Re: Painting Foy Standpipe

Dear Peter,

This letter is a follow up to a request from Shoreline City Manager Debbie Tarry on the status of the Foy Standpipe, in particular the Shoreline City Council's desire to see it painted soon. Seattle Public Utilities (SPU) shares the Shoreline's desire to paint the standpipe. We both hear complaints from local citizens about its current appearance.

Our goal is to paint the Foy Standpipe before fall 2015 and we have begun the planning process. There is a small possibility that our planning, bidding and contracting work may not be completed in time for a summer painting. If that occurs, we might not be able to get the tank re-painted until summer 2016 due to weather limitations. I want to assure Shoreline that SPU is committed to painting the Foy Standpipe no later than summer 2016. Alex Chen, our Water Line of Business Division Director for Water Planning and Program Management, will keep Dan Repp posted on the status and timing.

Please let me know if you have questions or concerns about the Foy Standpipe painting. We appreciate your patience as we work through the contracting.

Thank you,

Rick Scott
Water Line of Business Deputy Director
