N 145th – N 165th Streets

CONSTRUCTION UPDATE

October 9 - 13, 2006

Here is what you can expect on Aurora Avenue:

- Aurora Avenue and all side streets will be finished with paving and painting of the permanent pavement markings by the middle of this week. Raised buttons and reflective markers will be installed at a later date.
- Crews will continue to work on the bridge ramp wall near Pizza Hut.
- Crews will continue to pour concrete for sidewalks and driveways on the east side of Aurora Avenue.

Special notes:

- Since removing utility poles is one of the last steps of construction, you will see poles in the middle of asphalt paving and located where sidewalks will eventually be. Once the poles are removed, the asphalt for the road will be patched and final sections of sidewalk will be poured. Jersey barriers will be installed around these poles for safety.
- Looking ahead, the plan is to install the top structure of the Aurora Bridge by the end of October and the barrier structure for the N 155th Street Bridge before Thanksgiving.
