

AQUATIC THERAPY

Aquatic Therapy is a much sought after therapy –for people with a variety of conditions:

- * Multiple Sclerosis
- * Arthritis
- * Chronic pain
- * Injured workers
- * Motor Vehicle Accidents/Whiplash
- * Sports Injuries
- * Spinal Cord Injuries
- * Geriatrics
- * Developmental Disabilities
- * Autism
- * Bariatric therapy
- * Warm water swimming lessons for children and people fearful of water

Occupational Therapists, Physical Therapists and Healthcare/Therapy Clinics will be able to use this pool and bill insurance companies for treatments as prescribed by the healthcare provider.

**Fircrest Aquatic and Therapy Center
Shoreline, WA 98155**

The two pools are also enhanced by the large and accommodating dressing rooms— built for ADA accessibility— wheelchairs and rolling beds can be easily accommodated with privacy areas for changing and showering.

In addition to the two pools, one of which was heated to 97 degrees Fahrenheit, the building offers a gym, stage, meeting rooms, kitchen, office space and a workout room which could be used for sensory integration or fitness classes.

One of the workout rooms

Fircrest Aquatic and Therapy Center is easily accessible from bus, car, bike and walking
15500 15th Ave NE—Shoreline, WA 98155
