Solid Waste Collection RFP Addendum #3
August 9, 2007

Notices:

- (1) Please remember to acknowledge receipt of this Addendum on the appropriate place on your Form 5, Certification.

Responses to Proponent Questions:

Q1: RESIDENTIAL GARBAGE

The information provided in Addendum #2, regarding route numbers, tons and homes collected, shows a combined total of 14,006 residential MSW customers. This number shows a discrepancy of 606 customers compared to the residential customer list provided back on July 20th. Based on the average pounds per set this is also a difference of 8 tons or one full route day per week. This is a substantial difference over a one year period. Does the City have an explanation of this increase?

A1: The difference is customer count versus container count. Some customers have more than one garbage container, and would thus be counted as two units.

Q2: COMMERCIAL GARBAGE

The information provided in Addendum #2, regarding route numbers, tons and total containers, shows a combined total of 1156 Commercial Garbage containers. This number shows a discrepancy of 665 containers compared to the Form 2A customer list. Does the City have an explanation for this increase?

A2: The difference is customer count versus weekly container lifts. If a commercial customer had one container that was picked up on Monday, Wednesday & Friday, it would be counted as 3 lifts.

END OF ADDENDUM #3
