Dear Sheriff Cole-Tindall,

As Chair of the Contract Cities Oversight Committee, I am reaching out with a formal request that the King County Sheriff's Office and the Contract Cities revisit our Interlocal Agreement. To be clear, we unanimously feel that the services provided by the King County Sheriff's Office have been exemplary; however, the contract has not been amended in over twenty years, and there are several provisions in the agreement that are either obsolete or not followed.

Last year, the Contract Cities retained the services of The Harrison Group to review the ILA, and they provided several recommendations that we think would improve the ILA. We would, of course, be more than happy to provide a copy. This work has given us the firm conviction that it is time to jointly review and update the ILA, and we ask that you advise us of the earliest time that this process can commence.

Thank you for your consideration of this request. We strongly believe that this task needs to be taken on in a timely manner. Please feel free to contact me if you have any questions.

Respectfully,

Bristol S. Ellington  
City Manager
