

WEEK IN REVIEW

Shoreline Kenmore

PATROL
CID
ADMINISTRATION

Chief's Message

Happy Friday, everyone! This week has been an excellent start to the New Year for us. I am so pleased to welcome Cpt. Tim Meyer back to our precinct and very excited to be partnering with him once again.

Cpt. Meyer and I met with the Executive Directive of Lake City Partners, William Towey, earlier this week. William had nothing but praise for Shoreline PD interactions with his program and staff. We are both excited at the prospect of the outreach to soon extend to Kenmore as well as Shoreline.

Det. Kieland and I had the pleasure of speaking with a senior Civics class from Shorewood Highschool on Wednesday as they toured city hall, met Mayor Scully, and had some exceptional questions for us regarding policing in Shoreline. This

was a great step in the right direction for us to rebuild our relationship with Shoreline Public Schools!

Please join me in welcoming, Dep. Rafael Weiss-Brandt to Shoreline! He will be joining us for the last segment of his training, and we are very excited he is joining the team. Some of you may have already had the pleasure, but please stop by and welcome him when you see him.

Please keep your good vibes going for MPO Coblantz. We are all wishing you a swift recovery, Cary.

Chief Kelly Park

Ghost Guns in the A5

We want to recognize the exceptional work our deputies and CID detectives performed on Tuesday following a report of people, per CAD, *'talking and showing each other handguns'* in the A5. Two suspects were quickly detained in possession loaded ghost-guns and extended magazines. On Thursday, a warrant was served on an SUV yielding a rifle and additional magazines.

Detective Soderstrom shared this summary:

—

'All three of these are ghost guns were loaded and without any serial numbers or markings. The three weapons have been test fired and function properly. Felony charges of Unlawful Possession of a Firearm are being filed with King County Superior Court Juvenile Division. The juvenile suspect is currently in custody.'

—

This is the work that keeps communities safe. Excellent job by all!

Possibly Paperless Parking Tickets?

This week we learned there is *possibly* a path for Shoreline and Kenmore PD to move towards paperless parking tickets. For those who remember using a paper cutter and Scotch tape to attach the narratives, this should be welcome news.

There is more work ahead with our respective cities and the King County court, but the hope is by April (or so) we can migrate to SECTOR and finally retire carbon paper and ticket books.

Very Good News on TruNarc

Sgt. Fitchett and others have done outstanding work advancing TruNarc as a safe, effective and necessary tool to help Precinct-5 safely test suspected narcotics. The KCPAO, based on email this week, appears to agree noting that TruNarc, *'would allow [them] to rush file cases without waiting for a test from the crime lab.'*

Having prosecutors on-board, as we know, is an important and necessary milestone. This week's development validates the vision and effort of those who've championed TruNarc. Chief Park will be reviewing budgets and available drug funds this week so we can take next-steps to get this technology in-hand. This great news to start 2023!

Best Wishes!

We wish Han and her husband all the best as they prepare for next week's birth of their daughter. We look forward to sharing more good news in the days ahead -

Enjoy a safe and restful weekend...Go Hawks!
