INTRODUCTION

The Interlocal Agreement with the City of Renton does not include annual adjustments for cost increases for services. The City of Renton's cost for providing the service have increased slightly, and they are requesting an addendum be executed to provide service in the future.

BACKGROUND

The interlocal agreement with the City of Renton signed last year does not include an annual adjustment procedure. As the result, an addendum to the interlocal agreement will need to be executed to continue providing this service.

While it would seem that a simple increase in costs would be an easy matter to handle administratively, as we manage to do for many of our contracts, we cannot do so with interlocal agreements. By state law, the City Manager does not have the ability to sign interlocal agreements for services without Council approval.

Analysis

As Council recalls, the City sends prisoners to the City of Renton to serve post-sentence jail sentences. Renton receives prisoners and makes them ready for transport later that day to Yakima County. In general, most prisoners serve less than 12 hours in Renton. For those prisoners who stay longer, the cost is increasing to \$58.80 from \$50. Staff estimates this to affect less than 170 prisoner days per year, making the overall annual fiscal impact around \$1500.

The addendum is attached at Attachment A.

RECOMMENDATION

Authorize the City Manager to sign an addendum to the Interlocal Agreement with the City of Renton for fee increases for services delivered in 2003.
