Aurora Corridor Project  
N. 145<sup>th</sup> – N. 165<sup>th</sup> Streets

## CONSTRUCTION UPDATE

Week of December 5 - 9, 2005

This week crews will be:

- Laying conduit for undergrounding electrical and communications utilities along the east side of Aurora from N. 155<sup>th</sup> Street for about 600 feet. This will require an intermittent restriction of northbound Aurora traffic down to one lane.
- Installing the storm water system main line from N. 160<sup>th</sup> to N. 163<sup>rd</sup> Streets on the west side of Aurora.
- For the work in the two bullets above, trenches crossing Aurora at four locations between N. 163<sup>rd</sup> Street and 200 feet south of N. 165<sup>th</sup> Streets will be excavated during night construction to allow Aurora to be narrowed to one lane in each direction.
- Drilling to check for soil suitability for the N. 155<sup>th</sup> Street bridge will require intermittent closures of the right turn only lane for eastbound traffic on N. 155<sup>th</sup> Street.

Construction staging continues along Westminster Way. To avoid possible congestion caused by construction staging along Westminster Way, motorists and pedestrians are encouraged to use N. 155<sup>th</sup> Street instead.

Police officers will be on site to help with traffic control and safety in the construction area. Please drive carefully and observe the temporary construction speed limit of 35 MPH.
