!!!!CALL TO ACTION!!!!

Call call call.

The Deputy Mayor called the police despite us specifically requesting police not be there.

The assistant city manager Brian LIED TO MY FACE and told me someone from the bike brigade called.

The bike brigade DOES NOT work with police.

I went to tell the cops to leave and found them harassing one of our supporters and telling him HE WAS WRONG while the extremist who assaulted multiple people was standing right in front of them. Cop lied and said "you people called us" and I called his lying ass out. He wanted to argue until someone who filmed the entire encounter said "I have him on film saying that the City called 911". He shut his ass up FAST.

I laid into the Deputy Mayor afterwards because WE were not relying on the city or anyone else but us to protect our kids and I had 3 different security teams out there yet no one from the city inquired about our security and instead called the police. The police were directly in our kids line of sight while they were ignoring the extremist who had assaulted people. I demanded accountability for the bullshit statement that the City put out, demanded an answer to the police chief's claim that he knows nothing about racial incidents and hate crimes in his own city. I said that's unacceptable and it's also unacceptable that Officer Jeremy Muir is still employed by the city. I told him to thoroughly examine not just the police but more specifically the purposefully negligent gatekeepers to the police, dispatchers. They are purposeful insulation for police; if they hang up on people reporting crimes then of course there will be no response and no report.

I made it very clear that it was time for the City of Shoreline to PICK A SIDE. People who only respect uniforms and elected authority take the vague response of neutrality from the City of Shoreline as license to continue to be racist and to be silent in the face of racism.

Neutrality is no longer an option.
