

Development of Implementation Strategies

- 32 Points were originally adopted prior to construction of the first mile of Aurora Avenue N improvement.
- Experience from the first mile indicated that:
 - some of the original strategies were non-applicable, and
 - some additional strategies would be appropriate.
- City staff asked Aurora Business and Community (ABC) Team to provide feedback on the 32 Points.
- ABC Team input was incorporated in developing the Implementation Strategies document (formerly 32 Points).
- Implementation Strategies will be adopted after community review (in conjunction with Draft Recommended Alternative).
