

## WEEK IN REVIEW

PATROL CID ADMINISTRATION

Kelly Park, Chief

---

## Chief's Message

I am very excited to share that after two years of working in excellent partnership with our Superintendent, Dr. Reyes, and her team, the schools have agreed to allow us to share the CRASE (Civilian Response to Active shooter Events) course with their safety teams, administration, and deans! A THANK YOU in advance to Det. Paula Kieland, MPO and Acting Sergeant Robert Knight, and Det. Coulson Young for helping me with scheduling these courses. This is an excellent step in the right direction of partnership between us and our public schools.

June 15<sup>th</sup> will mark the second annual Pride celebration in Shoreline at our Farmer's Market. I am in initial prep and safety talks with the city and will be seeking volunteers as June approaches for various roles of support for those willing.

Det. Paula Kieland and I presented to second graders at Evergreen School today (Thursday) on safety and calling 911. We had a fun time and so much engagement that we were not even able to answer all of their wonderful questions before handing our time off to the next city presenter.

This week has marked some exceptional work from everyone followed by multiple thanks from units we assisted and commendations from the people in both Kenmore and Shoreline. Thank you for giving this honorable profession everything you have got every single shift every single day!

# Incredible Work by CIU + SET

I want to echo Chief Park's words and highlight only a sliver of the recent work performed by our investigations.

Detective Monserud's efforts in a March fraud case recovered a significant, six-figure sum for a vulnerable community member. Next, he took lead on an unrelated ERPO that drew praise from downtown prosecutors. His colleagues have been equally effective in solving property crimes (*anyone know who owns this gargoyle?*), filing recent felony assault case and so many others. SET's Wednesday night warrant only affirms this trend.

It is too easy to lose sight once a case is sent to our prosecutors. We want to recognize and thank each and every one of our detectives for their incredible skill and service to Shoreline.

- Captain Tim Meyer

# 'Choose Your Ride'

Under the creative eye of CSO Corona, I believe Shoreline's social media is among the most creative, contemporary and professional of any agency in our region. For those not on Facebook or Twitter, I want to share today's impaired driving post with thanks to Adam and Deputy Hunt for their participation. This, like so much of Dahlia's work, is connecting with our community and trending very well.
