

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Update on Capital Improvement Projects
DEPARTMENT: Public Works
PRESENTED BY: Paul Haines, Director

PROBLEM/ISSUE STATEMENT:

In February the City Council reviewed the 2002 – 2007 Capital Improvement Program and the changes recommended by staff. There was particular focus on the City's top five projects (Aurora Avenue, Interurban Trail, North City, 3rd Avenue Drainage, and Ronald Bog). On April 8 the Council adopted Ordinance No. 304. It amended the capital budget as a result of the Council's CIP review.

Tonight's presentation is designed as a verbal update on the status of several of the CIP projects. Staff is continuing to revise the 2003-2008 CIP. It will be brought forward for Council adoption this summer. It will incorporate all the changes in project schedules and cost estimates that have been previously presented along with any new refinements of those estimates.

RECOMMENDATION

No action is required. This item is for information purposes only.
