## **Aurora Corridor Project**

**N. 145<sup>th</sup> – N. 165<sup>th</sup> Streets**

## **CONSTRUCTION UPDATE**

**Week of October 17-21, 2005**

This week crews will be:

- Installing new fire hydrants along the west side of Aurora between N. 145<sup>th</sup> and N. 155<sup>th</sup> Streets.
- Installing a new water main along the west side of Aurora heading north from N. 155<sup>th</sup> Street. Seattle Public Utility crews will be welding connections onto the existing water main pipe at N 145<sup>th</sup> Street and disinfecting and testing the water line will occur all week. Crews will work at night to minimize traffic disruptions.
- Undergrounding electrical and communications utilities along the west side of Aurora, moving north from N. 160<sup>th</sup> Street to N. 163<sup>rd</sup> Street. Crews expect to cross N. 163<sup>rd</sup> Street on October 19 and 20. Work on the west side will continue north from there.
- Installing the storm water system main line along the west side of Aurora. Westminster Way will be closed on October 19 and 20 as the line is installed across it and work will continue south from there.

Construction staging continues along Westminster Way. To avoid possible congestion caused by construction staging along Westminster Way, motorists and pedestrians are encouraged to use N. 155<sup>th</sup> Street instead.

Police officers will be on site intermittently to help with traffic control and safety in the construction area. Please drive carefully and observe the temporary construction speed limit of 35 MPH.
