## All Sales Tax Sectors：

When analyzing monthly sales tax receipts，there are two items of special note：First，most businesses remit their sales tax collections to the Washington State Department of Revenue （DOR）on a monthly basis．Small businesses only have to remit their sales tax collections either quarterly or annually，which can create anomalies when comparing the same month between two years．Second，for those businesses which remit sales tax monthly，there is a two month lag from the time that sales tax is collected to the time it is distributed to the City．

Total sales tax receipts through the month of November 2015，which reflects activity from December 2014 through September 2015，are higher than the budget projection by 6．3\％，the revised projection by $3.0 \%$ ，and the year－ago level by $3.6 \%$ ．Removing one－time construction activity from the calculation reveals total receipts are higher than the budget projection by $6.0 \%$ ， revised projection by $2.8 \%$（See Table S－3），and the year－ago level by 5．5\％．

Staff＇s review of the detailed categories in Table S－4 revealed that some businesses were miscoding their tax returns．Staff worked with the DOR to investigate and correct this issue； however，due to the limitation on how many prior months can be recaptured，the Miscellaneous Store Retailers category will appear to be lower than the year－ago level．

## Retail Trade Sector:

Receipts from activity for December 2014 through September 2015 are higher than the budget projection by $3.9 \%$, revised projection by 0.8\% (See Table S-3), and year-ago level by 7.3\% (See Tables S-2 and S-4). In August, staff contacted the DOR to investigate the possible miscoding of some tax returns since September 2014. Staff worked with the DOR to investigate and correct this issue; however, due to the limitation on how many prior months can be recaptured, the Miscellaneous Store Retailers category will appear to be lower than the yearago level (See Table S-4).

| :--- | ---: | ---: | ---: | ---: | ---: | :---: | :---: |
| Category |  |  |  |  |  |  |  |

There continues to be significant growth in receipts from new car dealers (in the Motor Vehicle and Parts Dealer category) since 2011. Receipts for the month of September were higher than those for the same period of 2014, 2013, 2012 and 2011 by $24.4 \%, 24.7 \%, 32.5 \%$, and $81.5 \%$, respectively (See Chart S-3).

## Construction Sector:

Receipts from activity for December 2014 through August 2015 of $\$ 874,516$ are 5.6\% lower than the year-ago level of $\$ 926,527$ (See Table S-2 and Chart S-4). Of the amount collected so far this year, $\$ 17,286$, or $2.0 \%$, is attributable to one-time activity. Of the amount collected for the same period of $2014, \$ 125,180$, or $13.5 \%$, was attributable to one-time activity. Removing one-time activity from the calculation reveals receipts are higher than the budget projection by $16.0 \%$, revised projection by $12.6 \%$ (See Table S-3), and the year-ago level by $7.0 \%$ (See Chart S-5). Large one-time projects generated less sales tax this year than they did in prior years. These year-over-year changes reflect an increased level of ongoing construction activity within the City.

Third Quarter Gambling Activity:
Activity reported for the third quarter of 2015 as compared to the previous quarter is lower for pull-tabs ( $-1.9 \%$ ) and card rooms ( $-6.3 \%$ ). Compared to the year-ago level, activity for pull-tabs and card rooms is lower by $9.5 \%$ and $2.0 \%$, respectively. All activity ceased at Drift on Inn early in the third quarter of 2013, which contributed to additional loss of revenue; however, pull-tab activity fully returned in the second quarter of 2014.

Chart G-1 exhibits the last seven years of first and second quarter gross receipts reported by card rooms operating in Shoreline.

## Third Quarter Gambling Tax Revenue:

Taxes paid on third quarter activity as compared to the previous quarter lower for pull-tabs (-1.6\%) and card rooms (-6.3\%). Compared to the year-ago level, taxes paid for pull-tabs and card rooms are lower by $10.8 \%$ and $2.0 \%$, respectively. Overall, tax receipts are lower than the previous quarter $(-6.0 \%)$ and the year-ago level ( $-2.7 \%$ ).

## First through Third Quarter Gambling Revenue:

Total receipts, inclusive of taxes on gambling activity for the first through third quarters and payments on promissory notes, in the amount of $\$ 1,183,176$, are lower than 2014 collections by $\$ 78,603$, or $6.2 \%$. The bulk of the year-over-year decrease is attributable to one-time revenue resulting from promissory note payments made in 2014 totaling \$93,782. Receipts attributable to taxes on gambling activity, in the amount of $\$ 1,179,089$ are slightly higher $0.9 \%$ ) than the year-ago level.

Charts R－3a and R－3b are histograms exhibiting the number of single－family residences that sold in 2015 in each of the various price ranges．The majority（ $70.7 \%$ ）of the homes sold through November were priced from $\$ 200,000$ to $\$ 499,999$ with $32.3 \%$ priced from $\$ 300,000$ to $\$ 399,999$ and $26.1 \%$ priced from $\$ 400,000$ to $\$ 499,999$ ．The average transaction value year－to－
date, excluding sales with a transaction value greater than $\$ 1$ million, was $11.9 \%$ higher in 2015 than 2014 at $\$ 431,249$ and $\$ 385,426$, respectively.

Table R-4 below exhibits the number and value of all residential and commercial transactions greater than $\$ 1.0$ million. In November 2015 there were four SFR transactions ( $\$ 5.8$ million) and one commercial transaction ( $\$ 7.2$ million). Year-to-date through November 2015, there have been 32 SFRs sold for more than $\$ 1.0$ million, which accounts for $\$ 48.8$ million, or $41.9 \%$, of the total and 14 commercial properties, which accounts for $\$ 67.6$ million, or $58.1 \%$ of the total.
