N 145th – N 165th Streets

CONSTRUCTION UPDATE

November 27 – December 1, 2006

This week crews will be:

- Installing the top of the Aurora Interurban Trail Bridge, which is called the “superstructure.” This portion of the bridge will include the lighted glass panels that line the walkway to prevent people from throwing things down onto the roadway below. The glass will be installed later.
- Finishing the south bridge ramp wall and the deck curb for N 155th Street Interurban Trail Bridge.
- Working on the interface between the right-of-way and private properties.
- Continuing to pour concrete for sidewalks and driveways on both sides of Aurora, including the sidewalk near Parkwood Plaza, and laying asphalt paving behind sidewalks.
- Continuing to transfer power and telecommunications from overhead to underground lines.
- Continuing landscaping and planting trees.
- Continuing median excavation and installation of irrigation systems and topsoil.
- Installing the signals at N 160th Street and the signal wiring at N 155th Street.

Special notes:

Aurora Avenue North is still very much a construction zone. Please maintain a recommended speed limit of 35 mph in the construction zone to protect yourself and the construction and traffic control workers. Remember: traffic fines double in construction zones.
