

Spotlight: Second Use

Second Use has established and is operating a reusable materials drop-off center outside the Shoreline Transfer Station – encouraging customers to donate salvageable materials and reduce waste that would otherwise go to Cedar Hills Regional Landfill.

- Expected annual diversion of 325 tons/ est. 1,350 ton in 5 years
- Materials sold at Second Use locations at a significantly reduced price compared to new retail costs
- Proof of concept for replicable model that could be expanded to other transfer stations
- Building a model for transfer stations as reuse hubs
