Aurora Corridor Project
N. 145th – N. 165th Streets

CONSTRUCTION UPDATE

Week of December 12 - 16, 2005

This week crews will be:

- Trenching for utility undergrounding on the west side of Aurora moving south from N. 155th Street. They will also be installing a large utility vault north of N. 155th Street. This will require an intermittent restriction of northbound Aurora traffic to one lane.
- Installing the storm water treatment system at N. 163rd Street on the west side of Aurora. This will require closing N. 163rd between Aurora and Linden Avenue N. December 12 – 21.
- Trenching across Aurora at four locations between N. 163rd and N. 165th Streets during night construction requiring Aurora to be narrowed to one lane in each direction.
- Working on the foundation for the bridge ramp on the south side of N 155th Street.

Construction staging continues along Westminster Way. To avoid possible congestion caused by construction staging along Westminster Way, motorists and pedestrians are encouraged to use N. 155th Street instead.

Police officers will be on site to help with traffic control and safety in the construction area. Please drive carefully and observe the temporary construction speed limit of 35 MPH.
