

**CITY COUNCIL AGENDA ITEM**  
CITY OF SHORELINE, WASHINGTON

<b>AGENDA TITLE:</b>	Sound Transit Light Rail Guiding Principles
<b>DEPARTMENT:</b>	Public Works
<b>PRESENTED BY:</b>	Mark Relph, Public Works Director Kirk McKinley, Transportation Services Manager Alicia McIntire, Senior Transportation Planner
<b>ACTION:</b>	<input type="checkbox"/> Ordinance <input type="checkbox"/> Resolution <input type="checkbox"/> Motion <input checked="" type="checkbox"/> Discussion

**PROBLEM/ISSUE STATEMENT:**

Sound Transit is currently in the process of evaluating alternatives to extend light rail north of Northgate. This extension is part of the 2008 voter approved Sound Transit 2 funding plan that will connect Shoreline to the light rail line. The section from downtown Seattle to the University of Washington is currently under construction. The section to Northgate will follow.

Over the past year, Sound Transit has evaluated several alignment and mode alternatives for high capacity transit in the North Corridor. Two alignment alternatives remain for evaluation and the environmental scoping process is now underway. Scoping is the process to take public and agency input to determine the "scope" of the environmental analysis. Council is being asked to review draft guiding principles addressing alignment of light rail through Shoreline which will be used to provide input to Sound Transit's scoping process. A single Locally Preferred Alternative (LPA) alignment may be an outcome from the Sound Transit scoping process.

On September 12, the City Council received a briefing from Sound Transit on the timeline and process they will follow on scoping and development of any preferred alternatives. Staff presented the first draft of the draft guiding principles, along with a schedule for public outreach, to Council on October 3. The public is invited to comment on the draft guiding principles at the October 17 meeting. At this meeting, staff will discuss the results of public outreach to date and request feedback on the principles in order to develop a final draft for the October 24 Council meeting.

**RESOURCE/FINANCIAL IMPACT:**

At this time, there is no significant financial impact to the City associated with this process, as it is being managed and funded by Sound Transit. Throughout the environmental review process, the City will need to participate in Sound Transit's process by continuing to provide technical and policy direction. This process is scheduled to be complete in 2014. In 2012 the City, along with Sound Transit, will begin engaging the community in station area planning for the selected Shoreline station

locations and to identify appropriate mitigation for the station areas. This will require dedication of City staff resources.

#### **RECOMMENDATION**

No action is required at this time. This report is for discussion purposes only. The public is invited to provide comments at this meeting. The Council is scheduled to finalize these guiding principles at their October 24 business meeting. Upon Council consensus on these principles and development of a recommended light rail alignment, the City's position on the alignment will be forwarded to the Sound Transit Board for consideration as they move through the environmental process.

Approved By:      City Manager   *JM*   City Attorney

## **STAKEHOLDER OUTREACH**

Until now, Sound Transit has managed the public outreach for the North Corridor Transit Project. Early AA scoping was undertaken in September through October 2010. Three public workshops were held in North Seattle, Shoreline and Lynnwood, as well as one agency scoping meeting, with over 200 people attending the workshops. More than 260 online surveys were completed and over 90 comments were received via mail or email. Sound Transit has also briefed various business and community groups throughout the AA process. Three public meetings, as well as one agency meeting, are being held in October for the EIS scoping process. These include one meeting on October 11, 2011 at the Shoreline Conference Center. Shoreline staff was present at the October 11 Sound Transit meeting to inform the community about the guiding principles and receive comments.

Attachment B outlines the public outreach program for development of the guiding principles. Council is scheduled to finalize the principles on October 24 and recommend a preferred alignment for the North Corridor light rail at its November 14, 2011 meeting.

## **COUNCIL GOAL(S) ADDRESSED**

This project addresses Council Goal 2: Provide safe, efficient and effective infrastructure to support our land use, transportation and surface water plans, as one of the major objectives of the Goal is to work with Sound Transit, neighboring cities, regional agencies and Shoreline neighborhoods to implement the Sound Transit II plan to bring light rail through Shoreline.

## **RESOURCE/FINANCIAL IMPACT**

At this time, there is no significant financial impact to the City associated with this process, as it is being managed and funded by Sound Transit. Throughout the environmental review process, the City will need to participate in Sound Transit's process by continuing to provide technical and policy direction. This process is scheduled to be complete in 2014. In 2012 the City, along with Sound Transit, will begin engaging the community in station area planning for the selected Shoreline station locations and to identify appropriate mitigation for the station areas. This will require dedication of City staff resources.

## **RECOMMENDATION**

No action is required at this time. This report is for discussion purposes only. The public is invited to provide comments at this meeting. The Council is scheduled to finalize these guiding principles at their October 24 business meeting. Upon Council consensus on these principles and development of a recommended light rail alignment, the City's position on the alignment will be forwarded to the Sound Transit Board for consideration as they move through the environmental process.

## **ATTACHMENTS**

**Attachment A:** Draft North Corridor Project, Light Rail Guiding Principles for Shoreline  
**Attachment B:** Draft Public Outreach Plan, Developing Light Rail Guiding Principles: Choosing an Alignment

## **INTRODUCTION**

Over the past several months of analysis and evaluation, Sound Transit has narrowed the alignment alternatives for the North Corridor Transit project down to two options. They include SR 99 and Interstate 5. Sound Transit has begun environmental scoping for these two alternatives in order to identify issues to address in the Environmental Impact Statement (EIS). The scoping process may also result in the determination of a Locally Preferred Alternative (LPA) for the alignment.

## **BACKGROUND**

The background description for the guiding principles was described in the October 3 staff report which can be found at <http://cosweb.ci.shoreline.wa.us/uploads/attachments/cck/Council/Staffreports/2011/Staffreport100311-8d.pdf>.

## **DISCUSSION**

The extension of high capacity transit into Shoreline will greatly influence transit service in the City. It is assumed that this extension will come in the form of an extended light rail line north of Northgate and continuing to Lynnwood, as Sound Transit has eliminated all other mode alternatives from consideration. The alignment of the light rail line and station locations will greatly affect the surrounding neighborhoods, including land use patterns and traffic.

Sound Transit submitted the AA to the Federal Transportation Administration (FTA) for review in late July. After receiving FTA and public comments, as well as the completion of environmental scoping, a LPA may be adopted by the Sound Transit Board by the end of 2011. If a LPA does not emerge, more than one alternative would then proceed into the EIS process. Sound Transit staff shared that an evaluation of the I-5 alignment in the EIS would likely include several crossing alternatives to get from the east side of I-5 (Northgate) to the west side (no later than Lynnwood). These options may include locating the NE 185<sup>th</sup> station on the west side of I-5, closer to Shoreline Center and stadium, and converting the Mountlake Terrace Freeway Station for light rail use.

The alignment options will serve different neighborhoods and, as a result, have differing impacts. Sound Transit has asked the jurisdictions affected by the light rail alignment (Seattle, Shoreline, Mountlake Terrace and Lynnwood) to provide input in response to the alternatives under review. The cities of Mountlake Terrace and Lynnwood have identified I-5 as the preferred alternative. The City of Seattle has not identified a preferred alternative at this time, nor has Shoreline.

In order to provide Sound Transit with feedback regarding the alignment determination, staff is recommending Council adopt guiding principles to help identify a preferred alignment for Shoreline. Attachment A provides a first draft of these principles for Council consideration and public comment. Staff is also recommending that Council identify a preferred alignment alternative once the guiding principles have been agreed to and staff can evaluate the alternatives with respect to those principles.

## **NORTH CORRIDOR PROJECT LIGHT RAIL GUIDING PRINCIPLES FOR SHORELINE**

The principles that will guide our future discussions and input to Sound Transit regarding the planning, construction, operation of light rail to directly serve Shoreline residents are as follows:

### **PERFORMANCE**

#### **TRAVEL TIME**

We support a light rail system that provides the shortest travel times for riders traveling to and from Shoreline.

We support development of a complete light rail system that serves the Puget Sound region efficiently and minimizes travel times to destinations.

#### **RIDERSHIP**

We support the development of a light rail system that will serve the greatest number of riders traveling to and from Shoreline.

#### **ACCESSIBILITY**

We support the development of light rail stations that are easily accessed by foot, bike, bus or car. The stations should expand opportunities for convenient access to other forms of transit, such as Bus Rapid Transit and local bus service. Traffic impacts should also be minimized and mitigated in station areas.

### **MAXIMIZING FUNDS**

#### **COST**

We want to ensure that as decisions are made, funding remains in the project budget to fund two light rail stations in Shoreline.

We support minimizing costs associated with right of way acquisition and capital investments as well as ongoing operation and maintenance costs while maximizing performance of the light rail system.

## LOCAL OPPORTUNITIES AND IMPACTS

### SOCIAL EQUITY

We support the location, alignment and operation of light rail that provides access to a socially, economically and geographically diverse ridership.

We believe Shoreline residents are best served by various modes of transit on multiple corridors within and through Shoreline.

### LAND USES AND REDEVELOPMENT

We are concerned about the future of properties adjacent to prospective light rail stations. It is important to remember that station areas may take decades to transition from its present day use to a future use and plans should be made for how that transition can be accomplished.

We are committed to a robust community involvement process that develops tools and plans to create and enhance vibrant, livable and sustainable transit-oriented station areas.

Ensure impacts on residents and businesses are managed and individual property rights are protected; provide timely information so residents can plan for and respond to changes.

### ECONOMIC DEVELOPMENT

We support a light rail system that will foster economic prosperity in Shoreline by encouraging existing businesses, enhancing property values, creating family-wage jobs, building sustainable housing stock, and attracting investment.

### NOISE AND VISUAL IMPACTS

We support the development of a light rail system that minimizes noise and visual impacts to Shoreline residents and businesses.

## Public Outreach Plan

### Developing Light Rail Guiding Principles: Choosing an Alignment

This plan will be advertised in the October issue of Currents and on the City's website.

Proposed Outreach	Date	Description
Currents Article (October issue)	Proof due 9/14/11; CM review 9/19/11	<ul style="list-style-type: none"> <li>Article based on approved Public Outreach Plan</li> </ul>
Establish North Corridor Light Rail page on City website; Post staff recommended Draft Guiding Principles	September 27, 2011	<ul style="list-style-type: none"> <li>Post draft Guiding Principles on web &amp; solicit public comment via web comment form</li> </ul>
City Council reviews Draft Guiding Principles for Light Rail Alignment	Monday, October 3, 2011 Shoreline City Hall Chambers 7:00 p.m.	<ul style="list-style-type: none"> <li>Council will review the staff drafted Guiding Principles &amp; public outreach plan</li> <li>Opportunity for Council to provide staff direction on the Guiding Principles</li> </ul>
Council of Neighborhoods Meeting: Sound Transit Presentation	Wednesday, October 5, 2011 Shoreline City Hall Chambers 7:00 p.m. – 9:00 p.m.	<ul style="list-style-type: none"> <li>Presentation by Sound Transit Staff</li> <li>Alicia McIntire attending to describe Shoreline's Outreach to develop Guiding Principles</li> </ul>
Sound Transit EIS Scoping Public Meeting	Tuesday, October 11, 2011 – Shoreline Conference Center, 6:00 p.m. – 8:00 p.m. Shoreline Room	<ul style="list-style-type: none"> <li>"Shoreline" Table at Meeting – have information available about the Draft Guiding Principles – Kirk or Alicia</li> </ul>
City Council seeks public input on Draft Guiding Principles for Light Rail Alignment	Monday, October 17, 2011 Shoreline City Hall Chambers 7:00 p.m.	<ul style="list-style-type: none"> <li>Invite public input on the Draft Guiding Principles</li> <li>Council to provide staff direction on final edits to Guiding Principles</li> </ul>
City Council finalize by motion the Guiding Principles for Light Rail Alignment	Monday, October 24, 2011 Shoreline City Hall Chambers 7:00 p.m.	<ul style="list-style-type: none"> <li>Staff analyzes light rail alignment alternatives using Council's Guiding Principles and develops a recommended alignment for Council consideration</li> </ul>
City Council approve by Resolution a preferred light rail alignment	Monday, November 14, 2011 Shoreline City Hall Chambers 7:00 p.m.	<ul style="list-style-type: none"> <li>Council adopts a preferred alignment by Resolution</li> </ul>
