Hi Pollie,

Thanks for the reminder about John's questions. Please find my response below ☐

The event time is 9am – noon, Saturday November 13th @ 4 city parks (Richmond Beach Saltwater, Paramount Open Space, North City and Twin Ponds). RBSW would be my priority of council representation, but totally fine with any member attending any event.

Council attendees would be more than welcome to participate in the day's activities and we would certainly appreciate a Council member providing a speaking part as an introduction and to promote the City's greater restoration efforts. Forterra (our volunteer coordinator) has some language prepared that they have provided other representees at other Green Cities events. Also happy for any speakers to come up with their own language after becoming familiar with the program and event, I would love to see a rousing Churchillian speech that gets the folks enthused about restoration!

Thanks for all the support getting this collaborated!

Kind regards,

Joseph

Hi Joseph-

Just following up to John's questions- can you provide a bit more specifics? What time would you want Council members to attend? For how long? Will there be a speaking part and/or program?

Debbie and John will be meeting with the Mayor and Deputy Mayor at 5:45pm tonight so I am finalizing the agenda.

Also, you are welcome to send these emails to me directly for an invites to council, and I'll channel them through Debbie and John and the Council as needed. Just fyi-

Pollie McCloskey (she/her)

Joseph,

Thanks for your email and sorry for the tardy response. I got a little swamped with all things computer network the last couple of days! We can definitely extend this invite to the City Council. I have included Pollie McCloskie in my office who can coordinate with Councilmember on this. Are you envisioning any speaking parts for anyone? A Welcome to any of the volunteers? If so, that would be good to know.

Pollie, can you work on this and include in Monday's Mayor/Deputy Mayor meeting agenda? Thanks!

John

Subject: Council representatives @ Green Shoreline and Arbor Day

Good afternoon John,

This year I have the privilege of coordinating 2 awesome events that seek to raise environmental awareness, Green Shoreline Day and Arbor Day, and I'm reaching out today to invite representation from City Council.

The celebrations for both events will be held congruently across 4 separate City parks on Saturday November 13th, and will be attended by members of the public who sign up for the day through our volunteer coordinator, Forterra. City staff will be on site to setup and break down the 4 hour event, and to support our dedicated forest stewards, who will perform demonstrations of the day's activities; native plant installation and non-endemic species removal.

My predecessor, Tony Hamilton, informs me that both these events, Green Shoreline (first celebrated in 2019) and Arbor Day (first celebrated in 2012), have a good history of attendance from City Council. Both events, however, have not until now been held simultaneously but considering the overlap of their values and activities I feel this may be a fruitful convergence moving forward.

Can you please extend this invitation to those in the City Manager's Office and City Council whom you feel may be interesting in attending at an official capacity?

Kind regards,

Joseph Callaghan | Urban Forester
