N 145th – N 165th Streets

CONSTRUCTION UPDATE

September 5 - 8, 2006

Here is what you can expect on Aurora Avenue:

- Asphalt paving on the east side of Aurora from N 145th Street to N 160th Street.
- Installation of curb and gutter and driveways along the east side of Aurora from N 155th Street to N 160th Street.
- Continued construction of the Interurban Trail bridge walls and forming for the bridge decking.
- Installation of irrigation along the west side of Aurora.
- Excavation for the center median between N 160th Street and N 165th Street.
- N 152nd Street is closed for construction while the contractor rebuilds the road. N 152nd Street will be closed 24 hours a day, seven days a week during this period. The road is expected to be reopened to traffic in the middle of the week.
- The contractor will be observing the Labor Day Holiday on Monday, September 4.

Special notes:

- Striping of Aurora Avenue between N 145th Street and N 160th Street will occur the night of September 18. The striping will move northbound traffic to the east of the road and the center turn lane will be restricted in preparation for construction of the center median.
- Since removing utility poles is one of the last steps of construction, you will see poles in the middle of asphalt paving and located where sidewalks will eventually be. Once the poles are removed, the asphalt for the road will be patched and final sections of sidewalk will be poured.
