

SHORELINE CITY COUNCIL SPECIAL MEETING

Monday, May 7, 2007
6:30 p.m.

Shoreline Conference Center
Mt. Rainier Room

	<u>Page</u>	<u>Estimated Time</u>
1. CALL TO ORDER		6:30
2. FLAG SALUTE/ROLL CALL		
(a) Proclamation of "Building Safety Week"	<u>1</u>	
(b) Proclamation of "Hip Hop Week"	<u>3</u>	
3. CITY MANAGER'S REPORT AND FUTURE AGENDAS		
4. REPORTS OF BOARD AND COMMISSIONS		
5. GENERAL PUBLIC COMMENT		6:40
<i>This is an opportunity for the public to address the Council on topics other than those listed on the agenda, and which are not of a quasi-judicial nature. The public may comment for up to three minutes; the Public Comment under Item 5 will be limited to a maximum period of 30 minutes. The public may also comment for up to three minutes on agenda items following each staff report. The total public comment period on each agenda item is limited to 20 minutes. In all cases, speakers are asked to come to the front of the room to have their comments recorded. Speakers should clearly state their name and city of residence.</i>		
6. STUDY ITEMS		
(a) Discussion of Saltwater Park Phase 1 Projects	<u>5</u>	7:00
(b) Update on Council Goal No. 6: Create an Environmentally Sustainable Community	<u>7</u>	7:30
(c) Economic Development Advisory Board	<u>13</u>	8:15
(d) 15 th Avenue NE Traffic Study – Final Report	<u>19</u>	8:45
7. UNFINISHED BUSINESS		
(a) Ordinance No. 470 amending Appointments of Youth Members to the Parks Board; and Appointment of Six Regular Members to the Shoreline Parks, Recreation and Cultural Services Board	<u>39</u>	9:15

8. ADJOURNMENT

9:30

The Council meeting is wheelchair accessible. Any person requiring a disability accommodation should contact the City Clerk's Office at 546-8919 in advance for more information. For TTY service, call 546-0457. For up-to-date information on future agendas, call 546-2190 or see the web page at www.cityofshoreline.com. Council meetings are shown on Comcast Cable Services Channel 21 Tuesdays at 12 noon and 8 p.m., and Wednesday through Sunday at 6 a.m., 12 noon and 8 p.m. Online Council meetings can also be viewed on the City's Web site at <http://cityofshoreline.com/cityhall/citycouncil/index.cfm>.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Proclamation of "Building Safety Week"
DEPARTMENT: CMO/CCK
PRESENTED BY: Scott Passey, City Clerk

PROBLEM/ISSUE STATEMENT:

This proclamation recognizes May 6 through May 12, 2007 as Building Safety Week in the City of Shoreline. It calls upon City residents to celebrate this special occasion and consider accomplishing projects at home and in the community to improve building safety.

Representatives from Planning and Development Services Staff and the Shoreline Fire Department will be at the meeting to accept the proclamation.

RECOMMENDATION

No action is required.

Approved By: City Manager  City Attorney ____

PROCLAMATION

- WHEREAS, May 6-12 is Building Safety Week in the State of Washington and across the nation; and
- WHEREAS, the dedicated members of the International Code Council, including building safety and fire prevention officials, architects, engineers, builders and others in the construction industry, develop and enforce codes to safeguard Americans in the buildings where we live, work, play and learn; and
- WHEREAS, contemporary building safety codes represent current standards that include safeguards to protect the public from natural disasters, such as earthquakes, floods, snowstorms, and wildland fires; and
- WHEREAS, this year's theme, "Building Smarter... for Disasters and Everyday Life", encourages all Americans to raise our awareness. Everyone can take steps to ensure that buildings are safe. Countless lives have been saved because of the building safety codes adopted and enforced by local and state agencies; and
- WHEREAS, Building Safety Week is an excellent opportunity to increase public awareness of the role building safety and fire prevention officials, the State Building Code Council, and federal agencies play in protecting lives and property;

Now, therefore, I, Robert L. Ransom, Mayor of the City of Shoreline, on behalf of the Shoreline City Council do hereby proclaim the week of May 6 -12, 2007, as

BUILDING SAFETY WEEK

in the City of Shoreline, and encourage residents to join their fellow Americans in participating in Building Safety Week activities and consider projects at home and in the community to improve building safety.

Robert L. Ransom, Mayor

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Proclamation for Hip Hop Week in Shoreline
DEPARTMENT: Parks, Recreation and Cultural Services
PRESENTED BY: Lynn M. Cheeney, Recreation Superintendent

PROBLEM/ISSUE STATEMENT:

Members of the Shoreline Parks, Recreation & Cultural Services Department Teen program will be present to accept the proclamation. They will also provide Council with a demonstration of Hip Hop.

The City has offered a Hip-Hop program through the Teen Program for over 10 years. This has included DJ classes, breakdance and hip-hop dance lessons, graffiti art workshops, mc'ing mentoring, hip-hop camp and much more. In addition, the Teen Program hosts five competitions (battles) throughout the year which draw upwards of 350 teens at both The REC and The CENTER late night programs.

The 'gangster rap' of the 1990's unfortunately brought hip-hop to the mainstream in a very negative light. True hip-hop is based on support, creativity and freedom of expression. Early hip-hop has often been credited with helping to reduce inner-city gang violence by replacing physical violence with hip-hop battles. This is the culture which The City's program fosters, with many of the breakdancers who attended the program as teens coming back to work as staff later because they believe so strongly in the positive atmosphere the program cultivates. Positive and healthy activities such as these help support Council Goal No. 10 which includes providing opportunities for youth involvement.

FINANCIAL IMPACT:

This program is part of the annual budget for Parks, Recreation & Cultural Services.

RECOMMENDATION

No action is required.

Approved By:  City Manager ____ City Attorney ____

PROCLAMATION

- WHEREAS, the City of Shoreline provides a variety of activities for teens in our community; and
- WHEREAS, the City has offered a Hip Hop Program for over 10 years; and
- WHEREAS, Hip Hop is based on support, creativity and freedom of expression; and
- WHEREAS, Hip Hop encourages social diversity; and
- WHEREAS, the Recreation Department offers classes quarterly for teens and youth; and
- WHEREAS, the Teen Program hosts five completions through out the year with over 350 teens at both the REC and the CENTER; and
- WHEREAS, Hip Hop is a recognized program in the Shoreline Public Schools with teams at Shorewood and Shorecrest; and
- WHEREAS, the Shorecrest Hip Hop team placed 2nd in the state 3A competition;
- NOW, THEREFORE, I, Robert L. Ransom, Mayor of the City of Shoreline, on behalf of the Shoreline City Council, do hereby proclaim the week of May 7, 2007 as

HIP HOP WEEK

in the City of Shoreline and recognize and encourage participation in this worthwhile program.

Robert L. Ransom
Mayor of Shoreline

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Council Briefing – Saltwater Park Phase 1 Projects Design Development Review
DEPARTMENT:	Public Works and Parks
PRESENTED BY:	Dick Deal, Director, Parks, Recreation and Cultural Services Maureen Colaizzi, Parks Planner Dave Buchan, Capital Projects Manager

This Staff Report provides Council with a preview of topics and content to be included in the May 7, 2007 review of Design Development drawings for Phase 1 projects at Saltwater Park.

BACKGROUND:

On Monday evening, February 12, 2007 Council adopted the Richmond Beach Saltwater Park Master Plan. This plan is intended to guide the development and management of Saltwater Park for many years ahead. At that same session, Council authorized the City Manager to execute a contract with Hewitt Architects to carry out Schematic and Design Development phases of design for the individual projects that make up the Phase 1 package of Saltwater Park improvements, as identified in the master plan document.

Staff indicated to Council at the February 12th session that the Design Team would return to update the Council on the parameters and design options with the Phase 1 projects when design work had progressed to a point where Council review would be most beneficial. The upcoming May 7, 2007 Council Workshop is that appropriate review time.

Preliminary design concepts for all Phase 1 projects were shared with the Park, Recreation and Cultural Services Board on Thursday evening March 22, 2007. The Board was enthusiastic in its support of these early directions and a wide ranging discussion occurred with regard to project scope of work and design choices inherent in each of the projects.

Council Review of Design Development Work for Phase 1 Projects:

On Monday evening, May 7, 2007, Council will hear from a number of planning and design professionals involved with Saltwater Park. The following outlines the sequence and discussion topics of these briefings:

1. UW Students Report on Removal of Invasives and Replanting of Natives – For a number of months UW Students majoring in Urban Ecology, led by their Professors, have been designing and implementing a program for removal of Scotch Broom, Blackberry and other invasive plant materials in Saltwater Park and then

replanting with Dune Grass and other native plant materials suitable to the sandy, dry conditions in the park. A one-acre section of the park has been replanted and both students and their professor will be on hand to share their experiences with this project. It is hoped that this UW Program will create a model for a long-term program of volunteer efforts to control vegetation in the park. This will be both a discussion and power point presentation.

2. Vegetation Management Program -

Diane Brewster is a member of the Hewitt Design Team and has broad experience in planning programs to manage and control large scale planting efforts in both urban and open space settings. Diane will discuss the elements of the Vegetation Management Plan that she is preparing for Saltwater Park. When complete, the Vegetation Management Plan will virtually be a "how-to" manual to guide volunteer efforts in the long-term vegetation management at Saltwater Park.

3. Design Development Review – Phase 1 Projects

Chris Snyder and Jeff Benesi from Hewitt Architects will present the Design Development drawings for Phase 1 projects at Saltwater Park. They will share drawings, illustrations, sections and perspective sketches to help communicate the design intent for each of the individual projects in the Phase 1 package. They are both very excited about the design opportunities inherent in these projects and are anxious to share their work. Cost estimates for each of the project elements will be shared with Council as a part of this Design Development review.

4. Interpretive Program for Saltwater Park

Chuck Lennox, the interpretive specialist with the Hewitt Team, will discuss options for Interpretive Programming at Saltwater Park. He will share photos of interpretive efforts that he has admired in other locales to share possibilities for what our interpretive efforts at Saltwater Park might be. He will share photos on the history of Saltwater Park and discuss options for interpretation at the park. The Council will be invited to share preferences for this interpretive programming.

NEXT STEPS:

If Council approves the general design direction being pursued for Saltwater Park, Staff will prepare a contract addendum to enable Hewitt Architects to carry out Construction Documents, Bidding and Contract Award services and provide Construction Observation services during construction of the Phase 1 projects. This proposed addendum will be presented to Council for review and approval on May 29, 2007.

RECOMMENDATION

No action is required.

Approved By: City Manager  City Attorney _____

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Status report on Environmentally Sustainable Community (Goal 6)
DEPARTMENT: Planning and Development Services
PRESENTED BY: Joe Tovar, Director, Planning and Development Services

PROBLEM/ISSUE STATEMENT:

This a report to the Council updating them on progress to date on implementation of Council Goal 6: "Create an Environmentally Sustainable Community"

FINANCIAL IMPACT:

- The City Council approved \$100,000 in the 2007 budget to support the preparation of a Strategy to Create a Sustainable Shoreline.

RECOMMENDATION

No action is required. This is an update to the Council of the work that the Departments have made toward implementation of Goal 6.

Approved By: City Manager  City Attorney _____

INTRODUCTION

The City Council adopted "Create an Environmentally Sustainable Community" as Council Goal 6 of the 2007-2008 Council Goals. The staff has been working on implementation of this goal and is prepared to present a status report to Council.

BACKGROUND

The City Council received a packet of material for its annual retreat in April, including a fairly detailed reporting of the status of implementation of Goal 6. Because there was not extensive discussion of that material at the retreat, it has been repeated below and will be discussed at the Council's May 7 meeting.

In order to better coordinate inter-departmental efforts in service of Goal 6, the staff has formed an Inter-Departmental Sustainability Committee, chaired by the Planning Director, and including the Directors of Public Works, Finance, and PRCS, and key personnel from those departments. The details of meeting dates and frequency is yet to be determined, but the Committee's near-term purpose is to coordinate the work on the Goal components outlined below, and provide periodic progress reports to the City Manager and Council. In addition, the Committee will provide a collaborative setting for the departments to distill sustainability principles and objectives to incorporate into final staff recommendations for the Aurora Project and Civic Center/City Hall projects.

Goal 6 and the City's commitment to sustainability in projects and programs will be named in the recitals of a resolution that will be before Council in late May. At the May 28 meeting, the Council will review a resolution that would express the City's interest in being designated as a "Cascade Agenda City." The staff has been in discussions with the "Green Cities" and "Great Cities" coordinators for the Cascade Land Conservancy to clarify what the benefits, commitments and consequences would be for Shoreline if the Council were to adopt such a resolution. We have also been in contact with other cities to learn of their experiences with the Cascade Agenda City program. The draft resolution will be one of the first products of the new Inter-Departmental Sustainability Committee.

Following below verbatim are the components of Council Goal 6 that were included in the packet prepared for the Council's April retreat.

1. Develop an Environmental Sustainability Strategy

A Request for Qualifications (RFQ # 4289) was published April 9, 2007 to initiate the search for an Environmental Consultant that will work with City Staff from Planning and Development Services, Public Works and Parks to develop an overarching strategy that will guide the City's decision making and track progress towards an Environmentally Sustainable Community. Staff continues to compile an inventory of resources and options that will contribute to this strategy.

Once the consultant is selected in mid-May, staff will work with the consultant to develop a strategy with the following objectives:

- Criteria for environmentally sustainable decision making;
- Assessment of how the city is doing so far and suggestions for improvement
- Measures for tracking progress towards environmental sustainability;
- Capacity assessment for implementation of the proposed strategy including financial, staffing, and community involvement requirements.

2. Complete Urban Forestry Assessment

The City recognizes the need to create a comprehensive management plan to guide future management of urban park forests within the city. A critical first step in the creation of a city-wide management strategy is to conduct an inventory of existing vegetation resources in our parks. The City Council approved a contract with Seattle Urban Nature Project (SUNP) to provide habitat mapping, vegetation surveys and management recommendations for Hamlin (80 acres), South Woods (16 acres), Shoreview (48 acres) and Boeing Creek (40 acres).

These four parks comprise the largest forested tracts in the park system with a majority of our public parks' important stream corridors, upland forest and wetland natural areas. A resource inventory will give the City information regarding existing forest habitat types and structure, and native and invasive species distributions. This information can be used to make planning and management decisions for both forest stewardship and recreational needs.

Since the contract was signed in late 2006, SUNP has collected data in the field and from existing GIS maps to produce a GIS layer that delineates existing habitat types throughout each of the four parks. This summer they will conduct their survey of 1/10 acre plots in each of the habitat types throughout each of the four parks.

Later this year, SUNP will compile the field data and link it to the GIS files. SUNP will prepare a report with the findings with management recommendations developed for each of the four areas surveyed including information about: invasive species location and methods for removal; preserving and increasing downed logs and under-planting shade-tolerant conifers; erosion control measures and re-establishment of under-story vegetation, etc.

SUNP will present their findings in a final council presentation in November 2007. This report will be used to implement the City's forest management strategy within these parks and provide a template for future survey efforts in the remaining forested public parks and open spaces.

3. Develop Options for a Green Street Demonstration Project (PWK)

During the first quarter, Public Works Operations staff has identified potential sites for implementation of Green Streets concepts. Staff will be meeting with a consultant to develop options for implementation at the chosen site. This process will be completed by the end of the second quarter. Once these options are designed, the Public will be involved in the process prior to the construction. The public process and construction will take place during the third and fourth quarters.

4. Update Stormwater Management Plan (PWK)

Public Works Operations staff, in conjunction with the PADS Permit Services Team, have reviewed the history of the ordinances and codes relating to storm water management in the City to assess what parts of the codes need to be updated. The Department of Ecology's NPDES Phase II Municipal Storm water Permit became effective for the City during the first quarter (February 16). Surface Water and Environmental Service staff have evaluated the requirements of the permit in relation to code revisions. SWES staff is currently conducting a programmatic needs assessment in relation to the permit requirements.

During the second and third quarter, Public Works and PADS staff, through their newly formed Interdepartmental Policy Group, will develop proposed changes to the storm water code and programmatic functions that will, at minimum, meet the requirements of the NPDES Permit. Compliance with this aspect of the permit has a deadline of August 2009. We anticipate completion of this sub-goal prior to that deadline.

5. Adopt advanced stormwater standards for the second phase of the Aurora Project (PWK)

Public Works Operations staff has sent recommendations to the Aurora Project Team on potential storm water standards for the next 2 miles. Next quarter, these recommendations will be incorporated into the storm water discipline report and technical memorandum by the Aurora Team and its consultants.

The City has hired SVR Design Company to develop natural storm water design concepts and alternatives for the Aurora Corridor Project. The City has hired Tom Holtz to assist with the development of these concepts. The City hosted a half-day study charrette on March 23rd, including SVC, Tom Holtz, Matt Loper (Professor at Shoreline Community College), John Lombard (Steward & Associates), Michael Broili, staff and Councilmembers to discuss natural storm water alternatives for the next two miles of Aurora.

6. Implement Mayor's Climate Protection Agreement

The primary effort behind this goal element is to inventory the City's global warming emissions for 1990 and 2007. Toward this effort, staff are researching how to accurately measure these emission levels. A meeting with the City of Seattle who recently completed their inventory will provide concrete steps for this task. In addition, funding for a statistically reliable telephone survey to get data that is relevant to the City is being investigated.

Beyond the task of conducting these two inventories, the City is involved with numerous initiatives to implement this agreement. These include the following:

1. Capital projects, such as the Interurban Trail, Aurora Corridor, and Priority Sidewalks that encourage walking, biking, and the use of mass transit other than single occupancy vehicle use

2. Recycling Events, which reduce the need for energy and natural resources to produce new products
3. Environmental Mini-Grant Program, which can fund local climate protection-related initiatives
4. Recent purchase of 2 hybrid vehicles, form-based code development, and participation in King County's Commute Trip Reduction program which reduce emissions and open space preservation and enhancement that preserves carbon banks in the City.

RECOMMENDATION

No action is required. This is an update to the Council of the work that the Departments have made toward implementation of Goal 6.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE: Economic Development Advisory Board DEPARTMENT: City Manager PRESENTED BY: Tom Boydell, EDP Manager
--

PROBLEM/ISSUE STATEMENT:

The Economic Development Task Force, which was an *Ad Hoc* group, completed its work on the strategy in 2005 and 2006. The Council has since expressed an interest in establishing a standing committee, to be called an Economic Development Advisory Board. Staff has drafted a proposed outline of the purposes, composition, and appointment process for this advisory board. Based on Council advice and direction, staff will revise this charter and later bring it back to Council for final review and adoption.

PROPOSED CHARTER:

Purposes:

The Shoreline Economic Development Advisory Board will carry out two general purposes.

- I.) To report to the City Council one to two times per year:
 - a. With recommendations for any changes to the "Economic Development Strategy".
 - b. With an update on activities, programs and progress.
 - c. Assist with developing specific performance measures.
- II.) Meet regularly with the City's Economic Development Manager, to provide assistance and recommendations, with respect to
 - a. Developing programmatic resources
 - b. Establishing new contacts in the business community
 - c. Improving customer service
 - d. Retention and recruitment activities
 - e. Increasing sales tax growth

Composition and Selection Process

It is proposed that there will be 12 to 15 members. These members will be nominated by the City Manager and confirmed by the City Council, including the selection of one person to serve as the Board Chair.

The City will seek applicants through a public process. Both a standard application and a supplemental questionnaire are attached. The City will seek for a balanced representation from the business and development community. Each member must own property or operate a business in Shoreline or otherwise be a resident of the Shoreline community. For example, members could include the following:

- A. One r epresentatives of the following 5 organizations – the Chamber of Commerce, Forward Shoreline, Planning Commission, School District, and Shoreline Community College.
- B. Direct business appointees should be represented from commercial areas as follows: 2 from Aurora (including Aurora Village and Aurora Square), 1 from Ballinger, 1 from Richmond Beach or Richmond Highlands, and 1 from North City or other eastside commercial neighborhoods.
- C. Two to 5 at large professionals members with business management, economic development or real estate expertise.

Members should be selected to provide a balanced and representative cross section of business within Shoreline such as retail, service, professional, financial, and non profit organizations.

FINANCIAL IMPACT:

Staffing Role, Budget, and Logistics:

The Economic Development Manager help to facilitate the meetings but otherwise there is no budget for the Board. This will be a standing committee. Members will be re-appointed every four years, with half the members first appointed to a two year term to ensure committee continuity. Meetings will be held on a regular basis, at a minimum of one meeting each quarter. The Board will try to operate by consensus.

ATTACHMENT

It is envisioned that a public process, similar to what has been done for other City boards and commissions, will be used to advertise applicants. A draft application is attached.

Approved By: City Manager  City Attorney _____

COMMUNITY SERVICE APPLICATION

FOR MEMBERSHIP ON THE

Economic Development Advisory Board

(Please type or print)

Name _____

Are you a Shoreline resident or property owner? _____

Length of residence _____

1. List your educational background. _____

2. Please state your occupational background, beginning with your current occupation and employer. _____

3. Describe your involvement in the Shoreline community. _____

4. Describe your leadership roles and/or any special expertise you have which would be applicable to the position for which you are applying. _____

5. List the addresses of property you own in Shoreline and the type of property (residential or commercial). _____

6. Are you an official representative of a homeowners' association or other group? If so, please name the group. _____

7. Describe why you are interested in serving in this position. _____

Appointment to this board or commission will require your consistent attendance at regularly scheduled meetings.

Are you available for evening meetings? _____ Daytime meetings? _____

Please return this application by the deadline to: City of Shoreline, City Clerk
17544 Midvale Avenue North
Shoreline, WA 98133
(206) 546-8919

Disclosure Notice: Please note that your responses to the above application questions may be disclosed to the public under Washington State Law. The Personal Information form (page 3), however, is not subject to public disclosure.

*Thank you for taking the time to fill out this application.
Volunteers play a vital role in the Shoreline government. We appreciate your interest.*

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	15 th Ave NE Traffic Study – Final Report
DEPARTMENT:	Public Works-Traffic Services
PRESENTED BY:	Mark Relph, Public Works Director Jesus Sanchez, Operations Manager Rich Meredith, City Traffic Engineer

PROBLEM/ISSUE STATEMENT:

In December, 2003, Public Works completed a project to reconfigure 15th Ave NE between NE 150 St and NE 175 St from a 4-lane roadway, two lanes in each direction, to a 3 lane roadway with one lane in each direction, a center turn lane, and bike lanes.

There were concerns raised about increased traffic congestion on 15th Ave NE, and increased traffic volumes and speeds on parallel arterial collectors, 5th Ave NE, 10th Ave NE, and 25th Ave NE, and neighborhood streets. Staff has been monitoring these issues through traffic counts, speed studies, accident review, and traffic studies.

FINDINGS/CONCLUSIONS

The operation of 15th Ave NE as a three-lane roadway meets the planned expectations:

- Lower speeds – The 85% speeds fell 1.5 MPH from 39.3 to 37.8
- Lower volumes – The average weekday traffic (AWDT) declined 1,339 (7.8%)
- Decreased number of collisions – There was a 3.1% decline in reported collisions comparing three years before to three years after implementation.
- Decrease in collision severity – There was a 30.9% drop in the number of reported injuries.

Some local streets experienced small gains in traffic volumes and speeds, and some experienced reductions. The increases on local streets are within the range that these streets can accommodate, and are manageable with controls through the Neighborhood Traffic Safety program (NTSP).

RECOMMENDATION

No council action is required or recommended. Staff will continue to work with local residents to manage traffic impacts on non-arterial streets and implement appropriate neighborhood traffic mitigation improvements.

Approved By: City Manager _____ City Attorney _____

ACTION/BACKGROUND

Historically, 15th Ave NE consisted of two lanes in each direction between NE 150 St and NE 175 St. The curb to curb width of 15th Ave NE is 44 feet, so there is not enough room for a center turn lane and two lanes in each direction. The character of the land uses along 15th Ave NE is primarily residential. The speed limit is 35 MPH. There were complaints about pedestrian safety along the corridor. The City of Shoreline funded a study to examine the corridor and recommend improvements. In the study titled "Final Pedestrian Safety report, January, 2003, one of the recommendations was to reconfigure 15th Ave NE from four lanes to one lane in each direction with a center turn lane. This change, sometimes referred to as a "road diet" because of the reduction in the number of lanes, has been found to improve overall safety of a roadway. One specific safety benefit is the reduction of the "multiple threat" situation for pedestrians. A "multiple threat" occurs when one car stops for a pedestrian, but a vehicle in the adjacent lane doesn't, in part because the visibility of the pedestrian can be obscured by the stopped vehicle.

"Road diet" projects have been successfully implemented in other cities, such as Seattle, Bellevue, Portland, and other locations across the country. Below are some links to websites where more information about the performance of similar projects can be found.

<http://www.hsisinfo.org/pdf/04-082.pdf>

<http://www.walkable.org/download/rdiets.pdf>

[http://www.ite.org/meetcon/2005AM/Rosales Tues.pdf](http://www.ite.org/meetcon/2005AM/Rosales_Tues.pdf)

The North City business district was also planned as a three-lane roadway between NE 175 St and NE 180 St to enhance the pedestrian environment, improve pedestrian safety while crossing 15th Ave NE, and improve turning movements into and out of adjacent businesses.

In December, 2003, 15th Ave NE south of NE 175 St was reconfigured to three lanes to facilitate the transition into and out of the North City CBD.

Subsequently, in December, 2004, the City Council directed the channelization through the North City CBD be maintained as 4 lanes between NE 175th St and NE 180th St after completion of the North City construction project.

The City Council asked for a review of the traffic behavior changes resulting from the three lane section between NE 175th St and NE 150th St. A report summarizing those findings was presented in March, 2005. This report updates the findings from that report with data collected through February, 2007.

DISCUSSION

In March, 2003, prior to implementing the three-lane design, traffic counts were taken at 56 locations, and speed studies were conducted at 15 locations to establish a baseline to measure against after the restriping project and the North City improvement project. Traffic signal equipment was upgraded to accommodate the new three-lane

configuration, and to improve traffic flow along to corridor. Construction of the restriping project began in December, 2003. The North City redevelopment project began in May, 2005, and was substantially complete in June, 2006.

Follow up traffic data was collected each year to help monitor the effects of the reconfiguration and the construction impacts of the North City project. The last set of data was collected in February, 2007, to produce this final report about the traffic patterns following substantial completion of the North city project and the restriping.

The following are some of the results of the comparison:

15th Ave NE

Overall, traffic volumes declined 1339 vehicles per day (7.8%) on 15th Ave NE between NE 145th St and NE 175th St. Peak hour volumes also dropped, 55 (4.1%) in the morning and 207 (12.3%) in the evening. The 85 percentile speeds dropped 3.8% from 39.25 MPH to 37.75 MPH. The speed limit is posted at 35 MPH.

According to the Police Department, the number of citations issued on 15th Ave NE south of NE 175 St has dropped. They report that the three lane configuration had a significant effect on the declining number of speeding violations they observed.

	2001	2002	2003	2004	2005	2006
Number of reported collisions - NE 150th St to NE 175th St	30	34	32	38	30	25
Number of reported injuries - NE 150th St to NE 175th St	13	35	20	17	16	14

Vehicle collisions between NE 145th St and NE 175th St decreased 3.1% between 1/1/2001 and 12/31/06. The severity drastically decreased, with the reported injuries dropping 30.9%. The decline in the number of collisions and injuries implies that the three lane configuration has been successful in reducing collision severity, in part by reducing overall speeds, providing refuge for turning vehicles, and improving sight distance for vehicles entering 15th Ave NE.

5th Ave NE

Overall, traffic volumes decreased 94 vehicles per day (1.4%) on 5th Ave NE between NE 145th St and NE 175th St. Peak hour volumes grew, 146 (33.8%) in the morning and decreased 64 (8.6%) in the evening. The 85 percentile speeds grew 1.4% from 35.5 MPH to 36.0 MPH. The speed limit is posted at 30 MPH.

10 Ave NE

Overall, traffic volumes grew 38 vehicles per day (2.1%) on 10th Ave NE between NE 155th St and NE 175th St. Peak hour volumes grew 16 (9.4%) in the morning and

decreased 16 (8.2%) in the evening. The 85 percentile speeds declined 8.2% from 34.8 MPH to 31.9 MPH. The speed limit is posted at 30 MPH.

25 Ave NE

Overall, traffic volumes declined 199 vehicles per day (4.7%) south of NE 150th St, and decreased 23 (0.6%) between NE 150th St and NE 177th St. South of NE 150th St, the peak hour volumes increased 36 (9.4%) in the morning, and declined 134 (29.6%) in the evening. North of NE 150th St, the peak hour volumes increased 43 (8.8%) in the morning, and declined 75 (17.7%) in the evening. The 85 percentile speeds north of NE 150th St declined 2.5% from 33.5 MPH to 32.7 MPH. The speed limit is posted at 30 MPH, with a 20MPH school zone north of NE 153rd St and south of NE 165th St.

NE 175 St

Overall, traffic volumes decreased 142 vehicles per day (1.0%) on NE 175th St between 5th Ave NE and 15th Ave NE. Peak hour volumes grew 9 (1.0%) in the morning and declined 128 (9.9%) in the evening. The 85 percentile speeds grew 0.7% from 38.5 MPH to 39.2 MPH. The speed limit is posted at 35 MPH.

ISSUES

Since the completion of the reconfiguration, residents have voiced a number of concerns. These include congestion on 15th Ave NE. Preliminary traffic modeling showed that there would be added delay to traffic on 15th Ave NE, and suggested that some commuter traffic would find other routes. According to field observations by staff and residents, it appears that congestion has increased on 15th Ave NE. Traffic count data shows a reduction in volume. In February, 2007, all the traffic signals on 15th Ave NE were optimized to improve traffic flow. Preliminary results show improvements in the peak hours, reducing the travel time from about 6 minutes to around 5.5 minutes between NE 155th St and NE Perkins Way.

Another concern was increased traffic on neighboring streets. While some streets have seen some increase in the total daily traffic, most of the streets south of NE 175th St experienced a decrease in the weekday traffic volumes. Traffic calming devices in the neighborhood have shown significant impacts. The traffic circle at 10th Ave NE and NE 170th St has reduced the 85% speeds 5.4 MPH (15.6%)

Residents have commented that speeding appears to be more of a problem. The comparison showed that 15th Ave NE has seen a decrease in the 85 percentile speeds over a 24 hour period, as shown in the attachments.

There have been complaints about drivers using the center turn lane as a passing lane. This problem developed in other cities making a similar change. It can be mitigated by building traffic islands periodically in the center turn lane. Construction of such islands should be a priority should the decision be made to retain the three lane configuration.

Questions have been raised on the effect on emergency vehicle response times. The center turn lane can actually help improve response time in congested areas by

providing space to pass stopped vehicles without having to move into oncoming traffic lanes.

There have been compliments on the new lane by bicycle users, who feel safer using the new bike lanes. Data collected the week of October 2, 2006, showed that the daily bicycle volumes range from 35 to 85 per day.

Some concerns were raised about transit stop locations. Working with King County Metro, stop placement was reviewed, and some were moved, and a couple eliminated, to improve traffic flow. Striping on the roadway was adjusted to help guide drivers around stopped buses.

Intersection visibility has improved on 15th Ave NE in that the bike lanes have moved the vehicular traffic 5 ft away from the curb. With a 4-lane design, the vehicles travel next to the curb.

Pedestrian safety has improved. Vehicles have been moved further away from the curb and sidewalk, providing for a more comfortable pedestrian environment. Also, the center lane can be used as a quasi-refuge by pedestrians crossing 15th Ave NE, as they wait for a gap in traffic. Lastly, the three-lane design greatly reduces the "multiple-threat" scenario for pedestrians crossing 15th Ave NE. The multiple-threat is one of the most problematic situations facing pedestrians crossing a multi-lane roadway.

FUNDING CONSIDERATIONS

Should the 3-lane configuration remain permanent, it is recommended that median islands be constructed. Two landscaped islands cost a total of about \$25,000 to build. If 15th Ave NE is changed back to 4 lanes, required capital costs would include removal of existing markings, restriping, signing, and signal modifications. King County has estimated this cost to be \$70,500. Other costs to consider would be an increased need for traffic signals to facilitate access across 15th Ave NE. A potential location for a traffic signal is at the intersection of NE 170th St. and 15th Ave. NE. A traffic signal at this location would need to include improvements on NE 170th St for pedestrian safety and traffic signal equipment and can cost as much as \$600,000. For the traffic signal installation at 15th NE and NE 170th Street, partial funding is available. The 2007 State Legislature has sent the state budget package to the Governor's Office for signature, which includes \$425,000.00 earmarked for the City of Shoreline, grant funds under the LEAP Transportation Document 2007- Pedestrian and Bicycle Safety Program. We would propose to supplement the grants funds with carry over CIP funds to complete this project. Additionally, a new traffic signal is already scheduled to be built at 15th Ave NE and NE 150th St this year.

CONCLUSION

The current operation of 15th Ave NE is meeting expectations. Vehicle volumes on 15th Ave NE have declined 7.8%, which is what was expected. More important, the data records show improvement to both vehicle and pedestrian safety. Some of the non-arterial roadways in the surrounding area have seen an increase in vehicles and

speeds. However, many roadways actually saw a decrease in volume. Neighborhood traffic calming projects continue to be implemented to manage vehicles on local streets

RECOMMENDATION

No council action is required or recommended. Staff will continue to work with local residents to manage traffic impacts on non-arterial streets and implement appropriate neighborhood traffic mitigation improvements.

CITY COUNCIL AGENDA ITEM
CITY OF SHORELINE, WASHINGTON

AGENDA TITLE:	Ordinance No. 470 Amending Appointments of Youth Members to the Parks Board; and Appointment of Six Regular Members to the Shoreline Parks, Recreation and Cultural Services Board
DEPARTMENT:	City Council
PRESENTED BY:	Mayor Robert Ransom and Councilmembers Rich Gustafson and Janet Way

EXECUTIVE / COUNCIL SUMMARY

The terms of five regular members and one alternate member of the Shoreline Parks, Recreation, and Cultural Services Board expired on March 31, 2007. A Council ad hoc committee composed of Mayor Ransom, Councilmember Gustafson, and Councilmember Way was appointed to review the applications and make a recommendation to the full City Council on position appointments.

Earlier this year, Ordinance No. 458 was passed by the City Council allowing members of the PRCS Board to fill three four-year terms, amending the old ordinance that only allowed members to serve two four-year terms. This was done to maintain continuity with the large number of parks projects under design as a result of the successful May 2006 bond issue. In addition to the term limit change, the alternate position on the Board was eliminated, and two youth positions were created. The Ordinance called for one youth term to be filled in 2007, and both youth terms to be filled in 2009.

The Council ad hoc committee interviewed all interested candidates and is recommending the following citizens be appointed to the PRCS Board:

Four-Year Adult Terms

Patty Hale	re-appointed to her third four-year term
Londa Jacques	re-appointed to her third four-year term
Kevin McAuliffe	appointed to his first four-year term (previously held Alternate position)
Shari Tracey	appointed to her first four-year term
Joe Neiford	appointed to his first four-year term

Two-Year Youth Terms

Olivia Jacobs	appointed to her first two-year term
Carl Saltzberg	appointed to his first two-year term

To make both youth appointments at this time will require a modification to Ordinance No. 458. Ordinance No. 470 will allow both youth terms to be filled in 2007, not one in 2007 and one in 2009 as stated in Ordinance No. 458.

RECOMMENDATION

Staff recommends that Council adopt Ordinance No. 470, amending appointments of youth members to the Parks Board, and appoint seven regular members to the Parks, Recreation and Cultural Services Board, as recommended by the Council's ad hoc committee. The adult regular member position terms will be four-year terms and both youth positions will be two-year terms.

Approved By: City Manager  City Attorney _____

Attachment C: Ordinance No. 470

ORIGINAL

ORDINANCE NO. 458

**AN ORDINANCE OF THE CITY OF SHORELINE, WASHINGTON,
AMENDING TERM LIMITS, REMOVING THE ALTERNATE MEMBER,
AND ADDING TWO YOUTH MEMBERS TO THE PARKS BOARD; AND
AMENDING SHORELINE MUNICIPAL CODE CHAPTER 2.55.**

WHEREAS, The City of Shoreline established term limits of two consecutive terms for appointees to the Parks Board when this advisory bodies was created; and

WHEREAS, the Council finds that the Council reappointment process for new terms protects the City's interest in diverse viewpoints and citizen opportunity to serve without arbitrarily sacrificing valuable experience and expertise with excessive limits on consecutive terms; and

WHEREAS, the youth of our community are primary users of parks, trails and recreational programs and their representation on the Parks Board should be encouraged and assured; now therefore

**THE CITY COUNCIL OF THE CITY OF SHORELINE, WASHINGTON, DO
ORDAIN AS FOLLOWS:**

Section 1. Amendment. Shoreline Municipal Code 2.55.020 is amended as follows:

~~Only persons who reside in the city of Shoreline, own property there, or are employed in Shoreline shall be eligible for membership on the parks, recreation and cultural services board. The board shall consist of nine eleven regular members, and one alternate member. The alternate member shall have all of the duties of regular members and fully participate in board meetings, except the alternate member may not vote on action items unless a regular member is absent. Only persons who reside, own property or are employed in the city of Shoreline shall be eligible for membership on the parks, recreation and cultural services board. Two members shall be between the ages of fifteen and nineteen at the beginning of their term in addition to meeting other eligibility requirements. Members shall serve without compensation but may be reimbursed for reasonable expenses pursuant to city ordinances and policies. The position of a member shall become vacant upon such member's ceasing to reside within, own property within, or be employed within the Shoreline city limits. The position of a member shall be forfeited and become vacant for failure to attend three regular consecutive meetings of the board, unless such absence is excused by a majority of the board. Vacancies occurring other than through the expiration of terms shall be filled for the unexpired terms in the same manner as for appointments as provided in this chapter.~~

~~Regular Members shall serve four-year terms; provided however, that youth appointed to the two age-restricted positions shall serve two-year terms. ; the alternate member shall serve a two-year term. Regular No members shall serve no more than three consecutive four-year terms, and youth members shall be limited to two consecutive two year terms. To allow for the staggering of terms for the initial parks, recreation and~~

ORIGINAL

~~cultural services board and appointment or re-appointment as appropriate, the initial terms for regular members shall be as follows: four members for terms of two years and five members for terms of four years. Terms shall expire the thirty-first day of March. No board member shall serve more than 10 consecutive years.~~

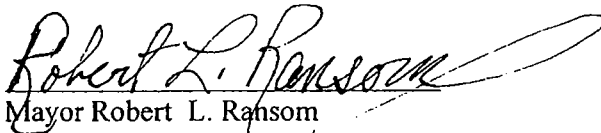

Section 2. Implementation. The amendments of Section 1 of this ordinance changing the limits on consecutive terms shall take effect with the effective date of this ordinance. The amendments of Section 1 changing the membership of the board shall be implemented as follows:

a. The removal of the alternate member from board membership shall take effect at the expiration of the two-year term of the current alternate member.

b. One of the two additional positions to the board to be filled by members satisfying youth qualifications shall be added on April 1, 2007; the second shall be added on April 1, 2009.

Section 3. Publication , Effective Date. A summary of this ordinance consisting of its title shall be published in the official newspaper of the City. This ordinance shall take effect and be in full force five days after passage and publication.

PASSED BY THE CITY COUNCIL ON FEBRUARY 12, 2007.

Mayor Robert L. Ransom

First Aid & CPR certified.

What is your occupational background, beginning with your current occupation and employer?

Sept. 2000 to current: Substitute Teacher K-12 any subject - Shoreline School District.
Feb - June 2000: Contracted 9th grade PE Teacher, Shorewood HS - Shoreline School Dist.
1986-2000: Homemaker and Community Volunteer - Shoreline, WA
Sales Associate & Tailor: Kuppenheimer Men's Clothier - Seattle, WA
Regional Manager: Black Tie Formal Wear - Seattle, WA
PE & Home EC Teacher: Cheney Middle School - Cheney, WA
Pool Manager: Prescott School District - Prescott, WA
Sales: Sporleader's Men's Wear - Walla Walla, WA (Sporleader's had been in business 35
years when I become their first female sales clerk.)

List the addresses and type of property (residential or commercial) you own in Shoreline:

Residence at 16528 8th Ave. NE, Shoreline, WA 98155

COMMUNITY SERVICE APPLICATION

For membership on the Parks, Recreation and Cultural Services Board

Are you an official representative of a homeowner's association or other group? If so, please list the group.

Ridgecrest Neighborhood Association: Current Secretary, past Chair, Co-Chair & Vice-Chair.
Ridgecrest Neighborhood Association Board of Directors: 1996 to present.
Shoreline Council of Neighborhoods: Neighborhood Representative 1996 to present.
Shoreline Council of Neighborhoods: Current Chair, past Vice-Chair & Secretary.
Shoreline Parks, Recreation and Cultural Services Board: Current Vice-Chair 1995 to present.
Northcrest Block Watch: Captain 1990 to present.

Describe your involvement in the Shoreline Community.

I have lived in Shoreline at my present address since 1982. In 1990 I started a Block Watch in my neighborhood due to escalating drug trafficking and gang activity. Northcrest Park abuts my property. During that time it was seeing the effects of crime and Park services had deteriorated. When I found a mutilated cat hanging from a tree in the park, I decided I personally had to do something. I arranged a meeting in my home with then King County Councilman Larry Phillips, King County Police Major Jackson Beard, King County Parks Director Craig Larson and Shoreline Park District Maintenance Manager Bill Majorki. As a result of that meeting Police patrol in the neighborhood was increased, King County Council found funding to do some much needed maintenance in Northcrest Park - including the installation of Playground Equipment. I formed a Block Watch whose new members not only paid for the installation of 7 street lights, but also adopted the park. When I got involved for the first time, I jumped in with both feet. And since 1990 I have continued to stay involved and have tried to make a positive difference in my community. My current and past involvement includes:

1990 - current Maintenance of West entry of Northcrest Park
1995 - current Shoreline Police Department volunteer
1998 - current Organizer for the Ridgecrest/North City Neighborhood Ice Cream Social
2005 Shoreline Star
1998 - 2004 Softball Statistician Kellogg and Shorecrest Girls Softball Teams
1993 - 2004 Co-Leader Campfire
1991 - 2004 Ridgecrest, Kellogg & Shorecrest HS PTA member
1994 - 2004 Washington State Wildlife, Fish & Game Backyard Winter Bird Counts
2003 Shorelake Soccer U-19 Girls Soccer Team Manager
2003 Shoreline Parade Grand Marshall
1998 - 2002 Team Mom NSA Girls Fastpitch Softball - Shoreline Rage
1997 Shoreline Arts Council volunteer
1995 - 1998 North King County Little League Girls Softball Team volunteer
1991 - 1996 Ridgecrest Elementary School classroom volunteer
1996 Citizen Instructor for Community Oriented Policing - King County Police
1995 Ridgecrest Elementary School Golden Acorn Recipient
1991 - 1995 Parks Commissioner, Shoreline Parks District, King County

COMMUNITY SERVICE APPLICATION

For membership on the Parks, Recreation and Cultural Services Board

1994 - 1995 Representative for the Shoreline Park District for a King County Park Bound Measure

Have you ever served on a committee? If so, describe your experience.

I served as the Chair for the Transition Team for Parks when Shoreline Incorporated. I spent many hours researching the current physical and fiscal state of the King County Parks, Services and Recreation programs in the new City of Shoreline. I did in-person and phone interviews, arranged guest speakers, set agendas, made presentations to the City Council Parks Subcommittee, ran Public and Committee meetings and assigned duties to other committee members. I created a presentation notebook with cost analysis and recommendations. My work, in conjunction with others who served on the Parks Transition Team, helped to set the tone for what Shoreline Parks, Recreation and Cultural Services is today.

I have also served on the following committees:

Ridgecrest Neighborhood Traffic Action Committee

Shoreline Parks Bond Committee

Celebrate Shoreline Planning Committee

Richmond Beach Trail Mediation Committee

Citizen Involvement & Communications Project Committee

Fircrest CPAC Committee

Ridgecrest PTA Safety Committee

Describe why you are interested in serving in this position.

I believe in service to my community. I have been involved with the development of the projects that have been promised to the citizens of Shoreline through the passage of the 2006 Parks Bond. I would like to continue to serve those citizens by seeing to it that those projects are completed. Remaining on the Board would give me the opportunity to continue serving the public in an area in which I am educated. My past experience and dedication to Parks give me a strong foundation on which to continue serving on the Board. I feel I add value to the Board with my ability to make sound decisions and to fairly interpret the needs of the citizens of Shoreline.

Describe any special expertise you have which is applicable for this committee.

I have been K-12 PE Substitute Teacher in the Shoreline School District over the past 6 and 1/2 years. This has given me the unique opportunity to work with almost every child in our Public Schools. The chance to connect with thousands of children by teaching them about sports, game play, health, fitness and sportsmanship through physical activity is very special to me. It has also been an opportunity to speak to and learn from Physical Education teachers from all around the State. What a great insight I have gained about the needs of the children and facilities in Shoreline. Along with my degree in Physical Education and Recreation, I offer

- **City of Seattle P-Patch Advisory Council; P-Patch Site Manager**

Describe why you are interested in serving in this position.

- I firmly believe that our parks and recreational facilities and programs should be as diverse in amenities and offerings as possible to meet the needs of our citizens and create opportunities for folks to form community connections.
- Exploring every possible opportunity to integrate and expand the uses of our parks and recreational facilities to incorporate cultural activities is important to me.
- As an organic gardener, I'm interested in rejuvenating those well-worn and over-loved areas within our parks system with hardy native plant species, and eco-friendly maintenance techniques.
- Through PRCS, I've developed a keen interest in the benefits urban forest management and sustained growth, and in pursuing for Shoreline parks, the best environmental solutions to sustain our parks for future generations.
- I'm concerned that our parks system is able to stay ahead of the curve to meet the needs of urban density growth in our community. I'm especially interested in the development of pocket parks, and sidewalks to parks, so that children and adults living in condominiums and apartments have safe, ready access to healthy, green outdoor environments. For example, I envision that P-Patches will be a need of our future (Brugger's Bog Park adjacent to several large apartment complexes could be an excellent potential location for a future pilot program).
- I've recently learned that Shoreline has one of the highest populations of people living in adult family homes and other disabled care facilities in our region. Are we adequately addressing access to parks for these folks?

Describe any special expertise you have which is applicable for this committee.

The perspectives and strengths I'm able to offer the Shoreline PRCS Advisory Board are both unique and well-balanced:

- I was actively involved in local soccer and softball programs on City of Shoreline fields from 1993-2004. I'm familiar with many of the parks, fields and amenities within the City, having at times, spending several days a week in Shoreline Parks between the months of March and July.
- While serving as president of North King County Little League I became familiar with the issues, wishes, and concerns of parents and children who use our parks as well as the importance of developing strong relationships between Shoreline Parks and youth volunteer sports programs. Of vital importance to me are issues involving park safety, and have been privileged to work closely with Parks staff to help facilitate safety improvements such as field and equipment maintenance, playground safety, lighting, speed limits within parks, etc.—that have benefited a multitude of parks users.
- I'm one of a few Board members over the course of the past eight years who has been able to take advantage of several continuing education opportunities

offered to PRCS board members that are geared for parks staff on gardening, tree selection, planting, and pruning, and soil erosion technology, etc. These have increased my awareness and understanding of issues facing public parks planners and staff.

- As a representative of Ballinger Neighborhood Association and the Council of Neighborhoods, I'm attuned to City issues and events, and most-importantly, in direct communication with folks who often share their hopes and concerns for improving our City and its amenities.
- My fifteen year background in commercial construction has provided me with a excellent understanding of owner-developer-contractor relationships with regard to all phases of construction and contracts, including RFPs and RFQs, lump sum and negotiated bid processes, cost estimating and scheduling; Best Management practices for stormwater management and wetlands mitigation; and LEED criteria, and sustainable construction practices.
- As a dog owner, and a parks user, I know that dogs can be delightful; and unleashed, a danger to park users and staff alike. I served on the first Dogs Offleash subcommittee and would like to continue to be involved with pursuing a workable solution in Shoreline to this ever-growing problem.
- As an artist, I have an understanding of the arts and bring an artist's perspective to the Board. I've recently volunteered for and am looking forward to serving on the Arts Jury for the upcoming Echo Lake art project.

Appointment to this committee requires consistent attendance at regularly scheduled meetings.

Are you available for evening meetings? YES

COMMUNITY SERVICE APPLICATION

For membership on the Parks, Recreation and Cultural Services Board

Name: Shari Tracey

Are you a Shoreline resident or property owner? Yes

Length of residence: 15 years

Neighborhood: Echo Lake

Do you have school age children? (optional) Yes - 17 yr old stepdaughter

What is your educational background? High School Graduate, Current Student at Shoreline Community College.

What is your occupational background, beginning with your current occupation and

employer? Office Operations Director for King Co. Councilmember Bob Ferguson; Legal Assistant at Davis Wright Tremaine (1986-2007)

List the addresses and type of property (residential or commercial) you own in Shoreline:

Residential home: 19514 Burke Ave. N., Shoreline

Are you an official representative of a homeowner's association or other group? If so, please list the group.

No.

Describe your involvement in the Shoreline Community. In 2006, I co-chaired the Citizens for Shoreline Parks bond campaign, which passed with a Supermajority. Prior to that I served on the Bond Advisory Committee. I was a Board member for Richmond Little League from 2002-2005. I currently serve on the ABC team, which is assisting the city on environmental scoping for the Aurora Corridor. I am a founding Board member of ShoreDog, a group that will work with the city once a location is found for the off-leash dog park. I also serve on the Committee for Youth Justice Partnership (first time misdemeanor offenders).

Have you ever served on a committee? If so, describe your experience.

Yes, many times. Please see above.

Describe why you are interested in serving in this position.

PRCS is one of the services that makes Shoreline such a great place to live. I have always been interested in these types of activities, and after co-chairing the bond campaign, I have a special connection to the current and future projects. I also have a strong desire to serve and stay connected with my city and its citizens.

Describe any special expertise you have which is applicable for this committee.

I love parks, recreation, and feel cultural services are very important to keep Shoreline on the "Best City" list.

I have a land use and environmental background from my work as a legal assistant.

My work as Co-Chair of the Parks Board Committee gives me special knowledge and understanding of parks projects.

Appointment to this committee requires consistent attendance at regularly scheduled meetings.

Are you available for evening meetings?

Yes
