

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	2012 Police Service Report		
DEPARTMENT:	Police		
PRESENTED BY:	Shawn Ledford, Police Chief		
ACTION:	<input type="checkbox"/> Ordinance	<input type="checkbox"/> Resolution	<input type="checkbox"/> Motion
	<input checked="" type="checkbox"/> X Discussion	<input type="checkbox"/> Public Hearing	

PROBLEM/ISSUE STATEMENT:

The 2012 Police Service Report is the thirteenth annual police report presented to the Shoreline City Council. The report contains information on the highlights, data and accomplishments of the Shoreline Police Department to support its mission, goals and objectives. The report combines statistical crime data and case clearance rates with analysis and department interpretation. The goal of this report is to keep Shoreline residents, staff and elected officials informed of police service and crime activity in the city.

RESOURCE/FINANCIAL IMPACT:

There is no financial impact; this report is for information purposes only.

RECOMMENDATION

As the 2012 Police Service Report is a general report on the highlights, data and accomplishments of the Shoreline Police Department, no action is required.

Approved By: City Manager ____ City Attorney ____

BACKGROUND

The 2012 Police Service Report is the thirteenth annual police report presented to the Shoreline City Council. The report contains information on the highlights, data and accomplishments of the Shoreline Police Department to support its mission, goals and objectives. The report combines statistical crime data and case clearance rates with analysis and Department interpretation. The goal of this report is to keep Shoreline residents, staff and elected officials informed of police service and crime activity in the city.

The Police Service Report is structured into the Service Highlights section and the Service Data section. Both provide a narrative of police efforts and year to year comparisons of selected crime and police service data. Information compiled helps to determine if the Shoreline Police Department is meeting its primary goals. There are:

- To reduce crime and the fear of crime, and
- To provide high quality, cost effective and accountable services to the City of Shoreline

2012 Police Service Report Highlights

- Shoreline Officers responded to 12,045 dispatched calls for service (DCFS) in 2012. The DCFS in 2011 were 11,343. The average police response time to an emergency call for service was 3.39 minutes; the national standard is 5 minutes.
- Part I serious crimes have remained consistent over the past five years from 33 per thousand residents in 2008 to 33 per thousand residents in 2012. There was a slight reduction from the previous year, dropping from 34 in 2011 to 33 in 2012.
- Murders did increase from one in 2011 to three in 2012. All cases involved acquaintances and all cases have been solved.
- Burglaries increased 19% from the previous year from 351 to 418. Thefts from vehicles remained the same, 395 in 2011 to 394 in 2012. Auto thefts decreased from 136 in 2011 to 111 in 2012.
- Neighborhood traffic safety, education and enforcement will continue to be a priority. Traffic collisions remained the same at 425 the past two years; there was a slight decrease in driving under the influence (DUI) arrests from 115 in 2011 to 113 in 2012.
- There was a decrease in the number of traffic citations issued last year. In 2011 6,921 citations were issued, 2012 the number was 5,390. This is in part due to an effort to reduce overtime. Traffic officers are used for prisoner transports and to backfill dayshift patrol, rather than bring an officer in on overtime.
- The Shoreline Police Department continues to build partnerships with the prosecutor and neighboring agencies in the areas of criminal investigations. The Department also spends many hours on public education and crime prevention. This emphasis, along with the active involvement of our citizens in recognizing and reporting crimes, are key factors in reduction the overall crime rate in the City.
- School safety will be a priority for 2013.

- Shoreline Officers continue to work with community groups, neighborhood block watches and city staff to proactively identify and solve problems long term for Shoreline citizens.
- Compared to benchmark cities, Shoreline continues to be a safe city and provided cost effective police services to residents at a cost of \$191.23 per capita.

SUMMARY

Shoreline is a safe community in which to live, work and play. The recent citizen satisfaction survey confirms that Shoreline citizens feel safe living and relaxing in their city. The Shoreline Police Department takes great pride in serving the residents of Shoreline. The Department does its best job when the community is involved with our officers and staff. Department personnel look forward to continue building lasting partnerships with residents in the Shoreline community.

FINANCIAL IMPACT

There is no financial impact; this report is for information purposes only.

RECOMMENDATION

As the 2012 Police Service Report is a general report on the highlights, data and accomplishments of the Shoreline Police Department, no action is required.

CITY MANAGER	Julie Underwood
CHIEF OF POLICE	Shawn Ledford

From Your Police Chief

Dear Shoreline Residents,

I am pleased to present you with the 2012 Shoreline Police Services Report. The report tracks crime data, service efforts & accomplishments, crime trends and budget information.

There are 52 full time employees assigned to the Shoreline Police Department. A majority of the officers are in the patrol division; additionally we have a traffic unit, criminal investigation detectives, special emphasis team (undercover) detectives, school resource officer, community services officer; professional support staff, sergeants, a captain and police chief.

In 2012, the average response time to emergency calls for service for Shoreline police was 3.39 minutes; the national standard is five. Our officers know how important it is to be responsive, arrive safely and handle the emergency call in a professional manner.

Shoreline partners with the King County Sheriff's Office for specialized services, homicide/robbery investigations, SWAT, K9, air support, bomb technicians and other services.

In the report you will notice burglaries increased from 351 to 418, thefts from vehicles remained the same, and vehicle thefts were down. This year the Shoreline Police will focus efforts on reducing burglary and other property crimes; our mission is to prevent crime and create an environment where people feel safe.

The police department will be making several changes to focus on crime prevention, and identifying and apprehending high impact offenders. Five areas the police will set clear direction and goals are:

- **Improved Communication** – Develop an e-alert system to send out timely/informative information on public safety concerns.
- **Crime Prevention Efforts** – Increase the number of block-watch meetings between police and residents to discuss crime trends and prevention efforts.
- **Investigative Changes** – Re-direct the Special Emphasis Team (undercover detectives) to focus on property crimes. Coordinate efforts between SET and the criminal investigations detectives to target high impact-repeat offenders.
- **Community Policing** – More police presence and visibility in the neighborhoods. Focus traffic safety efforts in the neighborhoods and school zones. Work with the parks department on park safety; work with code enforcement on nuisance and quality of life issues within the City.
- **School Safety** – Increase the number of meetings between police, fire, emergency management and school staff. Continue to fine tune school safety procedures, protocols for

interior/exterior lockdowns. Ensure Shoreline Police Officers are properly equipped and trained to handle any school emergency.

To learn more about the services that the Shoreline Police Department provides, please visit our web-page at www.cityofshoreline.com, like us on Facebook (www.facebook.com/Shoreline-Police-Department), or follow us on Twitter ([@ShorelinePolice](https://twitter.com/ShorelinePolice)).

I also encourage you to start a block watch meeting in your neighborhood and meet a Shoreline officer that patrols your neighborhood and receive crime prevention tips. To start a block watch or get more information, you can email Sergeant Steve Sowers at steve.sowers@kingcounty.gov or call him 206-801-2710.

If you have any questions, comments, or concerns please email me at shawn.ledford@kingcounty.gov, or call directly 206-801-2711. I'm proud of the men and women of the Shoreline Police Department who are committed to keeping you and your family safe. It's an honor to serve as your police chief.

Respectfully Submitted,
Shawn V. Ledford
Police Chief, City of Shoreline

Crime Summary	45
---------------------	----

About the Annual Police Service Report

The Annual Police Service Report contains information on the service efforts and accomplishments of the Shoreline Police Department to support its mission, goals, and objectives.

The goal of the report is to keep the City of Shoreline residents, staff, administrators and elected officials informed of police service and crime activity in the city. The report is produced by the City of Shoreline Police Department in partnership with the King County Sheriff's Office (KCSO) Research, Planning and Informational Services and Contracts Units. Questions about the report can be directed to the Shoreline Chief of Police.

The Police Service Highlights section gives a narrative of police efforts and year-to-year comparisons of selected crime and police service data.

The Police Service Data section provides further detailed crime and police service data. Please note that numbers in this section may differ slightly from numbers in the Police Services Highlights due to collection from several sources and in some cases rounding up.

Shoreline Police Department Mission, Goals, & Core Values

Mission

The mission of the Shoreline Police Department is to prevent crime and create an environment where people feel safe, while providing quality, professional law enforcement services designed to improve public safety.

Core Values

The Shoreline Police are committed to the core values of Leadership, Integrity, Service and Teamwork. We firmly believe in our core values and let these values guide all work that we do in the community.

Goals & Objectives

In order to realize this mission, the City of Shoreline Police Department has adopted the following goals and objectives:

Goal # 1: Reduce crime and the fear of crime

Objective: Use information for crime analysis

Objective: Apprehend offenders

Objective: Prevent crime

Objective: Improve residents' feeling of security

Goal # 2: Provide high-quality, cost-effective, and accountable services to the City of Shoreline

Objective: Provide responsive services to residents.

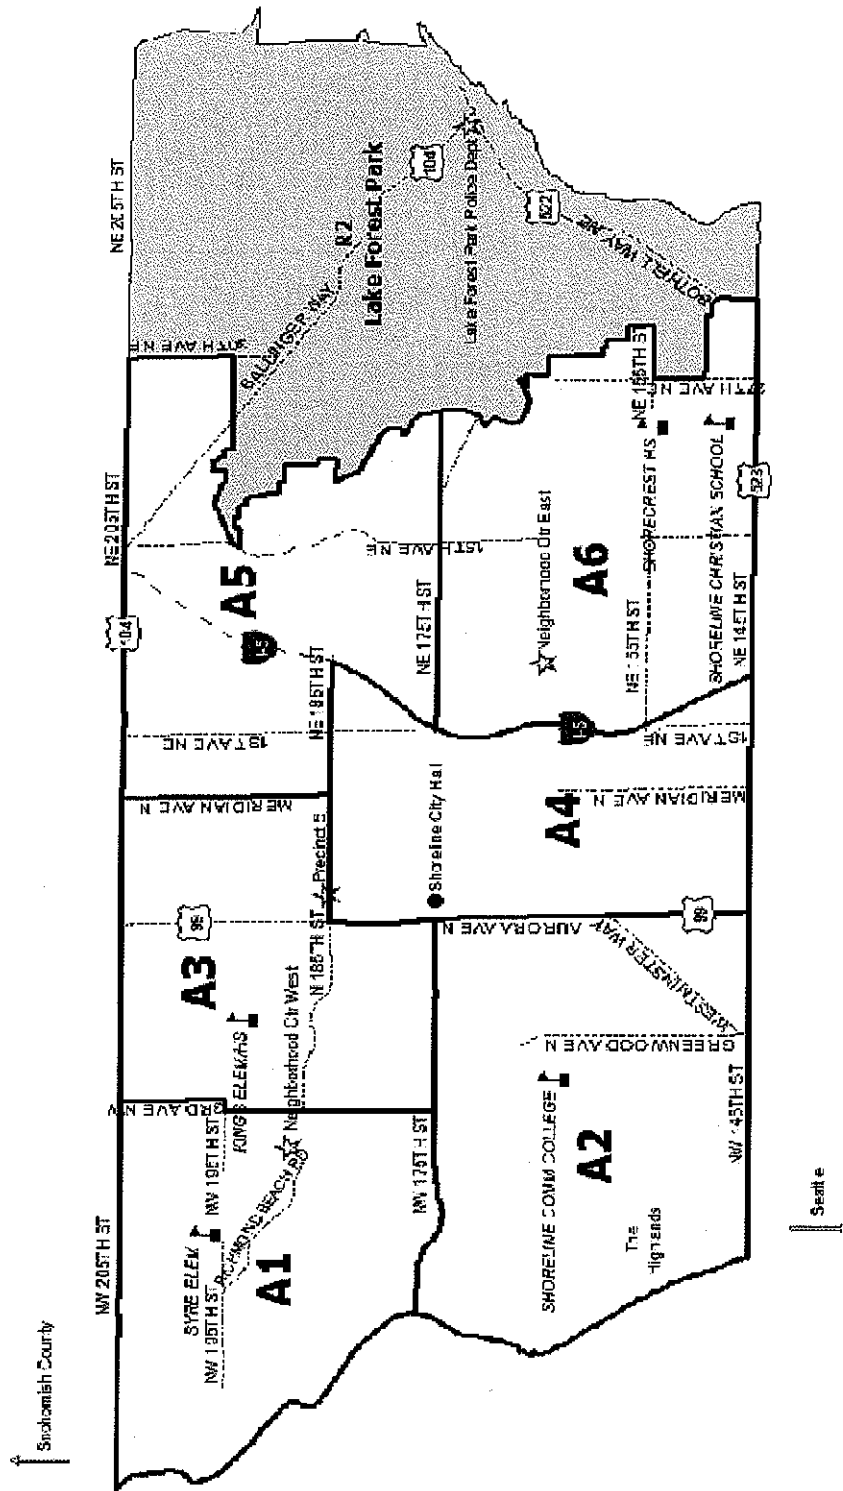

Objective: Provide cost-effective services to residents.

City Cost Comparison

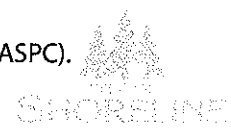

The city cost comparison study is conducted annually by the King County Sheriff's Office Contracts Unit. The study accounts for city budget differences and may factor in (or factor out) certain line items in an effort to allow for "apples-to-apples" comparison between cities. Shoreline's cost per capita shown here is different than the contract cost per capita, which only includes Shoreline's law enforcement contract paid to the county. The following budget information is obtained directly from the city's budget, which may include funding for extra police services.

City	2011 Crime Rate	2012 Police Budget	2012 Population	2012 Budgeted Sworn	Cost/ Capita	Cost/ Sworn	Sworn/ 1000
Auburn	58.1	\$20,126,760	71,240	101.00	\$283	\$199,275	1.42

Data sources:

1. City budgets are found on city websites or via city finance personnel.
2. Population is from the Office of Financial Management.
3. Crime rates are from the Washington Association of Sheriffs and Police Chiefs (WASPC).

Shoreline's Crime Rate

The Crime Rate is a calculation of the number of Part I Crimes divided by population in thousands. Part I Crimes is a category of crimes established by the Federal Bureau of Investigation (FBI). It includes criminal homicide, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson.

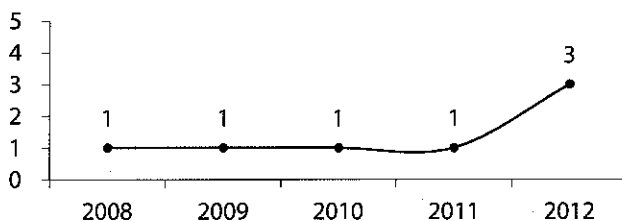

Source: Police Services Data

Part I Violent Crimes against People

Part I Crimes include crimes categorized as "violent crimes" or "crimes against people." The following are Shoreline's Part I Violent Crimes.

Murder

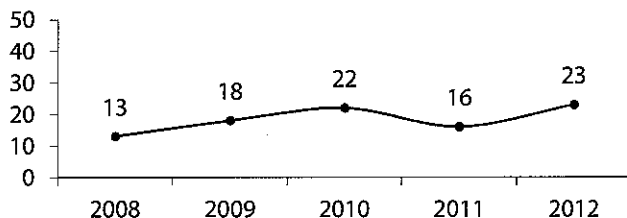

Source for all below: Police Services Data

Murder

The following situations are not included in this crime classification: deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are counted as aggravated assaults.

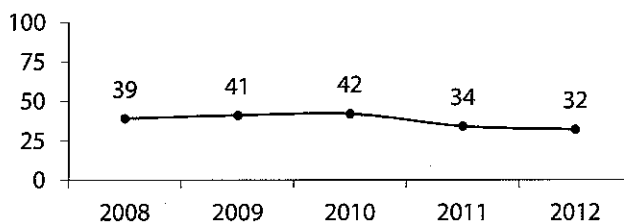

Rape

Rape

Rapes by force and attempts or assaults to rape, regardless of the age of the victim, are included in this count. Statutory offenses (no force used—victim under age of consent) are excluded.

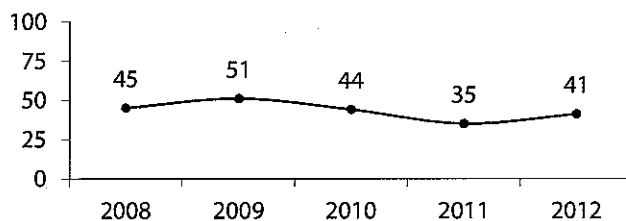

Aggravated Assault

Aggravated Assault

Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

Robbery

Robbery

Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person by force, threat of force, violence, or by putting the victim in fear.

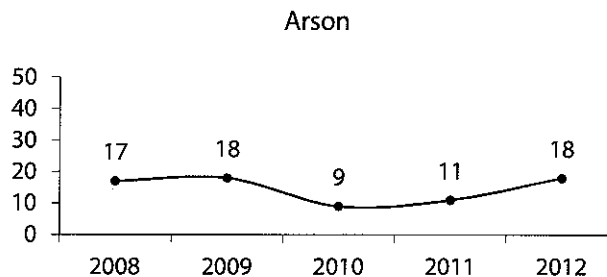

Part I Non-Violent Crimes against Property

The second group of Part I Crimes is known as "non-violent crimes," "crimes against property," or "property crimes." The following are Shoreline's Part I Crimes against Property. Information about vehicle theft, also included in this category, can be found with traffic and automobile incident information.

Arson

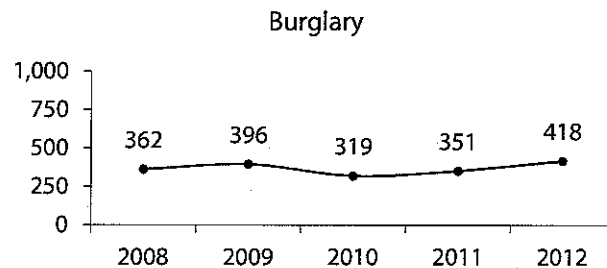

Arson is any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, or personal property of another.

Source for all below: Police Services Data

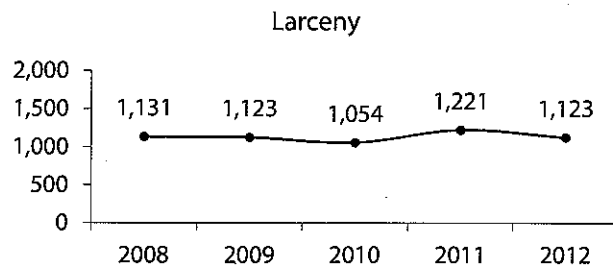

Burglary (breaking or entering)

Burglary is the unlawful entry of a commercial or residential structure with the intent to commit a crime. Attempted forcible entry is included.

Larceny (except vehicles)

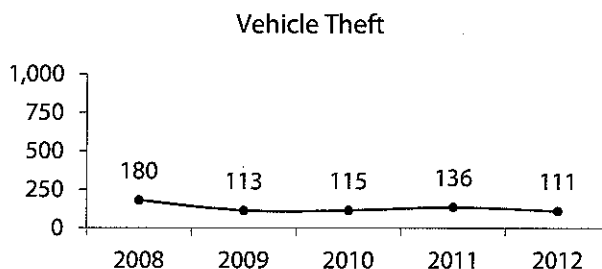

Larceny is the unlawful taking, carrying, leading, or riding away of property of any value amount from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting, pocket-picking, or the stealing of any property or article that is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, forgery, check fraud, and like crimes are excluded.

Traffic and Automobile Incident Information

Vehicle Theft

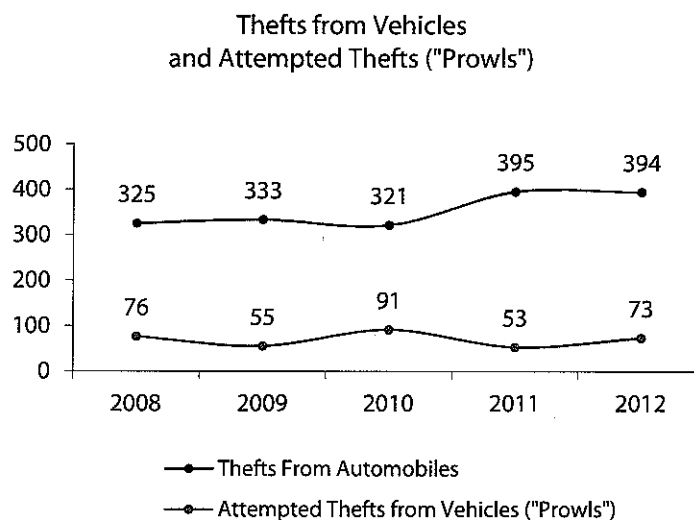

Vehicle theft is included in Part I Crimes against Property. It is the theft or attempted theft of a motor vehicle, which is defined as being self-propelled and running on a land surface and not on rails. Motorboats, construction equipment, airplanes, and farming equipment are specifically excluded from this category.

Source: Police Services Data

Thefts and Attempted Thefts ("Prowls") from Automobiles

A theft or attempted theft ("prowl") from an automobile is the act or attempted act of taking something from the inside of an automobile.

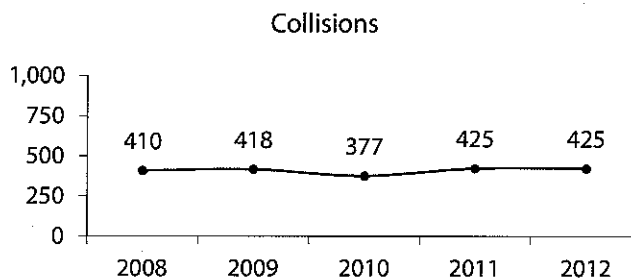

Source: Police Services Data and CAD System

Shoreline Police Department Traffic Programs

Traffic Collisions

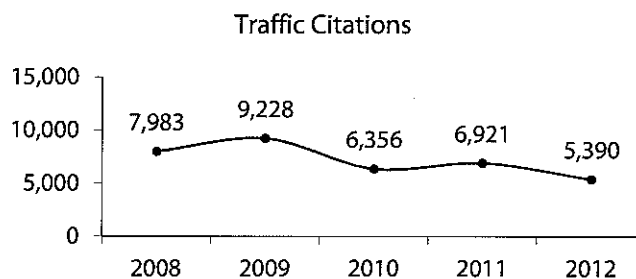

Collision information includes reports for injury, non-injury, and fatality vehicle collisions. Driving under the influence (DUI) collisions are excluded from this category.

Source: Police Services Data

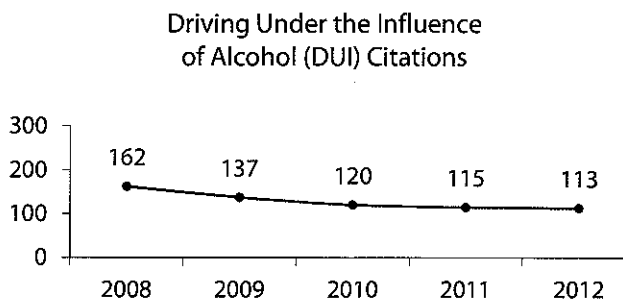

Traffic Citations

Traffic citations include reports of all moving/hazardous violations (such as all accidents, driving under the influence, speeding, and reckless driving), and non-moving compliance violations (such as defective equipment and parking violations).

DUI Citations

Driving under the influence of alcohol citations are included in the above count for traffic citations, but are broken out here to show trends.

Criminal Investigations Unit Highlights

The Criminal Investigations Unit is comprised of one sergeant and four detectives. Three of the detectives are responsible for investigation and follow-up on most felony crimes committed in the City, with the exception of homicide/special assault and major accident investigations, which are handled by the King County Sheriff's Office Major Crimes Unit.

The fourth detective works exclusively on fraud and forgery investigations originating in Shoreline. This detective is also assigned on a part-time basis to a Secret Service Task Force. His participation in this task force brings extra support to the City of Shoreline for any complicated investigations that include counterfeiting of US currency, internet and computer investigations and money laundering cases. Additionally, this detective also investigates Adult Protection referrals for financial exploitation of vulnerable adults in Shoreline.

Highlight #1: Serial purse snatcher identified and arrested

During the summer of 2012, cities throughout King County experienced a rash of purse snatches.

The typical victim is shopping in a store, leaves her purse in the cart, turns briefly to select an item from a shelf, and when she turns back her purse has been snatched. The unknown suspect steals the cash, phone, credit cards, etc.

On July 7, 2012, Detective Coblantz was working backfill patrol in Shoreline when he was dispatched to one of these calls at the Central Market. He obtained the basic information from the victim then contacted the store manager and asked to look at the in-store video. He observed the suspect take the purse from the victim's cart and leave the store.

Based on his experience as a patrol officer and as a Criminal Investigations Detective, Coblantz is familiar with how these types of thieves typically work. They usually use the credit cards immediately at gas stations or other stores. Detective Coblantz knows that unless the suspect(s) are caught immediately fleeing the scene the likelihood of getting property back is slim to none. Detective Coblantz made arrangements for Seattle Police to check the victim's home since the unknown suspect had her driver's license with her address and her house keys. Detective Coblantz then went to the Safeway store and showed the photo of the suspect to the manager and asked that they call 911 if the suspect showed up at their store.

Center console of suspect's car reveals multiple credit cards and victim identifications.

Within about 20 minutes, Safeway called 911 to report that the suspect was in their store. When Detective Coblantz arrived, he learned the suspect had just left in a car, which he then stopped a short distance away arresting the suspect.

Detective Coblantz impounded the suspect's car and served a search warrant on it. He recovered the victim's stolen credit and debit cards.

As he continued to investigate, he was contacted by numerous law enforcement agencies throughout King County with similar cases. When all was said and done, Detective Coblantz adopted and incorporated cases from Seattle, Mercer Island, Federal Way, Tukwila and Bellevue with our cases and charged the suspect with 38 counts of Theft 2nd, and one count of Identity Theft.

Highlight #2: Alert neighbor reports suspicious man to 911

On November 11, 2012 at 11:20 a.m., an alert neighbor observed a man who appeared to be prowling houses and called 911.

Detective Coblantz was in the area and heard the call dispatched to patrol. He saw a man matching the suspicious person and contacted him. The male was extremely nervous and told Detective Coblantz he was just lost and from out of town. Granted, his ID card did show a Kenmore address! At the time, officers were not able to confirm that a crime had been committed and the male was identified and released.

Later in the day, a citizen living in the neighborhood called to report an attempted break in at their home. Based on this and other corroborating information, Detective Coblantz developed probable cause for the suspect's arrest.

At the end of his investigation Detective Coblantz was able to solve seven residential burglaries—the attempt in Shoreline, three in Lake Forest Park, one in Kenmore, one in Kirkland, and one in unincorporated King County. Detective Coblantz was also able to recover some of the stolen property which the suspect had pawned, in addition to several priceless collectable firearms.

Highlight #3: Church Burglar arrested

For several months this year we experienced numerous church burglaries. The unknown suspect(s) were stealing sound equipment, microphones, cash, and more.

Detective Inn was assigned a majority of these cases for follow-up. He conducted numerous surveillances working with our SET Unit. In addition he used numerous surveillance platforms working cooperatively with various church staff.

In the end, he was able to identify a suspect from one of the burglaries via a fingerprint obtained by Officer Gerlitz. Working from there, he utilized "Leads on Line" (a service we use detailing pawned property), and discovered an extensive pawn history for this suspect and one other.

On December 20, 2012, Detective Inn arrested and booked the suspect into the King County Jail, charged him with numerous church burglaries and trafficking in stolen property.

Detective Inn also worked with the Seattle Police Department, as this same subject is a suspect in numerous church burglaries in the City of Seattle.

Highlight #4: Adult Home Care worker arrested/charged with theft from patient

On June 20, 2012, Detective Coblantz was assigned this case for follow-up. The owner of a group home called to report that he suspected one of his health care workers was stealing items from the patients she cared for. According to the reporting party, the wife of one of the victims reported that when she visited her 80 year old husband, she noticed that his gold wedding band had been replaced with a cheap wire/fake ring. The victim is suffering from Parkinson's disease and dementia. His wife stated that they had been married for 27 years and during that time she had never known her husband to take off his wedding ring.

The owner of this group home owned a second group home as well. He stated that he suspected one of his employee's of multiple thefts from vulnerable adults at both of his facilities.

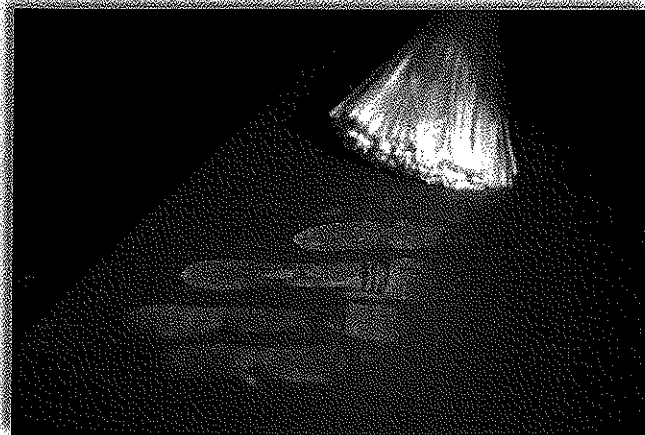

Following his investigation, Detective Coblantz identified additional victims and was able to recover stolen items from two different pawn shops in Everett and return the property to the victims. These victims represent some of our most vulnerable population. The suspect physically removed some of the victim's wedding rings from their hands, and in one case, caused slight bruising to the victim's finger from tugging/pulling off the ring.

Detective Coblantz contacted King County Senior DPA, Paige Ulrey, due to the egregious nature of these crimes and worked in a cooperative effort with her to ensure that these cases are prosecuted appropriately.

Highlight #5: Partnership with King County AFIS

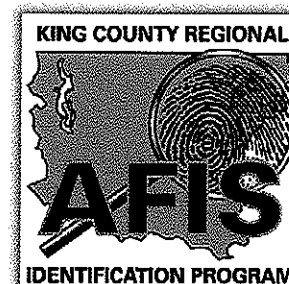

The Shoreline Police Department partners with King County's Automated Fingerprint Identification System (AFIS) Program for enhanced forensic services. This regional program provides criminal identification technology for law enforcement and criminal justice purposes. Services include identifying possible "wanted" offenders before they are released from jail and recovering fingerprints from major crime scenes. The AFIS Program's

existence aids in solving crimes

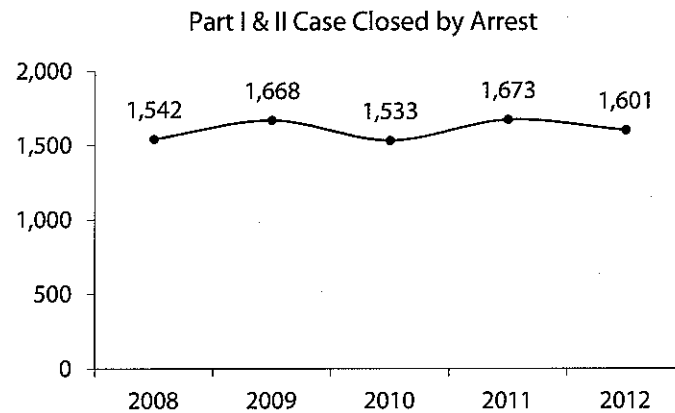

throughout King County, and contributes to the safety of both citizens and officers.

AFIS is funded by a property tax levy, which is approved by voters every six years. More information can be found at www.kingcounty.gov/afis.

Part I & II Cases Closed by Arrest

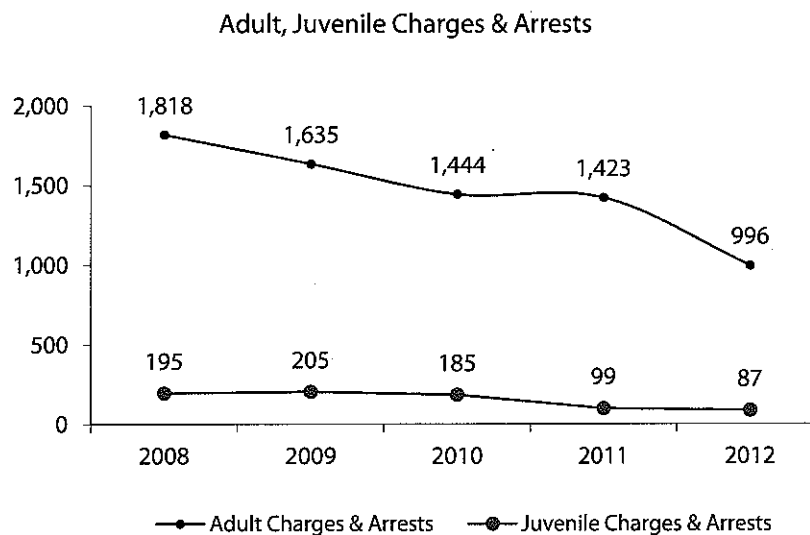

The cases below represent incidents where an officer or detective has recommended that the King County Prosecutor's Office file criminal charges against the case suspect. These criminal charges may result in an arrest or another form of punitive action, such as a citation. A prosecuting attorney is solely responsible for the decision to formally file charges and prosecute defendants.

Source: KCSO RPIS Unit

Adult and Juvenile Charges and Arrests

One or more charges can result from a single arrest. Charges also can be filed when probable cause exists against a person who may not have been arrested. The following are the total number of felony and misdemeanor charges and arrests by adult and juvenile status.

Source: Police Services Data

Special Emphasis Team (SET) Case Highlights and Seizures

The Shoreline Police Department Special Emphasis Team (SET) consists of one sergeant and four detectives. All four of the detectives are solely dedicated to the day to day operations of the SET Unit. In 2012, one of the SET detectives was deployed to Afghanistan for a year while serving in the United States Army.

The responsibilities of the unit vary and are flexible to address identified crime trends in our city. This unit typically works in a plain clothes (undercover) capacity and drives unmarked cars to enhance surveillance abilities. The SET Unit has received extensive training in surveillance techniques, case development, interviewing techniques, and vice and narcotic investigations.

The Shoreline SET Unit works closely with other neighboring police agencies, local and state federal task forces, and the King County Sheriff's Office on a regular basis. SET detectives follow up on all narcotics and vice related complaints and arrests in Shoreline, and all Narcotic Activity Reports (NARs) generated from citizens.

The SET Unit is also actively involved with the Citizens Academies, Community Landlord Tenant Training and community meetings and problem solving projects.

The following are highlights of the SET Unit's work in 2012.

Highlight # 1: Shoreline SET contributes to hugely successful federal drug trafficking case

In late 2011, Shoreline SET began developing information that they knew was leading to the identification of a local narcotic trafficking ring leader. They also knew that the case would likely connect to many other jurisdictions and agencies due to the complexity, size, and scope. After enough intelligence was brought to light, the Drug Enforcement Administration and it's Organized Crime Drug Enforcement Task Force (OCDETF) began to include Shoreline SET as a third partner on the large-scale federal investigation.

On January 15, information was received that a vehicle containing a large quantity of drugs had departed Fresno, California and was en route to Washington. Agents located the vehicle in Woodland, Washington and ultimately found 15.4 pounds of crystal methamphetamine located in a concealed compartment in the undercarriage of the vehicle's rear bumper.

On March 28, 2012, the DEA—in conjunction with the South Snohomish County Drug Task Force, the King County Sheriff's Office, and Shoreline SET, coordinated a massive effort, called "Operation Black Reign," in the take down of a transnational poly drug trafficking organization.

In the early morning hours, hundreds of agents and officers began the execution of 23 federal search warrants in the greater Seattle area. By the end of the day, agents located and seized more than \$125,000 in U.S. currency, 28 pounds of heroin, five pounds of cocaine, two pounds of methamphetamine, 16 vehicles and one handgun.

To date, the investigation has seized more than \$320,000 in U.S. currency, 44 pounds of heroin, 17 pounds of methamphetamine, nine pounds of cocaine, 18 vehicles and one handgun. Investigations have also led to the arrests of 26 subjects, all involved in a poly drug trafficking organization, supported by co-conspirators distributing large quantities of drugs throughout Western Washington.

Highlight # 2: Rape Investigation

When a 12-year-old girl was assaulted in her home, every available resource was directed towards the investigation. A possible suspect was identified by patrol and AFIS obtained a fingerprint at the scene that confirmed the identity of the suspect. SET detectives conducted surveillance on the suspect's residence while SWAT officers were responding to the scene to serve a search warrant. One of those responding SWAT officers included a detective from the SET Unit who is also a SWAT team member. The SET detective spotted the suspect driving on I-5 and coordinated with patrol resources as he followed the vehicle into the Shoreline city limits. A felony stop was conducted and the assault suspect was taken into custody.

2012 SET Seizure Highlights

Drug related arrests:	210
Drugs seized:	
Cocaine	126.5 grams
Heroin	935.4 grams
Marijuana	1,164.6 grams
Marijuana (Plants)	22
Methamphetamine	396 grams
Oxycodone (Pills)	285
Misc. Pills	992
Money Seized	\$12,426
Weapons Seized	5

Patrol Highlights

Highlight #1: Prosecutor and Judge commend officer for outstanding work

On November 14, 2012, Officer Moen saw a car pass him at a high speed traveling south in the right-turn only/transit lane. The car continued south through the intersection, despite signage and pavement markings indicating that non-transit vehicles must turn right at the intersection.

Officer Moen initiated a traffic stop for numerous traffic offenses. During the course of the traffic stop, Officer Moen saw several boxes of what appeared to be brand new power tools. The boxes all had security wire wrapped around them with security alarm tags still attached. The boxes appeared to have been haphazardly tossed into the backseat and rear floorboard, like it was done in a hurry.

Officer Moen asked the driver and passenger about the tools. They both stated that they had been purchased at an auction. Officer Moen continued to ask questions of both subjects about the tools and was given numerous answers. Based on his observations of the items and inconsistent statements, Officer Moen advised the two that he was now investigating a crime and identified the passenger. He returned to his car and researched the name of the auction given by the suspects. He brought up a catalog of all of the items sold on the previous Saturday and did not find any of the items in the backseat.

Officer Moen then asked another officer to contact the Sears in Shoreline to see if they had any thefts of power tools. They discovered that in fact their security had witnessed a male run out of the store with power tools without paying for them. The Loss Prevention Officer at Sears provided the officers with a suspect description and a license plate number.

Needless to say, everything matched. The suspects were arrested and their car was impounded pending a search warrant.

Detective Inn wrote a search warrant for the suspected stolen property. When he presented it to the prosecutor, the prosecutor commented on the outstanding work done by Officer Moen. Additionally, when the Judge read the search warrant he also commented on the incredible work done by Officer Moen. Truly outstanding police work and the documentation of each step lead to this arrest and criminal charges.

Highlight #2: Alert traffic officer arrests residential burglar

On September 24, 2012, at about 12:37 p.m. Officer Blessum was on patrol in the 1600 block of North 183rd Street when she observed a male walking down the middle of North 183rd Street towards her. As soon as the male saw Officer Blessum, he quickly turned around and contacted a man at a nearby residence. Based on her 17 years of law enforcement training and experience, the male's demeanor and reaction to her presence seemed suspicious.

Officer Blessum knows that we have seen a rise in residential burglaries in this area. She stopped and got out of her patrol car and contacted the male. During the social contact the male lied to her numerous times and was very agitated.

Ultimately, everything came together and the officers discovered that the male had just burglarized a house nearby.

Detective Magan responded and worked cooperatively with the officers to put this case together. Articulation is everything and Officer Blessum was able to do this, successfully enabling Detective Magan to file this case.

The suspect had prior convictions for burglary and one for rape. He is a level one sex offender, approximately 20 years old and his last known address is in SeaTac.

Detective Magan charged the suspect with Investigation of Residential Burglary, Investigation of Possession of Stolen Property and Possession of Burglary Tools. Detective Magan worked with the King County Prosecutor's Office to ensure a high bail was placed on this suspect due to his extensive criminal history.

Highlight #3: Alert officers recognize symptoms of Excited Delirium

On September 14, 2012, officers responded to assist the Shoreline Fire Department with an unknown medical situation. A 26-year-old male was reportedly "out of control and scaring his family members." Officers Sweeney, Andrews and McNaughton arrived and found the male thrashing around on the living room floor claiming to be god. The officers quickly recognized the male's behavior as Excited Delirium and requested a medic unit to respond to administer a specific medication to subdue him.

Officers attempted to restrain the male, as he was experiencing intense fits of rage that gave him tremendous strength. The 26-year-old was perspiring heavily and was able to lift three of the officers off the ground as he talked about 1,000 days of darkness and his reign as the creator.

According to Sergeant Devore the officers did an "excellent job in both restraining the male and maintaining his airway until medics could arrive. Shoreline Medics arrived and quickly administered the proper medication, which allowed the male to relax and not cause additional harm to himself or others.

The male does not have a history of drug use or past mental health issues. He was transported to the hospital for treatment. The officer's quick response to the situation helped to peacefully resolve this situation and get the victim the medical treatment he needed.

Highlight #4: Tenacious patrol work helps solve two carjacking attempts

In early January, Shoreline had two separate carjacking attempts in the Ballinger area. The suspect displayed a knife in both carjacking attempts, but each was unsuccessful. Subsequently, we also had a few vehicle prowls and a theft attempt on a dump truck from a fenced construction site near NE 195/Ballinger. The suspect was unknown, but the patrol crew had a hunch that one particular individual was responsible for all three crimes and was someone that lived in the area.

Officer Batt was involved in these investigations and ultimately linked an abandoned truck that he had towed out of the area to the suspect. The truck was parked within walking distance of all of these crimes. Officer Batt did research on the registered owner of the truck but that proved to be a dead end. While canvassing the area after the carjacking attempts, Officers Batt and Cooper located one of the victims' purses in a backyard a block away from the scene. They also located a cell phone that was later linked to the suspect. The suspect was caught during a K9 track and linked back to the cell phone and abandoned truck. This case was solved due to thorough and aggressive police work.

Highlight #5: Officer assists suicidal man

In September of 2012, Officer Batt responded to a report of a suspicious man wondering through Boeing Creek Park. Officer Batt found the man on one of the trails and became concerned that he was going to attempt suicide. It was evident to the officer that the victim was having some type of mental health issues. Officer Batt kept the victim calm until medics arrived and transported him to the hospital for treatment. Officer Batt made contact with the victim's family and explained the circumstances.

Several days later, we received a card from the victim thanking Officer Batt for his patience and understanding. Apparently, the victim's new medication had an adverse affect and was causing him to have suicidal thoughts.

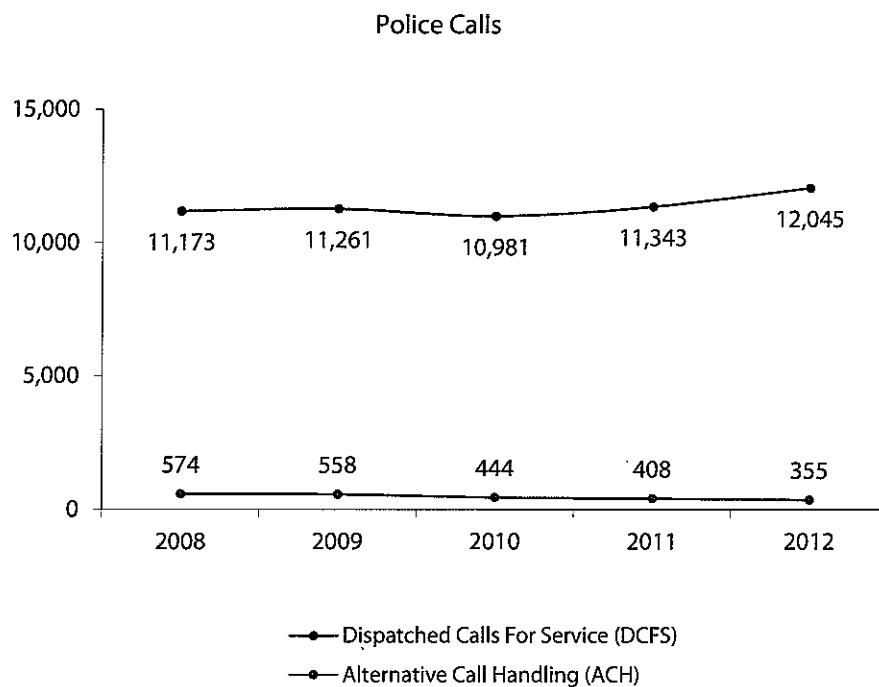

*In 2012, Shoreline Police Officers responded to approximately 22 drug overdoses, 40 suicide attempts and 201 mental health complaints. These cases can sometimes be handled in as little as 30 minutes or take up to several hours, depending upon the specifics of each case.

Calls for Police Assistance

The public receives police assistance in a variety of ways. Residents can call the Emergency 911 Communications Center to have one or more officers dispatched to the field, called a "dispatched call for service."

In addition to dispatched calls for service, 911 center operators can take certain types of reports over the phone through alternative call handling (ACH). This allows police officers more time to respond to those who need an officer present at the location of their incident.

Following are the numbers of dispatched calls for service (DCFS) and alternative call handling (ACH) incidents reported.

Source: Police Services Data and CAD

Response Times to High Priority Calls

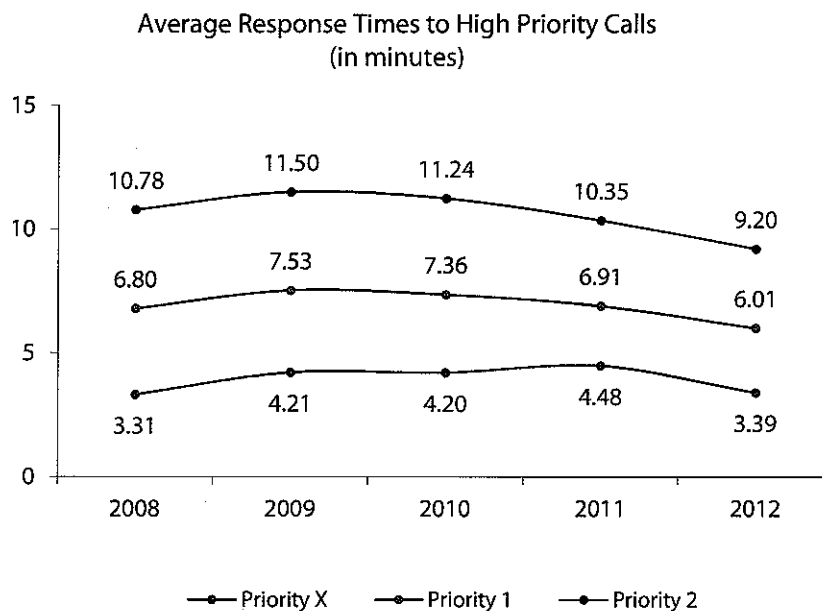

When calls for police assistance are received by the Emergency 911 Communications Center, they are entered into the Computer Aided Dispatch (CAD) system and given a "priority" based on the criteria described below. If the call receiver is in doubt as to the appropriate priority, the call is assigned the higher of the two priority designators in question.

"Priority X" designates critical dispatches. These are incidents that pose an obvious danger to the life of an officer or citizen. It is used for felony crimes in-progress where the possibility of confrontation between a victim and suspect exists. Examples include shootings, stabbings, robberies or burglaries.

"Priority 1" designates immediate dispatches. These are calls that require immediate police action. Examples include silent alarms, injury traffic accidents, in-progress crimes or crimes so recent that the suspect may still be in the immediate area.

"Priority 2" designates prompt dispatches. These are calls that could escalate to a more serious degree if not policed quickly. Examples include verbal disturbances and blocking traffic accidents.

Following are the City of Shoreline's Police response times for the above priority calls. Response times include all time from the receipt of a phone call to the moment an officer arrives at the location of the incident.

Source: Police Services Data

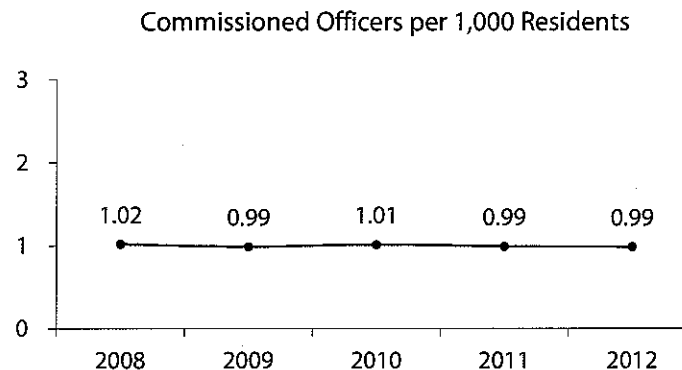

Computer Aided Dispatch (CAD): A computerized communication system used by emergency response agencies for dispatching and tracking calls for emergency assistance.

Commissioned Officers per 1,000 Residents

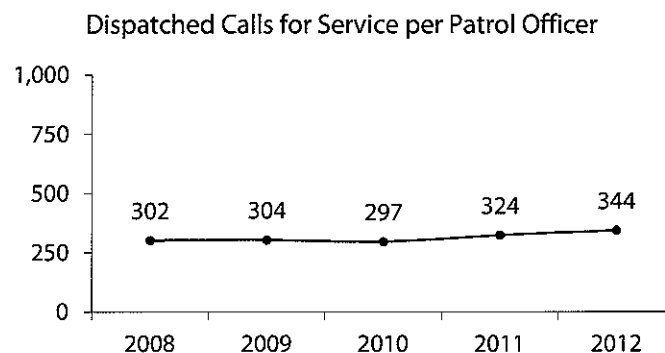

Commissioned officers per 1,000 residents shows how many commissioned police officers are employed by Shoreline for every 1,000 residents. The total number of commissioned officers includes full-time dedicated officers, plus officers who work in supervisory or other non-patrol related positions, as well as, officers that work in specialty units that are on-call for the city. Although the number of Shoreline's dedicated officers may stay the same from year to year, the number of officers that respond to calls for service can change with the city's needs. Therefore, the number of total commissioned officers can increase or decrease depending on Shoreline's service needs from year to year.

Source: KCSO Contracts Unit

Dispatched Calls for Service (DCFS) per Patrol Officer

Dispatched calls for service (DCFS) per patrol officer is the average number of dispatched calls one patrol officer responds to within a year. This number uses only dispatched calls Shoreline pays for and does not include the number of responses an officer initiates (such as, witnessing and responding to traffic violations, called "on views"). Also, the numbers below are *patrol only* and exclude non-patrol commissioned officers (such as, supervisors or special duty officers/detectives).

Source: KCSO Contracts Unit

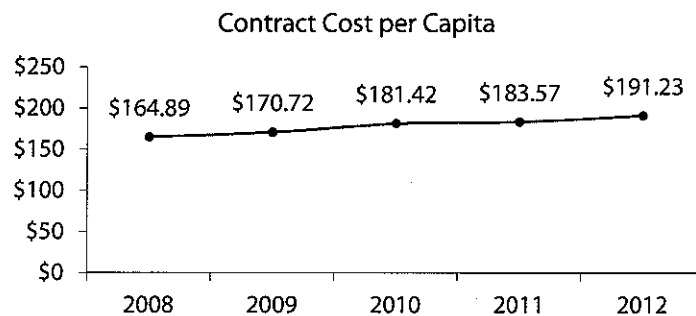

Costs of Police Services per Capita

The City of Shoreline contracts with the King County Sheriff's Office (KCSO) for police services. Among other benefits, contracting for services from a larger law enforcement agency allows for cost savings through "economies of scale." Specific economies of scale provided through the contract with KCSO include:

- Mutual aid agreements with other law enforcement agencies in Washington State
- A large pool of officers if back-up help as necessary
- Coverage if city officers are away
- Expertise of specialized units to assist officers
- Experienced officers to select from for city staffing
- Cost sharing throughout the department to keep city costs down

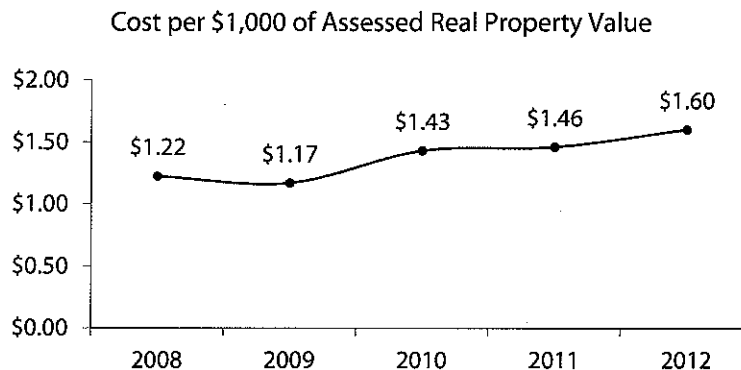

Costs for police services vary depending on a city's resources and the level and type of police services the community wants. The City of Shoreline may have additional funds or expenditures for special projects or programs as part of the city's law enforcement budget. These additional costs are not reflected in the contract cost per capita which shows the contract cost for police services divided by Shoreline's population.

Source: KCSO Contracts Unit

Cost per \$1,000 of Assessed Real Property Value

Cost per \$1,000 of assessed real property value shows Shoreline's contract cost in relationship to the property values of Shoreline.

Staff Highlights: Shoreline Police Community Service Officer Corona

The Shoreline Police Department has one Community Service Officer, CSO Corona. Our CSO provides non-law enforcement services to the community, relieving police officers of some tasks that do not require police legal authority.

The CSO's responsibilities are many. A typical day includes delivery of police correspondence to the city and county offices and courts. CSO Corona is also responsible for taking a majority of the found property cases, including bicycles. If the bicycles are not claimed within 60 days, a majority of our found bicycles are donated to various charities.

CSO Corona's main function is that of community outreach. She is familiar with the various social services in the area and works closely with these agencies to provide needed services to our citizens. She works closely with the courts and domestic violence victims. CSO Corona also works with the Adult Protective Services concerning our adult vulnerable population.

CSO Corona assists with Spanish translation for our officers, and to the King County Sheriff's Office Major Crimes Unit and surrounding law enforcement agencies.

Below are some 2012 highlights of CSO Corona's work.

Highlight #1 Victim of domestic violence found safe place to live

On July 20, 2012, shortly after 9 p.m., officers responded to a report of a family disturbance. When the officers arrived, they were told by the victim that her husband had physically abused her in Russia. The husband had immigrated to the US approximately seven years ago. According to the victim, she and her two children recently received legal status to come to the United States and had arrived seven months prior. They had been living with her husband and mother-in-law. The victim went on to tell the officers that her husband was very violent. The victim was afraid that if her husband found out she had called the police, he would "probably kill her." The victim was so frightened of her husband that she took her two kids and left, not knowing who to turn to. She had no family or friends in this country.

Officers contacted CSO Corona at home. She worked with the officers to find this woman and her children temporary housing for the weekend. CSO Corona continued to work with the victim and provided her with a Domestic Violence phone (a program we have to provide domestic violence victims with a phone to keep in contact with law enforcement and the court), gift cards for food and Metro bus tickets—all part of a domestic violence program CSO Corona created a few years ago.

Currently, the victim and her children are in a secure and confidential shelter while they work out their future.

Highlight #2 CSO Corona working with King County Mental Health "Wraparound Team"

The Wraparound Team is a "coordinated planning process that leads to an individualized care plan and development of a child and family team. It is for youth and families who have tried everything in the past and still not met with success. Plans may include a mix of natural supports, such as, family and friends, as well as, formal supports.

CSO Corona and the Wraparound Team are currently meeting with a family in Shoreline concerning their 16-year-old son.

Highlight #3 Found property returned to grateful family

CSO Corona handles a majority of our found property cases and goes the extra mile to identify victims and return their property.

In one case, a citizen turned in a found camera. CSO Corona looked through the pictures and found something linking the camera to Shorewood High School. She made an appointment with the photography instructor who recognized a current student in one of the photographs. CSO Corona contacted the student who was beyond grateful for the return of their family camera. He had left the camera at one of our parks.

Needless to say, both the students and his parents were extremely grateful that CSO Corona took all the steps necessary to identify the owner of the camera and return it.

The student wrote a heartfelt letter of appreciation to CSO Corona thanking her profusely for a job well done.

Special Events and Training

Active Shooter and Patrol Teams (ASAP)

In the last decade, law enforcement on a national level has experienced a spike in violent, criminal behavior that has targeted our most vulnerable locations, such as, schools, shopping centers, and movie theaters. Criminals exploit these locations because they are large public gathering areas where they can cause mass panic and chaos relatively quickly. While an overview of these past events do little to explain or understand the violent behavior, they have caused us to rethink our law enforcement procedures in responding to them.

The lessons learned have shown us that aggressive and decisive actions must be taken to stop and limit the scope of this violent behavior. The Shoreline Police Department has worked hard to

develop and implement tactics by seeking out experts in a variety of fields and disciplines. By drawing on the expertise of multiple sources, it allows us to design a program that can be adjusted as needed to fit a wide range of scenarios. We have refined these tactics and have equipped our officers with techniques and resources to quickly respond to such an event.

One of our highest priorities is our partnership with the school district. Shoreline Police Department will continue to strive to provide a safe environment for our students. In the coming year, the Shoreline Police Department has numerous meetings scheduled with our Shoreline School District partners to discuss and train on safety issues as they pertain to our schools.

The Shoreline Police Department will also be reaching out to the private schools in our district and invite them to participate in these discussions and/or training.

Shoreline Officers recognized for life saving efforts

In summer of 2012, the King County Sheriff's Office applied for and received a grant for numerous Automatic Electronic Defibrillators (AED). The Shoreline Police Department was given three AED's. A number of our officers went through a special training and have the AED's in their cars.

On September 2, 2012, an employee at the Home Depot suffered a cardiac arrest. Another employee began giving compression CPR and summoned other workers to call 911.

Shoreline Police Officers McKinney and Souza arrived and relieved the store employee giving CPR. They applied their AED which delivered a shock to the patient, and continued CPR until Shoreline Fire

and Aid arrived minutes later. Shortly following Aid's arrival, the patient had a spontaneous pulse and blood pressure and was transported to the hospital.

Per Medical Services Officer John Nankervis, "As for the response and the involvement of the King County/Shoreline Police, I would like to say this is probably one of the **most successful responses to a cardiac arrest that our system can provide**. I would even say this is "textbook" and a perfect example of the "chain of survival" and how important both bystanders (in this his co-worker) and the speedy response of someone with an AED and CPR skills (in this case Shoreline PD) are for a person to survive."

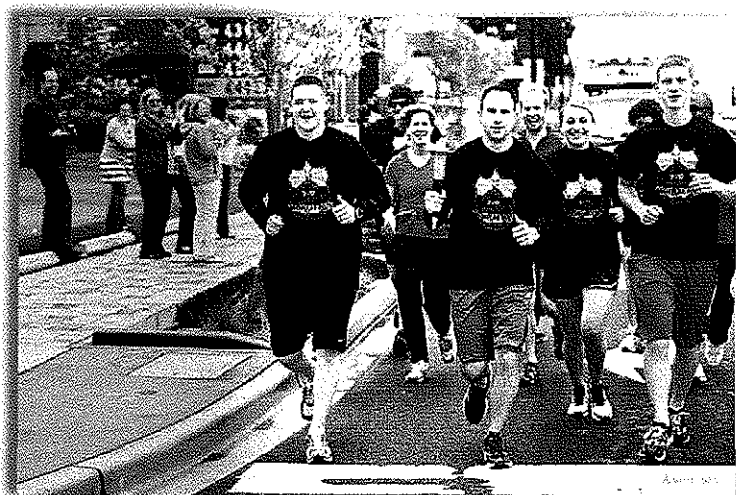

On January 22, 2013, Officer Greg McKinney and Officer Mark Souza received recognition from the King County Council for their lifesaving efforts.

Law Enforcement Special Olympics Torch Run

This year, as in years past, the Shoreline Police Department and the City of Shoreline have participated in numerous community events throughout the city; including the Strawberry Festival, the Ridgecrest Ice Cream Social and Celebrate Shoreline. For the past 17 years, the Shoreline Police Department has participated in the annual Special Olympics Torch Run. We thank our partners at the City of Shoreline for joining us in this very worthwhile cause.

Crime Prevention

Shoreline Police Department remains steadfast in its commitment to crime prevention. We believe partnering with the community strengthens community ties, empowers residents, and reduces crime. Ever mindful of tight budgets, we are proud that since 1996, we've had the help of more than 20 volunteers from the Shoreline community who donate over 4,000 hours a year.

Block Watch

In 2012, Shoreline Police presented nine new Block Watch meetings. Block Watch is the one of the most successful anti-crime programs in the country and is proven to reduce burglaries. At the core of the program strategy is neighbors getting to know neighbors and watching out for one another. Block Watch focuses on watchfulness, communication, security, crime prevention through environmental design (CPTED), and marking property for Operation Identification. Many Block Watch groups follow through to form Map Your Neighborhood (emergency preparedness) groups.

Host a Block Watch meeting in your neighborhood by doing these three things:

- 1) Volunteer to be a Block Captain and get Block Watch materials from storefront officer,
- 2) Identify which houses will be members of your Block Watch and create a map and email list and/or phone tree, and
- 3) Follow-up with your storefront officer to schedule a meeting.

Don't let crime triumph by waiting until you or your neighbor become a victim. Crime should never be the catalyst for getting involved. Shoreline Police are committed to helping you start a Block Watch-today!

Crime Prevention and Community Programs

Crime Prevention is always at work through our police volunteers. Listed are some of our programs with a brief explanation of how they benefit the Shoreline community.

- *Court Reminder Program*
Calls are made by police volunteers to remind people they have a court appearance. In its first year this program had a 36% reduction in FTA's (Failure to Appear) and saved the city over \$100,000.

- *False Alarm Reduction*
This program fulfills city code regulating alarm systems. The purpose of code is to reduce the occurrence of false alarms. Volunteers also manage this program.

- *Vacation House Checks and Citizen Park Patrol*
Volunteer teams trained by police free valuable police time by checking on homes and parks. Volunteers conduct approximately 500 house checks and park checks (combined) each year. About our program, residents say, "We've used your service many times and are most grateful," and, "It makes us feel much more comfortable knowing that extra pairs of eyes will be checking our home while we are on vacation."
- *E-911 Business Emergency Notification*
Volunteers contact Shoreline businesses to update contacts for use in an emergency situation.
- *Project Child Safe: Free Gun Locks*
"Put a lock on safety" with free gun locks from the Shoreline Police.
- *Victim Call Back*
Police volunteers contact crime victims of burglary, identity theft and other crime to follow-up on additional loss and information, as well as, provide important crime prevention resources including: tips and prevention for car prowling, ID theft, laptop theft, mail theft, home security checklists and more.

*Bomb Disposal Unit
Dogs and
Demonstrations at
2012 Citizen's
Academy*

- *Residential and Business CPTED surveys*
Crime Prevention through Environmental Design, or "CPTED," certified volunteers schedule and perform surveys to aid in security-minded design and crime reduction.
- *Crime Analysis Support: Crime Maps & Summaries*
Mapping and summaries of burglaries for both residential homes and business are posted to the police webpage each month by volunteers who assist police with crime analysis.
- *Memory Impaired Assistance Program*
A free program that assists in the recovery of memory impaired persons who are lost or have wandered away from their residences or caregivers. Non-latex bracelets are given to participants.
- *Landlord Training Program*
Increases landlord knowledge and skills. Presentations include: Tenant Screening and Background Checks, Evictions Procedures, Section 8 Housing, Domestic Violence Awareness, What To Do about Drugs In Your Rental, Crisis Resources for Tenants and more.
- *Citizen's Academy*
Annual 10-week academy where graduates learn the law enforcement role in the criminal justice system and come away with an appreciation for the many challenges facing law enforcement in today's complex society.

Volunteers of the Year

Rose Laffoon

Rose first heard about volunteering for Shoreline Police at a neighborhood meeting in late 1995. Since then, Rose said that in getting to know and work with police officers and other volunteers, she has become an advocate for public safety and police.

Rose has worked on the vacation house check program, a former senior shut-in call program, Business Emergency Contact updating, and remains a leader in the Victim Call Back Program.

Rose makes sure that as a volunteer she gets involved in community events. She's represented the city and police department at Celebrate Shoreline riding in antique cars and trucks with parade clowns. She's had chilly holiday duty at Saltwater Park holding a flashlight on pathways to help light the way for city event-goers. She's always worn the volunteer uniform and jacket proudly.

Personal service and compassion are hallmarks of Rose's character—and she brings these with her to volunteering. Several years ago, a woman came to the police storefront for help. The woman said she needed help with neighborhood crime and while talking, disclosed she was staying in a house that was not a healthy living environment. Rose listened, but also did much more. They realized they knew of one another through prior volunteer work and a friendship began. Rose opened her own home to the woman while she got back on her feet; and now, years later, Rose continues to reach out by calling her and checking in on her. Rose truly "walks the walk."

We are grateful for Rose's 16 years of dedication to the Shoreline Police and the community we serve. She has demonstrated service and actions reflecting honor to Shoreline Police and the King County Sheriff's Office.

Kathryn Egan

Kathryn Egan has been a dedicated volunteer for the past five years and has taken on our Victim Call Back Program. She completes this every Wednesday by reviewing all the Burglary, Larceny, Robbery, Auto Thefts and Prowls, and Identification Theft reports and sends out information to each victim. This is a valuable step in letting our citizens know that we care. She does this with a smile on her face and really enjoys volunteering her time. She also handles the day to day operations at the storefront every Wednesday.

Kathryn was born in Seattle, and worked at the Port of Seattle for 32 years. She obtained an associate's degree at Shoreline Community college. Kathryn loves to carve wood, kayak and mountain bike in her free time.

Kathryn's love and compassion for volunteering and helping others is an inspiration to us all. She displays tireless devotion and professionalism to the citizens of King County and the City of Shoreline.

More Information

For more information on crime prevention programs and services, or about volunteering, contact the Shoreline Police Department at (206) 801-2710 or <http://shorelinewa.gov/index.aspx?page=183>.

Shoreline Police Awards of Distinction

Shoreline Police Sergeant of the Year 2012

This year Sergeant Chad Devore has been selected as the Sergeant of the Year for the Shoreline Police Department.

According to his nomination Sergeant Devore "is an excellent example of what a great supervisor is. He is someone who prioritizes training, shows support to his subordinates and to his peers, has excellent communications skills, and always balances what is best for the department with what is best for the people he supervises.

Sergeant Devore takes on many tasks in addition to managing and supervising a busy 2nd shift. He coordinates Taser training for Shoreline, Kenmore, Woodinville, Sammamish, and Zone 1 unincorporated County area. Sergeant Devore is the A.S.A.P. (Active Shooter and Patrol) Sergeant for Shoreline, and puts forth a great deal of effort coordinating training with Kenmore and other entities that participate in the A.S.A. P. program.

One of Sergeant Devore's biggest strengths is his leadership ability. Sergeant Devore always strives to improve morale as he recognizes that high morale equals a high work product. He would never ask a deputy to do anything that he would not do himself. Sergeant Devore believes strongly in teamwork and makes great efforts to keep everyone together as a team.

Sergeant Devore is a selfless and humble leader. He always puts others' needs before his own; and his leadership style has earned the trust and support of his subordinate deputies, his fellow peers, his supervisors, and the public we serve.

For these reasons and many more, Sergeant Devore has received this award for 2012. In addition, Sergeant Devore also was named as Sergeant of the Year for the King County Sheriff's Office.

Shoreline Police Officer of the Year 2012

Officer Josi McNaughton has been selected as the Shoreline Police Officer of the Year. Officer McNaughton is a "well versed street cop highly involved in field operations in the City of Shoreline. She has an even-keeled personality that makes her approachable by all members of this agency. She is always willing to lend her expertise and knowledge so that others may succeed in their endeavors. Officer McNaughton is a self-motivator who can see the big picture and prioritizes her time accordingly. She is a consummate professional and routinely volunteers for complex investigations, such as, fraud, sex offenses and most recently mental health/group home cases.

In January of this year, Officer McNaughton responded to a call from the parents of a 23-year-old male. Their son was experiencing a psychotic break, and they needed help immediately. The victim had stopped taking his medication several weeks prior which made him delusional. These delusions would cause him to escalate into severe rage and fits of anger towards his parents. They attempted to get the victim to his doctor but became concerned when he took a knife from the kitchen and a steel fire poker from the living room. Fearing for their safety, his parents called 911.

Officer McNaughton made initial contact with the victim who had barricaded himself in his bedroom. She could not see him, but he would talk to her through the bedroom wall. It was very apparent that the victim had numerous mental health concerns. He told the officers that he had cut himself and was bleeding out in an attempt to draw them into the room. Officer McNaughton attempted to persuade the victim to come out of the room, but he refused claiming the "voices told him not to." The victim destroyed all of the furniture in his room and knocked holes in the walls of the house.

Officer McNaughton negotiated with the victim for two hours and 21 minutes. This situation ended with no injuries and on a positive note, which according to her Sergeant, should be directly attributed to the quick decisions and actions of Officer McNaughton.

In early 2012, the King County Sheriff's Office began to train patrol officers in the use of the Automated External Defibrillator (AED's) in an effort to save lives. Officer McNaughton quickly volunteered for the program and began deploying with the AED immediately. The benefits of the program were quickly realized in May of 2012 when Officer McNaughton and Officer Meyers responded to a 911 call of a female in cardiac arrest who had collapsed in front of her family. The officers arrived within two minutes of the call, prior to the Medic Unit arriving. Officer Meyers initiated CPR while Officer McNaughton deployed her AED which stabilized the victim for transport to the hospital.

In conclusion, Officer McNaughton is a highly valued member of her shift and the department and is deeply appreciated by her peers.

Shoreline Detective of the Year 2012

Detective Pat Kearney has been selected as the Shoreline Police Detective of the Year. Detective Kearney is assigned to the Special Emphasis Team. In February 2011, Detective Kearney was assigned a case for follow-up.

One of our patrol officers conducted a traffic stop and while the occupants were searching for the vehicle registration in the glove box, the officer noticed a large sum of cash in the glove box. The

officer asked the occupants about the money and possible drugs in the car; and one of the occupants admitted there were, in fact, drugs in the car.

The car was then impounded and sealed pending a search warrant. Detective Kearney wrote and served the search warrant on the car and recovered approximately \$22,000 in cash, narcotics and items that were consistent with drug trafficking.

Ultimately, this case evolved into an OCDETF case. OCDETF stands for Organized Crime Drug Enforcement Task Force. For an investigation to reach OCDETF status, a tremendous amount of work and documentation needs to take place and then presented to an OCDETF board for their review and concurrence.

Once the OCDETF is approved, the case is worked on the federal level with local law enforcement support. Detective Kearney and his fellow detectives worked for 14 months on this investigation. Detective Kearney played a major role in this investigation as one of the lead case agents.

As the OCDETF investigation ran its course and was nearing its end, the pressure and magnitude of this investigation was now in full effect.

The OCDETF investigation began coming to a close with the service of numerous search warrants and arrest warrants. Although the federal prosecutor and the DEA wrote the search warrants, it was Detective Kearney's responsibility to execute seven of them.

Detective Kearney spent innumerable hours preparing for the service of these search warrants. When the day finally arrived to serve all of these search warrants at the exact same time, the operation was carried out without any problems whatsoever! All of the search warrants were served without incident, and no law enforcement officers or suspects were injured in the process.

More than 25 federal search warrants were served that day, and all were a direct result of this 14-month investigation.

In the end, 26 arrests were made; and seizures included 44 pounds of heroin, nine pounds of cocaine, 17 pounds of methamphetamine, and \$320,000 in cash.

Jenny Durkan the United States Attorney for the Western District of Washington said in a press release, "I commend the collaborative work of federal, state and local law enforcement in disrupting these organized criminal groups that trafficked drugs in our communities. They sow the seeds of violence and addiction purely for profit. With these arrests, we are sending a clear message to transnational criminal organizations that they are being actively pursued and will be shut down."

The drugs were transported, sometimes in hidden compartments, from Mexico through Arizona and California and into King, Pierce, Skagit and Snohomish Counties for distribution.

Shoreline Police Professional Staff Employee of the Year

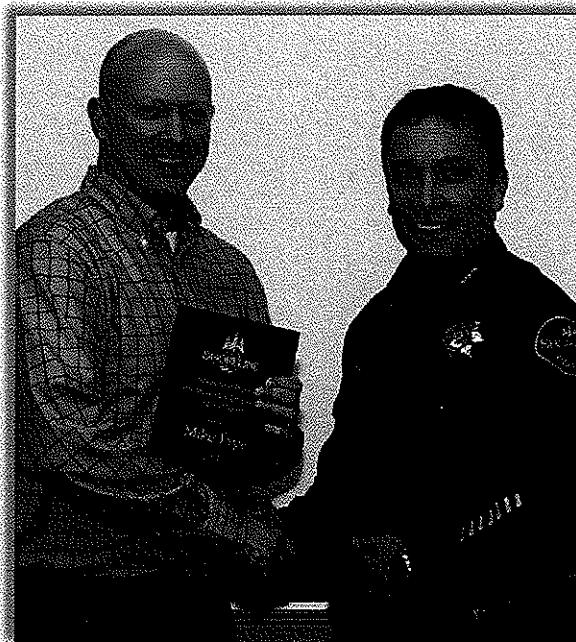

Mike Frye has been selected as our Professional Staff employee of the Year. Mike is assigned to Sheriff's Office Technical Services, Information Services, and Network Support. His worksite is the Shoreline Police Station.

Working in a police station, he is constantly bombarded with requests for assistance, both big and small, from the Administration, Detective Units, Patrol Officers and other Professional Staff. Mike has a positive get-it-done attitude which is much appreciated by all who work with him.

At the request of the Shoreline Police Administration and the City Manager, Mike created an e-mail alert system so Patrol Sergeants could send out a basic "zz" alert to selected Shoreline officials to advise them of police incidents that occur 24/7. In the past, it has been hit-and-miss regarding notification of major events in our city.

Now, all of the Sergeants and Command Staff can easily access the notification e-mail form Mike created and quickly get the necessary information out to those who need it.

Mike was also instrumental in creating the King County Sheriff's Office Advanced Training Unit's training database, which allows up-to-date access to employee training records. In the past, it could take days to get a list of a specific employee's training records. All employees of KCSO will agree that this program is much appreciated.

Mike is truly innovative in his approach and will find a way to make something work, often taking an idea and then building a program around it.

City of Shoreline **Police Service Data** 2012
