Aurora Corridor Project

N 145th – N 165th Streets

CONSTRUCTION UPDATE

August 7 - 11, 2006

Here is what you can expect on Aurora Avenue:

- Continued excavation and installation of utility conduit, vaults and service connections along the east side of Aurora from N 145th Street to N 152nd Street.
- Roadway excavation along the east side of Aurora from south of N 155th Street to N 160th Street.
- Installation of curb and gutter and driveways along the east side of Aurora from N 155th Street to N 165th Street.
- Continued construction of the Interurban Trail Bridge walls.
- Installation of irrigation along the west side of Aurora.
- Grinding of asphalt on the eastside of the Aurora centerline.

Special notes to pay close attention to:

- Closure of N 152nd Street has been delayed. Closure is expected to start August 14 for approximately two weeks while the contractor rebuilds the road. N 152nd Street will be closed 24 hours a day, seven days a week during this period.
- Work may be delayed as all concrete and aggregate suppliers in King County are closed due to an operator strike. It is unclear at this time what this means in regard to potential delays to the project but the impacts will be monitored closely.
- Excavation for the medians between N 160th Street and N 165th Street begins next week. This means the two-way left turn lane will be closed, but left- and U-turns will be possible at N 160th, N 163rd and N 165th Streets, as well as at all signalized intersections unless otherwise signed.
