Aurora Corridor Project
N 145th – N 165th Streets

CONSTRUCTION UPDATE

Week of January 23 - 27, 2006

This week crews will be:

- Trenching for utility undergrounding on the east side of Aurora Avenue moving north from N 155th Street to N 160th Street. This will require intermittent restrictions of northbound Aurora traffic to one lane. Crews will also be trenching on the west side of Aurora Avenue, moving south from N 155th Street.
- Setting pipe and other storm water system structures heading south from N 155th Street on the west side of Aurora Avenue. Crews will also be installing catch basins and pipe on N 155th Street west of Aurora, requiring intermittent lane closures of N 155th Street to the west of Aurora Avenue.
- Working at night on a joint utility crossing of Aurora Avenue at N 160th Street and N 165th Street. Traffic on Aurora Avenue will be restricted to one lane in each direction.
- Working on the wall structures supporting the ramps for the Aurora Bridge, completing excavation for the southern pier of the N 155th Street Bridge, and installing an 8-inch sanitary sewer with encasement. Westminster Way will be closed intermittently over the next three months while this work is underway.

Police officers will be on site to help with traffic control and safety in the construction area. Please drive carefully and observe the advisory construction speed limit of 35 MPH.
