The Giving Garden at Twin Ponds Community Garden has been recognized by "Lettuce Link" as one of the top contributors to local food banks in the whole Seattle area. Lettuce Link is a non-profit component of *Solid Ground* whose mission is to "Build community to end poverty." On average each year, Lettuce Link programs get more than **20,000 pounds** of fresh vegetables onto the tables of people who need them in the Seattle area. The Giving Garden ranked 4th out of 15 Seattle area P-Patches in pounds of fresh produce donated in 2014. Over 3,000 pounds of fresh, organic produce were donated to Hopelink Shoreline from Twin Ponds Community Garden last year!
