Asset-Based Community Development has helped change neighborhoods throughout the country. Learn how each neighborhood has unique assets that it can build upon - from people with good contacts or useful talents to supportive businesses or churches - to make projects happen. With nationally-known trainer and organizer Jim Diers, participants will learn new tools, sharpen organizing skills and work together to identify a vision and projects to carry out in their Shoreline neighborhood.

RSVP Required to Neighborhoods
Coordinator Nora Smith at
nsmith@ci.shoreline.wa.us or
(206) 546-8564.

Sponsored by the City of Shoreline and Imagine NW!
