## I. FINANCIAL PLANNING POLICY

The City shall develop and maintain a 6 -year financial forecast that estimates resource and expenditure behavior for the five years beyond the current budget period. This forecast will provide the City's decision makers with an indication of the long-term fiscal impact of current policy and budget decisions. This planning tool must recognize the effects of economic cycles on the demand for services and the City's resources. To this end, the forecast should differentiate between revenue associated with one-time economic activities and revenues derived as a result of base economic growth. City financial planning should ensure the delivery of needed services (many of which become more critical during economic downturns) by assuring adequate reliance on ongoing resources in order to support continued City services during economic downturns.

## II. GENERAL BUDGET POLICIES

These general budget policies are the basis on which staff develops budget recommendations and establishes funding priorities within the limited revenues the City has available to provide municipal services.
A. No Operating Deficit: Current revenues will be sufficient to support current expenditures. Revenue estimates will be realistic and debt financing will not be used for current operating expenses.
B. Resources Greater than Budget Estimates: Resources (fund balance) greater than budget estimates in any fund shall be considered "one-time" resources and shall not be used to fund ongoing service delivery programs.
C. Budget Adoption Level: Budget adoption by the City Council shall be at fund level. Any changes in appropriations at fund level require City Council approval.
D. Necessary to Implement City Council Goals Identified in Workplan: The City Council identifies specific goals as part of its work-plan, and departmental budgets should include adequate resources to accomplish those goals in the expected timeframes.
E. Public Safety Protection: Public safety is a top priority, and as such, unmet needs in this area should have a priority over other service areas.
F. Degradation of Current Service Levels: When increased service demands are experienced over a sustained period of time, resources should be provided to prevent service level degradation below an acceptable level.
G. Investments that are Primarily Funded by Additional Fees or Grants: Programs and investments that are funded through a dedicated revenue source (i.e., non-tax revenue), that meet the goals of the City Council, will receive priority consideration.
H. Investments that Delay Future Cost Increases: When practical, resources should be allocated for selective preventative investments that can be made to avoid even larger costs in the future.
I. Investments that Forestall Adding Permanent Staff: Recognizing that personnel related expenditures represent the largest portion of the City's budget, methods to increase efficiency and effectiveness of the delivery of City services through technology improvements should receive priority funding if it can forestall the addition of permanent staff.
J. Commitments that can Reasonably be Maintained over the Long-Term: Funding for new programs and services in operating funds should be limited to the extent that they can be reasonably funded over the near-to-long-term given the current revenue stream.
K. Overhead and Full Cost Allocation: Department budgets should be prepared in a manner to reflect the full cost of providing services.
L. Maintenance of Quality Service Programs: The City of Shoreline will offer quality service programs. If expenditure reductions are necessary as a result of changing economic status, selective service elimination is preferable to poor or marginal quality programs that are caused by across the board cuts.
M. Distinguished Budget Presentation: The City will seek to comply with the suggested criteria of the Government Finance Officers Association in producing a budget document that meets the Distinguished Budget Presentation program criteria as policy document, as an operations guide, as a financial plan, and as a communication device.

## III. FORMULATION AND APPROVAL OF BUDGETS

In accordance with RCW 35A.33, departments shall be requested by the Finance Director to prepare detailed estimates of revenues and expenditures for the next fiscal year by no later than the second Monday of September. Responses will be due by no later than the fourth Monday in September, and by no later than the first business day in October, the Finance Director will present to the City Manager a proposed preliminary budget setting forth the complete financial program, showing expenditures requested by each department and sources of revenue by which each program is proposed to be financed.

Although the schedule outlined above meets the requirements of the Revised Code of Washington, the Shoreline budget process usually follows an accelerated time schedule. The Finance Director typically requests departments to prepare their detailed estimates of revenues and expenditures for the next fiscal year in July, with those responses due in August.

By no later than the first Monday in October, the City Manager will provide the City Council with current information on estimates of revenues from all sources as adopted in the budget for the current year. The City complies with this requirement by providing the City Council with a quarterly report and a comprehensive overview of the City's current financial position at a summer Budget Retreat.

The administration will analyze program priorities and needs and recommend funding levels for each program in a proposed operating budget and six-year capital improvement program, which will be submitted to the Council by no later than 60 days prior to the end of the fiscal year. The City Manager typically presents the proposed budget to the City Council in late October.

As part of the budget document, a budget message will be prepared that contains the following:
> An explanation of the budget document.

- An outline of the recommended financial policies and programs of the City for the ensuing fiscal year.
> A statement of the relation of the recommended appropriation to such policies and programs.
> A statement of the reason for salient changes from the previous year in appropriation and revenue items.
> An explanation of any recommended major changes in financial policy.
The operating budget proposal for the general fund will include a financial plan that shows projected revenues and expenditures for at least the next five fiscal years. The financial plan will provide an explanation of the assumptions used in projecting future year expenditure and revenue levels, such as growth in tax revenues, inflation, cost of services, and other factors that may impact the financial condition of the City.

The operating budget will be classified and segregated according to a standard classification of accounts as prescribed by the State Auditor.

The Council will hold public hearings as required and approve operating and capital budgets prior to the end of the fiscal year in accordance with State law.

## IV. BUDGET ADJUSTMENT \& AMENDMENT PROCESSES

Under the provisions of State law and the City's operating procedures, the operating budget may be adjusted or amended in two different ways. Adjustment of the budget involves a reallocation of existing appropriations and does not change the budget "bottom line."
Amendment of the budget involves an addition to or reduction of existing appropriations.
A. Adjustment

The City departmental expenditures and program goals are monitored throughout the year. Certain departments may develop the need for additional expenditure authority to cover unanticipated costs that cannot be absorbed within the budget, while other departments may unexpectedly not require their full budget authorizations. The Finance Department reviews and analyzes all department and/or fund budgets to determine what adjustments are necessary and whether the adjustments can be made within existing appropriation limits and within the City Council and Departmental goals as provided in the budget. Necessary adjustments are then reviewed with the affected department and/or fund managers. When an adjustment is needed, the Finance staff will look first to savings within the department and then consider budget transfers between departments. The Finance Director, in conjunction with the Department Directors and the City Manager, reviews and decides if any specific budget reductions are needed. No City Council action is needed as State law allows budget adjustments to be done administratively and approved by the City Manager. As a matter of practice, staff will include any adjustments made between departments with the quarterly financial information provided to the City Council.

## B. Amendment

Amending the City's budget occurs whenever the requested changes from departments and/or funds will cause the existing appropriation level for the fund to change. This situation generally occurs when the City Council authorizes additional appropriation. This is done by an ordinance that amends the original budget and states the sources of funding for the incremental appropriations.

## V. RESERVE AND CONTINGENCY FUND POLICIES

Adequate fund balance and reserve levels are a necessary component of the City's overall financial management strategy and a key factor in external agencies' measurement of the City's financial strength.

Maintenance of fund balance for each accounting fund assures adequate resources for cash flow and to mitigate short-term effects of revenue shortages. Reserve funds are necessary to enable the City to deal with unforeseen emergencies or changes in condition.
A. General Policy

The City shall maintain reserves required by law, ordinance and/or bond covenants.
All expenditures drawn from reserve accounts shall require prior Council approval unless previously authorized by the City Council for expenditure within the City's biennial budget.

If reserves and/or fund balances fall below required levels as set by this policy, the City shall include within its biennial budget a plan to restore reserves and/or fund balance to the required levels.

All reserves will be presented in the City's biennial budget.
B. Revenue Stabilization Fund

The City will establish a Revenue Stabilization Fund and shall accumulate a reserve equal to thirty percent ( $30 \%$ ) of annual economically sensitive revenues within the City's operating budget to cover revenue shortfalls resulting from unexpected economic changes or recessionary periods.
C. General Fund Operating Reserves

The City shall maintain a General Fund Operating Reserve to provide for adequate cash flow, budget contingencies, and insurance reserves. The General Fund Operating Reserves will be determined as follows:

1. Cash Flow Reserve: The City shall maintain a cash flow reserve within the General Fund in an amount equal to $\$ 3,000,000$. This is approximately equal to 1.5 months of operating expenditures. The City will review biennially the required cash flow reserve level that is necessary to meet the City's cash flow needs. If it is determined than $\$ 3,000,000$ is not adequate, the Finance Director shall propose an amendment to these policies.
2. Budget Contingency: The City shall maintain a budget contingency reserve within the General Fund equal to $2 \%$ of budgeted operating revenues.
3. Insurance Deductible Reserve: The City shall maintain an insurance reserve within the General Fund to be used for potential substantial events that cause damage to the City's fixed assets and/or infrastructure.
D. Equipment and Vehicle Replacement Reserves

The City will maintain fully funded reserves for the replacement of vehicles, computer equipment, and equipment identified on the City's fixed asset listing. Contributions will be made through assessments to the using funds and maintained on a per asset basis.
E. City Street Fund Reserve

The City shall maintain an operating reserve within the City's Street Fund an amount equal to $20 \%$ of annually budgeted operating revenues.
F. Surface Water Utility Fund Reserve

The City shall maintain an operating reserve within the Surface Water Utility Fund an amount equal to no less than $20 \%$ of budgeted operating revenues.

## VI. CAPITAL IMPROVEMENT PROGRAM PLAN POLICIES

A number of important policy considerations are the basis for the Capital Improvement Program (CIP) Plan. These policies provide guidelines for all financial aspects of the CIP, and ultimately affect the project selection process.
A. Relationship of Long-Range Plans to the CIP

The CIP will be updated annually but the City Council may amend the CIP Plan at any time as required.

Virtually all of the projects included in the CIP are based upon formal long-range plans that have been adopted by the City Council. This ensures that the City's Capital Improvement Program, which is the embodiment of the recommendations of these individual planning studies, is responsive to the officially stated direction of the City Council as contained in the Comprehensive Plan, Council work goals, and supporting documents. Examples of these supporting documents: Pavement Management System Plan and the Parks and Open Space and Recreation Services Plan. There are
exceptions, but they are relatively small when compared to the other major areas of expenditure noted above.
B. CIP Coordination Team

A CIP Coordination Team is a cross-departmental team which participates in the review and recommendation of the CIP program to the City Manager. The Team will review proposed capital projects in regards to accurate costing (design, capital, and operating), congruence with City objectives, and prioritize projects by a set of deterministic criteria. The Finance Director, or his/her designee, will serve as the lead for the team.
C. Establishing CIP Priorities

The City uses the following basic CIP project prioritization and selection process:

1. Each CIP program area establishes criteria to be used in the prioritization of specific projects submitted for funding. These specific criteria are developed by staff in conjunction with City Council priorities and input from citizens, associated City boards and commissions. The criteria are identified in the City's budget document. The City has divided its CIP projects into the following program areas: General Facilities \& Parks Capital Projects, Roads Capital Projects, and Surface Water Capital Projects.
2. Designated personnel within City departments recommend project expenditure plans to the Finance Department. The project expenditure plans include all capital costs and any applicable maintenance and operation expenditures along with a recommended funding source.
3. The CIP Coordination Team evaluates the various CIP projects and selects those with the highest priority based on input from citizens, project stakeholders, appropriate advisory committees, and City Council goals.
4. A Preliminary CIP Plan is developed by the Finance Department and is recommended to the City Council by the City Manager.
5. The City Council reviews the Operating and Preliminary CIP Plan, holds a public hearing(s) on the plan, makes their desired alterations, and then officially adopts the CIP and establishes related appropriations as a part of the City's budget.
6. Within the available funding, the highest priority projects are then selected and funded in the CIP.
D. Types of Projects Included in the CIP Plan

The CIP Plan will display, to the maximum extent possible, all major capital projects in which the City is involved. It is difficult to define precisely what characteristics a project should have before it is included in the CIP Plan for the public's and City Council's review and approval. While the following criteria may be used as a general guide to distinguish among projects which should be included or excluded from the CIP Plan, there are always exceptions which require management's judgment. Therefore, the City Manager has the administrative authority to determine which projects should be included in the CIP Plan and which projects are more appropriately contained in the City's operating budget.

For purposes of the CIP Plan, a CIP project is generally defined to be any project that possesses all of the following characteristics:

1. Exceeds an estimated cost of $\$ 10,000$;
2. Involves totally new physical construction, reconstruction designed to gradually and systematically replace an existing system on a piecemeal basis, replacement of a major component of an existing facility, or acquisition of land or structures; and
3. Involves City funding in whole or in part, or involves no City funds but is the City's responsibility for implementing, such as a 100\% grant-funded project or 100\% Local Improvement District funded project.
4. Involves the skills and construction needs beyond those needed for a general repair and maintenance project.

These should be considered general guidelines. Any project in excess of $\$ 25,000$ meeting the criteria of (2), (3) and (4) above, or various miscellaneous improvements of a like nature whose cumulative total exceeds $\$ 25,000$ (i.e., street overlays) should be considered as part of the CIP process.

Program area managers are responsible for the cost estimates of their proposed programs, including future maintenance and operations costs related to the implementation of completed projects.
E. Scoping and Costing Based on Predesign Study

For some projects it is difficult to develop accurate project scopes, cost estimates, and schedules on which no preliminary engineering or community contact work has been done. To address this problem, some projects are initially proposed and funded only for preliminary engineering and planning work. This funding will not provide any monies to develop final plans, specifications, and estimates to purchase rights-of-way or to construct the projects. Future project costs are refined through the predesign study process.
F. Required Project Features and Financial Responsibility: If a proposed project will cause a direct impact on other publicly-owned facilities, an equitable shared and funded cost plan must be coordinated between the affected program areas.
G. Predictability of Project Timing, Cost and Scope: The predictability of timing and costs of projects is important to specific private developments, such as the provision of street improvements or the extension of major sewer lines or water supply, without which development could not occur. These projects generally involve significant financial contributions from such private development through developer extension agreements, LIDs, and other means. Once a project has been approved by the City Council in the CIP, project scheduling is a priority to maintain.

The City Council authorizes the City Manager to administratively approve the acceleration of project schedules so long as they can be accomplished within budgeted and any allowable contingency expenditures, with the understanding that all controversial issues will be brought before the City Council. All project additions or deletions must be approved by the City Council.
H. CIP Maintenance and Operating Costs: CIP projects, as approved by the City Council, shall have a funding plan for maintenance and operating costs identified in the project description. These costs will be included in the City's long-term financial planning.
I. Local Improvement Districts (LID)

Examples of when future LIDs may be formed are as follows: 1) where old agreements exist, committing property owners to LID participation on future projects; 2) when a group of property owners wish to accelerate development of a certain improvement; 3) when a group of property owners desire a higher standard of improvement than the City's project contemplates; or 4) when a group of property owners request City assistance in LID formation to fund internal neighborhood transportation facilities improvements, which may or may not have City funding involved. If City funding is proposed by the project sponsors (property owners), they shall so request of the City Council (through the City Clerk) in writing before any LID promotion activity begins. The City Manager shall analyze such request and report his conclusions and recommendation to Council for their consideration. The Council shall by motion affirm or deny the recommendation. The

Council's affirmative motion to financially participate shall expire in 180 days, unless the project sponsors have submitted a sufficient LID petition by that time.

In the event that the request is for street resurfacing in advance of the City's normal street resurfacing cycle, the City's contribution, if any, will be determined based on a recommendation from the Public Work's Department and a financial analysis of the impact of completing the project prior to the City's original timeline.

On capital projects whose financing depends in part on an LID, interim financing will be issued to support the LID's portion of the project budget at the same time or in close proximity to the issuance of the construction contract. The amount of the interim financing shall be the current estimate of the final assessment roll as determined by the administering department.

In the event that the project is $100 \%$ LID funded, interim financing shall be issued either in phases (i.e., design phase and construction phase) or up front in the amount of the entire estimated final assessment roll, whichever means is estimated to provide the lowest overall cost to the project as determined by the Finance Department.

The City will recapture direct administrative costs incurred by the City for the LID project by including these in the preliminary and final assessment roles.
J. Preserve Existing Capital Infrastructure Before Building New Facilities: It is the City's policy to ensure that adequate resources are allocated to preserve the City's existing infrastructure before targeting resources toward building new facilities that also have maintenance obligations. This policy addresses the need to protect the City's historical investment in capital facilities and to avoid embarking on a facility enhancement program which, together with the existing facilities, the City cannot afford to adequately maintain.
K. New Facilities Should Be of High Quality, Low Maintenance, Least Cost: The intent of this policy is to guide the development and execution of the CIP Plan through an emphasis on lowest life-cycle cost. Projects should only be built if the necessary funding to operate them is provided. Also, priority is given to new facilities that have minimal ongoing maintenance costs so as to limit the impact upon both the CIP and the operating budget.
L. Public Input at All Phases of Projects: The City makes a serious commitment to public involvement. The City's long-range plans are developed through an extensive citizen involvement program.
M. Basis for Project Appropriations: During the City Council's CIP Plan review, the City Council will appropriate the full estimated project cost for all projects in the CIP Plan. Subsequent adjustments to appropriation levels for amendments to the CIP Plan may be made by the City Council at any time.
N. Balanced CIP Plan: The CIP Plan is a balanced six-year plan. This means that for the entire six-year period, revenues will be equal to project expenditures in the plan. It is anticipated that the plan will have more expenditures than revenues in single years of the plan, but this imbalance will be corrected through the use of interim financing, if actually needed. Over the life of the six-year plan, however, all planned interim debt will be repaid and all plan expenditures, including interest costs on interim debt will be provided for with identified revenues. Any project funding plan, in which debt is not retired within the current six-year plan, must have specific City Council approval.
O. Use of Debt in the CIP: The CIP is viewed as a long-term program that will continually address capital requirements far into the future. As such, the use of long-term debt
should be minimized, allowing the City to put money into actual projects that benefit Shoreline residents and businesses rather than into interest payments to financial institutions. There may be exceptions to this policy for extraordinary circumstances, where voted or non-voted long-term debt must be issued to achieve major City goals that otherwise could not be achieved, or would have to wait an unacceptably long time. Issuance of long-term debt must receive City Council authorization.

Staff monitors CIP cash flow regularly and utilizes fund balances to minimize the amount of borrowing required. Funds borrowed for cash flow purposes are limited to short-term obligations. Projected financing costs are included within a project in the administrative program area.
P. Finance Director's Authority to Borrow: The Finance Director is authorized to initiate interim and long-term borrowing measures, as they become necessary, as identified in the CIP Plan and approved by the City Council.
Q. CIP Plan Update and Amendment: The CIP Plan will be updated at least annually. The City Council may amend the CIP Plan at any time if a decision must be made and action must be taken before the next CIP review period. All project additions or deletions must be approved by the City Council.
R. Formalization of Monetary Agreements: All agreements between the City and outside jurisdictions, where resources are exchanged shall be in writing specifying the financial terms of the agreement, the length of the agreement, and the timing of any required payments (i.e., Joint CIP projects where the City is the lead agency, grant funded projects, etc.). Formalization of these agreements will protect the City's interests. Program areas shall make every effort to promptly request any reimbursements that are due the City. Where revenues from outside jurisdictions are ongoing, these requests shall be made at least quarterly, unless alternative arrangements are approved by the City Manager or City Council.
S. Applicable Project Charges: CIP projects should reflect all costs that can be clearly shown to be necessary and applicable. Staff charges to CIP projects will be limited to time spent actually working on those projects and shall include an overhead factor to cover the applicable portion of that person's operating cost.

## VII. DEBT POLICY

The Objectives of the City's Debt Management Policy are:
A. To limit the use of debt so that debt service payments will be a predictable and manageable part of the operating budget.
B. To raise capital at the lowest cost, consistent with the need to borrow. This will be accomplished by:

1. Keeping a high credit rating (while making attempts to strengthen credit rating).
2. Maintaining a good reputation in the credit markets by adjusting the capital program for regular entry to the bond market and by managing the biennial budget responsibly.
3. Institute and maintain procedures that ensure full and timely repayment of City obligations.

## General Debt Policies

Before issuing any debt, the City will consider the impacts of such debt on the operating budget, the effect on the City's credit rating, the debt capacity remaining under constitutional
and statutory limitations, the most cost-effective term, structure, and type of debt, and the impact on taxpayers.

Disclosure statements will be used to keep taxpayers and investors informed of the City's financial position. These include printed copies of:
A. Annual reports
B. Operating budget and Capital Facilities Plan
C. Official Statements

Debt issues will be sold on a competitive basis (except when conditions make a negotiated sale preferable) and awarded to the bidder who produces the lowest true interest cost.

Debt issues may be sold on a negotiated basis if the issue is unusually large or small, the project is complex, the issue is a refunding, flexibility is desired in the structure, the market is volatile, or other conditions make it in the City's best interest to conduct a negotiated sale.

Long Term Debt: Long term debt will be used to maintain and develop the municipal infrastructure when the economic life of a fixed asset exceeds five years.

Revenue bonds will generally be used for projects which are financially self-sustaining.
General Obligation bonds can be used to finance public works projects which benefit the community and where there are sufficient dedicated revenues to amortize the debt.

General Obligation pledges can be used to back self-sustaining projects financed through revenue bonds when costs can be reduced and the municipal credit rating is not put in jeopardy by this action.

The City may rely on a local improvement district program for certain local or neighborhood street improvements.

The City will use interfund borrowing where such borrowing is cost effective to both the borrowing and the lending fund. Such borrowing shall implement Council directed policy in a simplified manner, such as borrowing associated with interim financing for local improvement district projects.

Table Maintenance: The 2019 Extra Help table has been structured to blend in substantial change in WA State minimum wage occurring in 2019 and 2020. In 2020, the minimum wage will be $\$ 13.50$. In 2020, apply a COLA to the extra help rates on the same basis as the regular rates. Then, in 2020, if any rates fall below $\$ 13.50$ adjust them to $\$ 13.50$. From then on, apply a COLA as usual and if any rates fall below WA State Minimum Wage, adjust them to the WA State Minimum Wage.

Approval of Position Placement within the Table: Human Resources recommends and the City Manager approves placement of a position within the pay table.

Approval of the Table Rates: The City Manager recommends and the City Council approves the table rates when adopting the budget.

Table Maintenance: The 2020 Extra Help table has been structured to blend in substantial change in WA State minimum wage occurring in 2020. In 2020, the minimum wage will be $\$ 13.50$. In 2020, apply a COLA to the extra help rates on the same basis as the regular rates. Then, in 2020, if any rates fall below $\$ 13.50$ adjust them to $\$ 13.50$. From then on, apply a COLA as usual and if any rates fall below WA State Minimum Wage, adjust them to the WA State Minimum Wage.

Approval of Position Placement within the Table: Human Resources recommends and the City Manager approves placement of a position within the pay table.

Approval of the Table Rates: The City Manager recommends and the City Council approves the table rates when adopting the budget.

There are two types of service charges: The flat rate and the sliding rate
The flat rate service charge applies to single family homes and parcels with less than $10 \%$ hard surface. The sliding rate service charge applies to all other properties in the service area. The sliding rate is calculated by measuring the amount of hard surface on each parcel and multiplying the appropriate rate by total acreage.

## B. CREDITS

Several special rate categories will automatically be assigned to those who qualify

1. An exemption for any home owned and occupied by a low income senior citizen determined by the assessor to qualify under RCW 84.36.381.
2. A public school district shall be eligible for a waiver of up to $100 \%$ of its standard rates based on providing curriculum which benefits surface water utility programs. The waiver shall be provided in accordance with the Surface Water Management Educational Fee Waiver procedure. The program will be reviewed by July 1, 2021.
3. Alternative Mobile Home Park Charge. Mobile Home Park Assessment can be the lower of the appropriate rate category or the number of mobile home spaces multiplied by the single-family residential rate.

## C. RATE ADJUSTMENTS

Any person receiving a bill may file a request for a rate adjustment within two years of the billing date. (Filing a request will not extend the payment period)
Property owners should file a request for a change in the rate assessed if:

1. The property acreage is incorrect;
2. The measured hard surface is incorrect;
3. The property is charged a sliding fee when the fee should be flat
4. The person or property qualifies for an exemption or discount; or
5. The property is wholly or in part outside the service area.

## D. REBATE

Developed properties shall be eligible for the rebate under SMC 13.10.120 for constructing approved rain gardens or conservation landscaping at a rate of $\$ 2.0 \mathbf{5} 0$ per square foot not to exceed $\$ 1,62,000$ for any parcel

## CITY BUDGET SUMMARY

Listed below are the resources and expenditures for all City funds. The resources section lists all revenue and uses by category. Beginning Fund Balance represents the reserves that are available to the City at the beginning of any given year. Operating Uses represent expenses necessary to run the City government on a daily basis while Contingencies represent funding set aside for potential or unforeseen expenditures that may occur. Capital Improvements are the purchases of land, construction of buildings, major street construction or reconstruction, or drainage system improvements. Interfund Transfers represent transfers of funds from one City fund to another City fund to pay for services or capital purposes. Revenues and expenditures are recorded in all funds. Ending Fund Balance represents the reserves that are available to the City at the end of any given year. These reserves represent both reserves for unanticipated events and reserves designated for future capital purposes. The Budgeted Use of Fund Balance is required to balance certain funds and the difference between resources and expenditures presented here may be offset by surpluses in other funds.

## Glossary of Budget Terms and Acronyms

ACCOUNT. A record of additions, deletions, and balances of individual assets, liabilities, equity, revenues, and expenses.

ACCOUNTING SYSTEM. The total set of records and procedures used to record, classify, and report information on the financial status and operations of an entity.

ACCRUAL BASIS ACCOUNTING. A method of accounting in which revenue is recorded in the period in which it is earned (whether or not it is collected in that period), and expenses are reported in the period in which they are incurred (whether or not the disbursements are made). This method differs from the cash basis of accounting, in which income is considered earned when received and expenses are recorded when paid. All funds except the governmental funds are accounted on the accrual basis, and the governmental funds are accounted on a modified accrual basis.

ACTUALS. Monies which have already been used or received as opposed to budgeted monies which are estimates of possible funds to be spent or received.

ADOPTED BUDGET. The budget for the operations of regular City services and for capital expenditures for the fiscal year as proposed by the City Manager and adjusted and adopted by the City Council. The adopted budget can only be adjusted (amended) during the fiscal year by an ordinance of the City Council.

AGENCY FUND. A fund used to account for assets held by a government as an agent for individuals, private organizations, other governments and/or other funds.

APPROPRIATION. A legal authorization granted by an ordinance of the City Council to make expenditures and to incur obligations for a specific purpose or program. Usually granted for a one-year period, spending should not exceed this level without prior approval of the City Council.

APPROPRIATION ORDINANCE. The official enactment by the City Council giving the legal authority for City officials to obligate and expend resources.

ARRA. American Recovery Reinvestment Act.
ASD. Administrative Services Department
ASSESSED VALUATION. The estimated value placed upon real and personal property by the King County Assessor that is used in computing the property taxes to be paid by property owners.
B.A.R.S. The Budgeting, Accounting, and Reporting System for which compliance is required for the accounting systems of all governmental entities prescribed by the Washington State Auditor's Office.

BALANCED BUDGET. A budget in which planned expenditures do not exceed projected funds available.

BASE BUDGET. The ongoing cost to maintain the current level of service.
BASIS OF ACCOUNTING. A fund's basis of accounting determines when a transaction is recognized in the fund's operating statement. Annual appropriated budgets for all funds are prepared and adopted on a cash basis. Under a cash basis, transactions are recognized only when cash is increased or decreased. Governmental fund financial statements are prepared on the modified accrual basis of accounting. Revenues are recognized when measurable and available to finance current expenditures and expenditures are recognized when goods and services are received and liabilities are due and payable at year-end. Under the accrual basis of accounting, the revenues are recognized in the accounting period in which they are earned and become measurable and expenses are recognized in the period incurred.

BEGINNING FUND BALANCE. The resources that are unspent from the previous year and are available in the subsequent fiscal year for expenditure. Since these resources are typically available due to under-expenditures in the previous year or unexpected revenues, it is prudent to not utilize these resources for ongoing operational expenditures.

BENEFITS. City provided employee benefits such as social security replacement, retirement, worker's compensation, life insurance, medical insurance, vision insurance, and dental insurance.

BUDGET. A plan of financial operation embodying an estimate of expenditures for a given period and the proposed means of financing them (revenue estimates). The term is also sometimes used to denote the officially approved expenditure ceilings under which the City and its departments operate.

BUDGET CALENDAR. The schedule of key dates or milestones which the City follows in the preparation and adoption of the budget.

BUDGET HEARING. A public hearing conducted by City Council to consider and adopt the annual budget.

CAPITAL BUDGET. Major capital improvements which are beyond the routine operation of the city are budgeted under separate capital project funds. These projects often require more than one year to complete. In total, these projects are referred to as the Capital Budget and are not included in the annual operating budget.

CAPITAL IMPROVEMENT CONSTRUCTION. Projects such as roads, drainage, buildings, sidewalks and other works to create and repair the City's physical infrastructure; funds in this category may also be used for the design, project management and other associated administrative costs.

CAPITAL IMPROVEMENT PROGRAM. A six-year plan for capital expenditures that identifies the expected beginning and ending date of each project, the amount to be expended in each year on each project and the method of financing project expenditures.

CAPITAL OUTLAYS. Annual operating expenditures for the acquisition of, or addition to, fixed assets. These expenditures must cost more than $\$ 5,000$, including construction projects, land acquisition, major renovations or repairs to existing grounds or facilities, and equipment purchases.

CAPITAL PROJECTS. Projects which purchase or construct capital assets. Typically a capital project encompasses a purchase of land and/or the construction of a new building or facility. It may also include major maintenance or renovation of a current asset.

CASH BASIS ACCOUNTING. The method of accounting where revenues are recorded when received and expenditures are recorded when paid.

CASH RESERVES. The cash balance that is not appropriated for expenditures or that is segregated by policy for a specific future use.

CHARGES FOR GOODS AND SERVICES. A basic classification for services other than personnel services which are needed by the City. This budget item includes professional services, communication, travel, advertising, rentals and leases, insurance, public utility services, repairs and maintenance, and miscellaneous.

CLEAN WATER ACT (CWA). In 1972, Congress amended the Federal Water Pollution Control Act (referred to as the Clean Water Act) to prohibit the discharge of any pollutant to waters of the United States from a point source unless the discharge is authorized by a National Pollutant Discharge Elimination System (NPDES) permit. In 1999 the US Environmental Protection Agency promulgated rules (NPDES Phase II) that sets storm water management requirements for municipalities under 100,000 population, including the City of Shoreline.

CONSUMER PRICE INDEX (CPI). A statistical measure of price levels provided by the U.S. Department of Labor signifying the cost of living and economic inflation.

CONTINGENCY. A budgetary reserve set aside for emergencies or unforeseen expenditures.
COST ALLOCATION. The assignment of applicable costs incurred by a central services department to a fund based on the benefit to the fund being assessed.

COUNCILMANIC BONDS. Bonds issued with the approval of the City Council, as opposed to bonds which must be approved by public vote. Councilmanic bonds must not exceed 1.5 percent of the assessed valuation of the City.

CRITICAL SUCCESS FACTORS. Areas where the City has to excel, if it is to accomplish the community's vision.

CSD. Community Services Department
DEBT SERVICE. The annual payment of principal and interest on the City's indebtedness.
DEBT SERVICE FUND. The type of fund that accounts for the payment of debt service on general obligations of the City.

DEFICIT. The excess of the liabilities of a fund over its assets. The excess of expenditures over revenues during an accounting period; or, in the case of proprietary funds, the excess of expense over income during an accounting period.

DEPRECIATION. (1.) Expiration in the service of life of capital assets attributable to wear and tear, deterioration, action of the physical elements, inadequacy, or obsolescence. (2.) That portion of the cost of a capital asset which is charged as an expense during a particular period.

DESIGNATED FUND BALANCE. A portion of fund balance that has been designated by past Council action for a specific purpose.

ENCUMBERANCE. The commitment of appropriated funds to purchase an item or service.
ENDANGERED SPECIES ACT (ESA). Refers to the listing of the Puget Sound Chinook salmon as a threatened species by the National Marine Fisheries Service. Potentially affects all sensitive areas, and stormwater regulations for both quality and quantity.

ENDING FUND BALANCE. The cash balance remaining at the end of the fiscal year available for appropriation in future years.

ENTERPRISE FUNDS. Enterprise or proprietary funds are used to account for a government's businesstype activities. An enterprise fund may be established to account for operations financed and operated in a manner similar to private business enterprises (e.g., water, gas, and electric utilities; airports; parking garages; or transit systems). In this case, the governing body intends that costs (i.e., expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

EXPENDITURES. Where accounts are kept on the accrual or modified accrual basis of accounting, the costs of goods received or services rendered whether cash payments have been made or not. Where accounts are kept on a cash basis, expenditures are recognized only when the cash payments for the above purposes are made.

FEES. A charge for a service the City does not provide for free to all citizens. For example, we have fees for recreation classes or land use development applications.

FISCAL YEAR. Any yearly accounting period, without regard to its relationship to a calendar year. The fiscal year for the City of Shoreline begins on January 1 and ends on December 31.

FTE. An acronym for Full-Time Equivalents, which are regular, full-time employee positions; when expressed as a decimal number, this means that only part of a full-time employee position is dedicated to this service or program within the budget.

FUNDS. Funds are comprised of special accounts within the City budget that are used to segregate revenues and expenditures for specific types of programs and services and to comply with State law and generally accepted accounting principles (GAAP).

FUND BALANCE. The excess of an entity's assets over its liabilities in a particular fund. A negative fund balance is sometimes called a deficit.

GAAP. "Generally Accepted Accounting Principles", which are mostly determined by the GASB for governments.

GASB. "Governmental Accounting Standards Board", which determines the underlying principles to be used in accounting for governmental activities.

GENERAL FUND. This fund is used to pay the expenses and liabilities of the City's general services and programs for citizens that are not separately accounted for in special revenue funds.

GENERAL FUND SUBSIDY. This reflects the amount of General Fund discretionary taxes required to fund a department's budget. The formula for this figure is total departmental expenditures minus dedicated resources (grants, fees, etc.) equals General Fund subsidy.

GENERAL OBLIGATION BONDS. Bonds for which the full faith and credit of the issuing government are pledged for payment.

GOVERNMENTAL FUNDS. Governmental funds are used to account for most of a government's taxsupported activities. Under current GAAP, there are five types of governmental fund types: general, special revenue, debt service, capital projects, and permanent funds. Governmental funds are used to account for the acquisition, use and balances of expendable financial resources and the related current liabilities. The measurement focus in these fund types is on the determination of financial position and changes in financial position (sources, uses, and balances of financial resources), rather than on net income determination. The statement of revenues, expenditures, and changes in fund balance is the primary governmental fund type operating statement. It may be supported or supplemented by more detailed schedules of revenues, expenditures, transfers, and other changes in fund balance.

GRANTS. Funds provided to or by the City for special purposes or programs, usually requiring a competitive application process.

INFRASTRUCTURE. The underlying foundation, especially the basic installations and facilities, on which the continuance and growth of a jurisdiction depends, i.e., streets, roads, sewer, and water systems.

INTERFUND TRANSFERS. Contributions from one City fund to another in support of activities of the receiving fund. Loans are not included.

INTERGOVERNMENTAL REVENUE. Grants, entitlements, shared revenues and payment for goods and services by one government to another.

INTERGOVERNMENTAL SERVICES. Services purchased from other government agencies, normally including types of services that only government agencies provide.

INTERNAL CONTROLS. A system of controls established by the City that are designed to safeguard the assets of the City and provide reasonable assurances as to the accuracy of financial data.

INTERNAL SERVICE FUNDS. A type of proprietary fund which accounts for the goods and services which are provided to other units of the City and payment by the benefiting unit is intended to fund the costs of providing such services.

LEED: Leadership in Energy and Environmental Design.
LEVEL OF SERVICE. Used generally to define the existing services, programs, and facilities provided by the government for its citizens. Level of service in any given activity may be increased, decreased, or remain the same, depending on the needs, alternatives, and available resources.

LEVY. To impose a tax, special assessment or service charge for the support of government activities. The term most commonly refers to the real and personal property tax levy.

LEVY RATE. The rate at which taxes, special assessments or service charges are imposed. For example, the real and personal property tax levy is the rate at which property is taxed per $\$ 1,000$ of assessed valuation. The rate is determined by calculating the ratio of the maximum amount of property tax revenue allowable under state law and the total assessed valuation within the taxing district.

LIABILITY. Debt or other legal obligation arising out of transactions in the past which must be liquidated renewed or refunded at some future date.

LICENSES AND PERMITS. A revenue category of the City derived from business licenses and building or development permits.

LID. "Local Improvement District". A financing mechanism that permits the building of public infrastructure improvements which benefit a confined area and where the costs for those improvements are to be paid by the benefitting area land owners.

MODIFIED ACCRUAL ACCOUNTING. A basis of accounting in which expenditures are accrued but revenues are accounted for on a cash basis. This accounting technique is a combination of cash and accrual accounting since expenditures are immediately incurred as a liability while revenues are not recorded until they are actually received or are "measurable" and "available for expenditure". Since this type of accounting basis is a conservative financial approach, it is recommended as the standard for most governmental funds.

NON-DEPARTMENTAL EXPENDITURES. Expenditures that are not directly related to the operations of a single City department.

OBJECT OF EXPENDITURE. Expenditure classifications based upon the types or categories of goods and services purchased. Typical objects of expenditure include salary, benefits, supplies, other services and charges, intergovernmental services, inter-fund payment for services, capital outlay and debt service.

OPERATING BUDGET. The annual appropriation to maintain the provision of City services to the public.
OPERATING FUNDS. These funds account for the day-to-day operations of providing City services. They do not include capital improvements. They include the General Fund and Special Revenue Funds.

OPERATING TRANSFER IN. Transfer from other funds which are not related to rendering of service.
OPERATIONAL CONTINGENCY. Funds set-aside in the General Fund budget to provide for unknown operational adjustments or service demands that may arise during the year. These funds are used only as a last resort and with Council approval. Savings within departmental budgets throughout the year will be the first source for funding unforeseen expenditures.

OVERHEAD/INDIRECT COSTS. Overhead or indirect costs represent the level of assistance that the support service departments (Administrative Services, Human Resources, City Manager, etc.) provide to the direct service departments (Police, Parks, Public Works, etc.) so they can provide services to the public.

PERFORMANCE MEASURES. A performance measure is an indicator of the attainment of an objective. It is a specific quantitative measure of work performed or services provided within an activity or program, or it may be a quantitative measure of results obtained through a program or activity.

PERS. "Public Employee Retirement System". The state system for public employment retirement provided for all City employees, other than law enforcement and fire fighter personnel.

PRELIMINARY BUDGET. That budget which is proposed by staff to the City Council and has not yet been adopted by the City Council.

PROGRAM. A broad function or area of responsibility of government services. It is a basic organizational unit of government that is composed of a group of specific activities and operations directed at attaining a common purpose or goal.

PROGRAM PURPOSE. A broad declaration of purpose explaining why the program exists and what we hope to achieve with the resources invested.

PROPOSED BUDGET. The City Manager's recommended budget submitted to the City Council and public in October of each year.

PROPRIETARY FUNDS. Recipients of goods or services pay directly to these funds. Revenues are recorded at the time services are provided, and all expenses incurred in earning the revenues are recorded in the same period. As a result, there is a direct cause and effect relationship between revenue and expenses in these funds.

PROPOSED BUDGET. This is the budget, as proposed by the City Manager, for the operations of regular City services and for capital expenditures.

PUBLIC SAFETY. A term used to define the combined budget of the police and criminal justice departments.

REAPPROPRIATION. A legal authorization granted by the City Council to re-appropriate expenditures to the current budget year for a specific purpose or program that was budgeted but unexpended at the end of the prior year.

REET. The Real Estate Excise Tax, a tax levied on real estate sales and used solely for capital purposes.

RESERVES. The funds set aside by the City as a savings account for future emergencies. The City's reserves include the General Reserve Fund, the Insurance Reserve budgeted in Citywide Services, and a General Fund Undesignated Ending Fund Balance.

RESOURCES. Total dollars available for appropriations including estimated revenues, fund transfers and beginning fund balances.

REVENUES. Income received by the City to support programs or services to the community. It includes such items as taxes, fees, user charges, fines, forfeits, interest income and miscellaneous revenue.

REVENUE BONDS. Bonds sold by the City that are secured only by the revenues of a particular system, usually the enterprise fund.

RFP. Request for Proposal

SAFETEA-LU. Safe, Accountable, Flexible and Efficient Transportation Equity Act - a Legacy for Users transportation grant.

SALARIES AND WAGES. Amounts paid for services rendered by employees in accordance with rates, hours, terms and conditions authorized by law or stated in employment contracts. This category also includes overtime and seasonal help.

SPECIAL ASSESSMENT. A compulsory levy made against certain properties from earnings of enterprise funds. An addition to a pledge or revenues, such bonds sometimes contain a mortgage on the enterprise funds property.

SPECIAL REVENUE FUNDS. Funds that are dedicated for a specific purpose (e.g., roads, surface water, etc.), require an additional level of accountability and are collected in a separate account, not part of the General Fund.

STANDARD WORK YEAR. 2,080 hours a year, 260 days (except leap year).
STRATEGIC GOALS. Each critical success factor has a targeted number of strategic goals. These goals are customer-oriented and are connected to the budget, the capital improvement program (CIP), and the comprehensive plan. They are measurable, realistic, and focused.

STRATEGIC PLAN. A plan outlining the goals and strategies the City will focus on over the next six years. It is prioritized around the critical success factors of our community and is intended to be a living document, which will be evaluated regularly.

SUBSIDIES. Financial assistance provided by one agency to another agency for a defined purpose (e.g., King County swimming pool subsidies, General Fund subsidy of the Street Fund transportation programs).

TAXES. Compulsory charges levied by a government for the purpose of financing services performed for the common benefit. This term does not include special assessments, fees, or charges for services.

TAX LEVY. Charge levied by a government to finance services performed for the common benefit.
TAX RATE. The amount of tax stated in terms of units per $\$ 1,000$ of assessed value of taxable property. The tax rate is the result of dividing the tax levied by the assessed value of the taxing district.

TRANSFERS IN/OUT. Resources that are transferred from one fund to another to pay for a specific purpose. For example, resources are transferred from the Surface Water Fund to the Surface Water Capital Fund to pay for surface water related capital improvement projects, since all capital projects are expensed out of the capital improvement funds.

TRANSPORTATION BENEFIT DISTRICT. State legislation allows local governments to establish a Transportation Benefit District ("TBD") and accompanying funding sources to provide for the preservation, maintenance and construction of local transportation infrastructure.

UNRESERVED/UNDESIGNATED FUND BALANCE. That portion of available fund balance that has not been designated or restricted for a specific purpose and is available for general appropriation.

WORKING CAPITAL. The year-end balance of current assets less current liabilities.
