using the Implicit Price Deflator (IPD). The projected 2002 IPD is 1.89%. The Council can adopt this levy with a simple majority vote. (if I-747 fails)
3. Adopt a levy in excess of the IPD up to a maximum increase of 6%. Any levy in excess of the IPD will require that Council identify a "substantial need" within the property tax ordinance and the ordinance must be approved by a super-majority (majority plus one) vote. (if I-747 fails) (Version B of Ord. 289, Attachment B)

Staff has analyzed general City rate adjustments based upon past Council direction. Council has the option of directing staff to develop alternatives to this proposal.

**FINANCIAL IMPACT:** The total resources used in the Proposed 2002 Budget are \$48,590,322. Property tax represents 13% of the overall City resources in the amount of \$6,435,036. Fees & Charges represent 9% of the City's overall resources and total \$4,155,514. If the Council does not approve the proposed CPI-U increase for City fees, the 2002 proposed revenues will need to be decreased by approximately \$21,000.

The following table provides the difference in revenue, the preliminary levy rate, and the projected impact to a homeowner of a \$222,000 home of the different property tax levy options that may be available for Council adoption.

	<b>Impact to Homeowner of \$222,000 Home</b>					
	<b>% of Levy Increase</b>	<b>Revenue Generated Above 2001 Budget*</b>	<b>Revenue Above Budget</b>	<b>Anticipated Levy Rate</b>	<b>Compared to 2001**</b>	<b>Compared to Budget</b>
<b>I-747 (Budget)</b>	1.00%	174,688		1.4360	\$4.08	
<b>IPD</b>	1.89%	230,943	56,255	1.4486	\$6.87	\$2.79
<b>CPI</b>	3.60%	339,028	164,340	1.4727	\$12.23	\$8.15
<b>Maximum</b>	6.00%	490,726	316,038	1.5066	\$19.75	\$15.67

\*Includes New Construction Revenue (\$31,580), Levy Refunds (\$16,057) and Reduction in non-collection rate of 1% (\$64,320)

\*\*Equivalent value of home for 2001 is estimated to be \$206,704

The City's property tax collections represent only 10.8% of the total property tax paid by City of Shoreline property owners.

### RECOMMENDATION

Staff recommends that Council conduct the public hearing and then move to approve Ordinance No.289, establishing the 2002 property tax levy.

Approved By:            City Manager  City Attorney 

## INTRODUCTION

The City is required to hold a public hearing on the proposed 2002 revenues including the proposed property tax levy. The Council should hold this public hearing and then adopt Ordinance No. 289, which sets the property tax levy for 2002. The proposed 2002 fee schedule will be adopted as part of the 2002 budget, and therefore separate action is not required for adopting these fees.

## ANALYSIS

### Fees

In 1999 your Council adopted Ordinance No. 218, which provided for annual adjustments to the City's fees for land use and building permit development applications, for parks and recreation, and for public records charges. In year 2000, your Council basically readopted Ordinance No. 218, with the adoption of Ordinance No. 256 in response to Initiative 722. Ordinance No. 256 (Attachment C) contained the same annual fee adjustment provisions that had originally been approved in 1999.

The annual adjustment section of this ordinance provided that the fee schedules be automatically updated on an annual basis by the Seattle Consumer Price Index for all urban consumers (CPI-U) for July through June and the adjustments be included in the City Manager's Proposed Budget. The July to June Seattle CPI-U is 4%, and therefore a 4% increase was applied to the City's existing fee schedule to develop the proposed 2002 fees included in the 2002 Proposed Budget (pages 289-299). Because of the rounding provisions of ordinance no. 256, in which some fees are rounded to the nearest dollar or the nearest quarter dollar, many fees did not change. These are primarily smaller fees such as swimming pool admissions and copy charges.

Some fees will not change, as they have been recently adopted (e.g. Spartan Gym) or there are alternative policies for establishing the fee (e.g. recreation classes). It is anticipated that the recommended CPI-U adjustment to the fees will generate approximately \$10,000 in additional park and recreation revenue and \$11,000 in development revenue based on 1999 and year 2000 activity levels.

The City Manager can choose not to include the annual CPI adjustments in the proposed budget and the City Council may choose not to include the annual CPI adjustments in the Adopted Budget. This was the case in 2001, as it was unclear how Initiative 722 would impact fee adjustments. Since the CPI-U fee adjustments were waived in 2001, this will be the first time that the CPI-U adjustment has been made since 1999 when establishing fees for year 2000. As a result this will be the first inflationary increase in fees since year 2000. The 2002 fee adjustments do not recoup the full inflationary increases that have occurred since fees were set for year 2000. The recommended CPI-U increase in fees assists with maintaining the cost recovery standards that were established when fees were adjusted in 1999 as part of the year 2000 budget process.

During the 2002 budget review process and during the public hearings your Council will have the opportunity to hear from stakeholders on any possible concerns that they may have with the proposed fee changes. The fee adoption will occur as part of the 2002 budget adoption, currently scheduled for December 10, 2001. The proposed 2002 fee schedule is included as Attachment D to this staff report.

## Property Tax

As has already been discussed with Council, the outcome of I-747 will affect the options available to Council in adopting the property tax levy for year 2002. The 2002 Proposed Budget uses the 1% levy limitation that would be established with the passage of I-747.

Depending on the outcome of the November 6<sup>th</sup> election, Council may want to consider other property tax levy options. If I-747 does not pass Council could adopt a property tax levy increase equivalent to the IPD (1.89%) with a simple majority vote. If your Council decides to adopt a levy greater than the IPD, up to a maximum of a six percent increase, a super-majority vote (majority plus one) and a finding of substantial need would be required.

In defining a substantial need the City has need for resources both for capital and operational purposes. The proposed 2002 through 2007 CIP identifies \$8.8 million in unfunded road projects and \$2.6 in unfunded surface water projects. In addition, the CIP program is reliant on nearly \$57 million of grant funding to complete all of the proposed projects. Although it is the intent of the City to seek these grant resources, in many cases the final decision on the grant awards are outside of the City's control. If these grants aren't provided, alternative funding must be identified to complete the projects as proposed or changes must be made to the projects to fit available financial resources.

On the operational side, there is concern regarding the continuation of the Motor Vehicle Excise Tax (MVET) backfill that has been provided by the State. As your Council is aware, the proposed 2002 budget utilizes \$439,000 of the MVET backfill for on-going operations and the City's long-term financial projections rely on approximately the same amount annually. Although the City has already received the 2002 MVET backfill allocation, we are now hearing from the state, that due to the economic down turn, there is a possibility that they may discontinue the MVET backfill program in the future. This will not only reduce monies that the City has used to fund the capital improvement program, but also will create a gap in the amount of operating revenues available to the City for on-going operational services. In addition to these suggestions, the City anticipates future increases in operational costs related to the completion of capital improvement projects and your Council has set a goal of implementing the economic development plan that may require City investment.

This chart provides an overview of the long-term impact of the various property tax levies that would be available to your Council if I-747 does not pass.

Council will have an opportunity to hear comments from stakeholders regarding the proposed property tax levy during the public hearing. At the conclusion of the public

hearing Council will have an opportunity to discuss its options in adopting the 2002 property tax levy.

#### Levy Adoption Options

**If I-747 passes**, then Council's only alternative is to adopt property tax levy that represents an increase of 1% or less. The adoption of Version "A" of Ordinance 289 (Attachment A) would set the levy rate at 1% over the 2001 levy as proposed in the 2002 budget.

**If I-747 fails**, then Council has the following alternatives:

1. Adopt the 1% property tax levy increase as proposed in the 2002 budget (Version "A" of Ordinance 289, Attachment A).
2. Adopt a property tax levy increase equivalent to the IPD (1.89%) by a simple majority vote. (**Amended** Version "A" of Ordinance 289, Attachment A) Council would need to amend the proposed ordinance to include a 101.89% levy limit in Section 1, and to disclose an increase of \$168,789 (2.64%) in Section 2, and an estimated levy rate of \$1.4486 in Section 3.
3. Adopt a property tax levy increase equivalent to the CPI (3.6%) by a super-majority vote and finding of substantial need. (Version "B" of Ordinance 289, Attachment B)
4. Adopt a maximum property tax levy increase (6%) by a super-majority vote and finding of a substantial need. (**Amended** Version "B" of Ordinance 289, Attachment B) Council would need to amend the proposed ordinance to include a 106.00% levy limit in Section 1, and to disclose an increase of \$431,196 (6.75%) in Section 2, and an estimated levy rate of \$1.5066 in Section 3.

#### **RECOMMENDATION**

Staff recommends that Council conduct the public hearing and then move to approve Ordinance No.289, establishing the 2002 property tax levy.

**AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF SHORELINE, WASHINGTON, ADOPTING FEES FOR SERVICES FOR LAND USE AND BUILDING PERMIT DEVELOPMENT APPLICATIONS, FOR PARKS AND RECREATION, AND FOR PUBLIC RECORDS CHARGES**

WHEREAS, the City has an overhead allocation plan to calculate both the direct and indirect cost of providing City services; and

WHEREAS, the City has utilized the overhead allocation plan to conduct user fee studies during 1997, 1998, and 1999 of the City's development and parks and recreation fees to arrive at recommendations on appropriate fee levels for the City's fee based services; and

WHEREAS, the results of these studies were presented and discussed with the City Council; and

WHEREAS, the costs of services and user fees have been reviewed to reflect the 2001 Proposed Budget and revenues and the staff has prepared recommended 2001 fee schedules for development services, parks and recreation, and public records charges;

**NOW, THEREFORE THE CITY COUNCIL OF THE CITY OF SHORELINE, WASHINGTON, DO ORDAIN AS FOLLOWS:**

**Section 1.** Adoption of Development Services Fee Schedule. The City Manager or designee is authorized to charge applicants for development and land use permits received by the City's Permit Center, the amounts set forth in the Development Services Fee Schedule, as presented in Exhibit A to this ordinance.

**Section 2.** Adoption of Parks and Recreation Fee Schedule. The City Manager or designee is authorized to charge applicants for the City's recreation programs and for rental of the City's park facilities, the amounts set forth in the Parks and Recreation Fee Schedule, as presented in Exhibit B to this ordinance.

**Section 3.** Adoption of Public Records Fee Schedule. The City Manager or designee is authorized to charge for copies of written records, maps, photographs, audio and video tape recordings and diskettes, and other material as requested through the disclosure for public records process, as presented in Exhibit C to this ordinance.

**Section 4.** Annual Adjustments. The fee schedules in Exhibits A, B and C shall be automatically updated on an annual basis on January 1<sup>st</sup> of each year by the

Seattle Consumer Price Index for all urban consumers (CPI-U). The adjustment shall be calculated each year and included in the City Manager's Proposed Budget. The annual adjustment shall be based on the CPI-U average for the period that includes the last six months of the previous budget year and the first six months of the current budget year. The City Manager may choose to not include annual CPI-U adjustments in the City Manager's Proposed Budget and the City Council may choose to not include annual CPI-U adjustments in the Adopted Budget for select user fees in any individual budget year without impacting the full force of this section for subsequent budget years.

The annual adjustments to the fees in Exhibit A shall be rounded to the nearest dollar with the exception of the Building Permit fees which shall be rounded to the nearest quarter dollar. The annual adjustments to the fees in Exhibits B and C shall be rounded to the nearest quarter dollar.

**Section 5.** Repealer. The fee schedules as enacted in Ordinance No. 218 (update of City Fee schedules is hereby repealed).

**Section 6.** Severability. Should any section, paragraph, sentence, clause or phrase of this ordinance, or its application to any person or circumstance, be declared unconstitutional or otherwise invalid for any reason, or should any portion of this ordinance be preempted by state or federal law or regulation, such decision or preemption shall not affect the validity of the remaining portions of this ordinance or its application to other persons or circumstances.

**CODE ENFORCEMENT FEES**

**Civil Penalties**

No Change

A. A civil penalty for violation of the terms and conditions of a notice and order shall be imposed in the amount of \$500.00. The total initial penalties assessed for notice and orders and stop work orders pursuant to this chapter shall apply for the first 14-day period following the violation of the order, if no appeal is filed. The penalties for the next 14-day period shall be 150 percent of the initial penalties, and the penalties for the next 14-day period and each such period or portion thereafter shall be double the amount of the initial penalties.

No Change

B. Any responsible party who has committed a violation of the provisions of Chapter 18.24 SMC will not only be required to restore damaged critical areas, insofar as that is possible and beneficial, as determined by the director of the department of planning and development services, but will also be required to pay civil penalties in addition to penalties under subsection (A)(1) of this section, for the redress of ecological, recreational, and economic values lost or damaged due to the violation. Civil penalties will be assessed according to the following factors:

1. An amount determined to be equivalent to the economic benefit that the responsible party derives from the violation, measured as the total of:
  - (a) The resulting increase in market value of the property; and
  - (b) The value received by the responsible party; and
  - (c) The savings of construction costs realized by the responsible party as a result of performing any act in violation of the chapter; and

2. A penalty of \$1,000 if the violation was deliberate, the result of knowingly false information submitted by the property owner, agent, or contractor, or the result of reckless disregard on the part of the property owner, agent, or his/her contractor. The property owner shall assume the burden of proof for demonstrating that the violation was not deliberate; and

3. A penalty of \$2,000 if the violation has severe ecological impacts, including temporary or permanent loss of resource values or functions.

No Change

C. A "repeat violation" means a violation of the same regulation in any location within the city by the same responsible party, for which voluntary compliance previously has been sought or any enforcement action taken, within the immediate preceding 24-consecutive-month period, and will incur double the civil penalties set forth above.
