N 145<sup>th</sup> – N 165<sup>th</sup> Streets

## CONSTRUCTION UPDATE

September 11 - 15, 2006

Here is what you can expect on Aurora Avenue:

- Installation of curbs, gutters and driveways along the east side of Aurora Avenue south of the Aurora Bridge. Expect closure of the outside northbound lane of Aurora Avenue.
- Continued construction of the Interurban Trail bridge ramp walls.
- Excavation for the center median between N 160<sup>th</sup> Street and N 165<sup>th</sup> Street. Expect inside lane closures on north and southbound Aurora.
- Facing will be applied on the retaining wall at Parkwood Plaza on the corner of Aurora Avenue and N 152<sup>nd</sup> Street.

### Special notes:

- Striping of Aurora Avenue between N 145<sup>th</sup> Street and N 160<sup>th</sup> Street will occur the night of Monday, September 18. The striping will move northbound traffic to the east side of the road and the center turn lane will be restricted in preparation for construction of the center median.
- Since removing utility poles is one of the last steps of construction, you will see poles in the middle of asphalt paving and located where sidewalks will eventually be. Once the poles are removed, the asphalt for the road will be patched and final sections of sidewalk will be poured.
