

Shoreline Master Program Open House Thursday, Nov. 20

6:00 to 7:00 p.m. Mt. Rainier Room, Shoreline Center, 18560 1st Avenue NE (Prior to the Planning Commission meeting.)

The Shoreline Master Program is designed to protect shoreline natural resources and water quality while promoting public access, recreation and environmental responsibility.

In 2003, cities across the state were required to update their Shoreline Master Programs to meet state guidelines. The City of Shoreline recently received a two-year grant for 2008-09 to update its original draft 2004 plan to include new scientific data about offshore habitats and ecosystems.

Shoreline residents are invited to come to the open house to share ideas and concerns. Consultants will be on hand to discuss the draft 2004 plan as well as the updated plan. Public comment from the open house will be incorporated into the final policy and program which is scheduled for completion by June 2010.

Topographic shoreline maps and more information about the Shoreline Master Program are available on the City's website, shorelinewa.gov.

If you would like to receive emails about future open houses or other events, please contact Project Manager Miranda Redinger at (206) 801-2513, mredinger@ci.shoreline.wa.us.
