

Go Figure! A Class on Financing Your Business

“Set your sights on building a sustainable business!”

**With Felix Ngoussou MBA of Community Capital Development
Friday, April 18, 2008
Morning Session, 8:30am -10:30am**

**Shoreline Community College ~ Lake Forest Park Extension
17171 Bothell Way NE, Suite A220, Room #3 • Lake Forest Park, WA 98155**

Ever wonder just what investors are looking for when they pour over all those numbers in your financial statements?

Here are some of the key questions covered in the class:

- Why do I need to understand my financials?
- Why are financial projections so important?
- What are typical loan uses for funding start-ups?
- What should I do if my business is strapped for cash? (Crunching the cash crunch)
- How do I get myself paid?
- How do I manage my company’s debt?

You will be taking away a great list of resources that can help you with financials, managing and financing your business.

Felix Ngoussou MBA, has worked in both the private and public sector as a business consultant for George S. May Int’l, Ernest and Young, and CCD. Felix will have you figuring in no time at all.
