N 145th – N 165th Streets

CONSTRUCTION UPDATE

November 6 - 10, 2006

Here is what you can expect on Aurora Avenue:

- Crews will continue to work on the area which will form the ramp connecting the Interurban Trail to the Aurora Avenue bridge (east side).
- Crews will be placing deck reinforcing steel on the N 155th Street bridge.
- Crews will be working on the interface between the right-of-way and private properties.
- Crews will continue to pour concrete for sidewalks and driveways on both sides of Aurora Avenue.
- Overhead power and telecommunications transfers will continue.
- Crews will be setting street lighting poles.
- Crews will be setting Thermoplastic pavement markings.

Special notes:

- Aurora Avenue North is still very much a construction zone. Even though the area seems easier to traverse with the new pavement and striping, there are still many crews working both in the former center turn lane and on the sides of the road. Please maintain a recommended speed limit of 35 mph in the construction zone to protect yourself and the construction and traffic control workers. Remember: traffic fines double in construction zones.
