Aurora Corridor Project  
N. 145<sup>th</sup> – N. 165<sup>th</sup> Streets

## CONSTRUCTION UPDATE

Week of December 19 - 23, 2005

This week crews will be:

- Trenching for utility undergrounding on the west side of Aurora Avenue moving south from N 155<sup>th</sup> Street. Crews will also be installing a large utility vault north of N 155<sup>th</sup> Street on the east side of Aurora Avenue. This will require an intermittent restriction of northbound Aurora traffic to one lane.
- Installing the storm water treatment system at N 163<sup>rd</sup> Street on the west side of Aurora Avenue. This will require closing N 163<sup>rd</sup> Street between Aurora Avenue and Linden Avenue N until December 21.
- Trenching across Aurora Avenue at four locations between N 160<sup>th</sup> Street and N 163<sup>rd</sup> Street during night construction requiring Aurora Avenue to be narrowed to one lane in each direction.
- **Construction will be shut down during the week of December 26<sup>th</sup> – 30<sup>th</sup>.**

Construction staging continues along Westminster Way. To avoid possible congestion caused by construction staging along Westminster Way, motorists and pedestrians are encouraged to use N 155<sup>th</sup> Street instead.

Police officers will be on site to help with traffic control and safety in the construction area. Please drive carefully and observe the temporary construction speed limit of 35 MPH.
