## **CONSTRUCTION UPDATE**

### **August 2005**

Crews will complete installation of the underground utilities on the east side of 15<sup>th</sup> Avenue NE and will be installing underground utilities on the west side of 15<sup>th</sup> Avenue NE this month. The contractor will be working on both the north and south ends of 15<sup>th</sup> Avenue NE installing the utility conduits with plans to meet in the middle. Service connection conduits for some of the businesses will be done on the east side. New storm drainage will also be constructed on the east side of 15<sup>th</sup> Avenue NE.

New concrete curb and gutter and new driveways will be installed along the east side of 15<sup>th</sup> Avenue NE and along the east part of the side streets.

The City is hosting one-hour question and answer sessions all this month at local businesses within the North City Business District. This is an excellent opportunity to ask questions, discuss issues, and learn more about construction. Invitations to each meeting will be sent out to all the businesses in the area.

Full-time traffic control personnel are on site to help move traffic through the construction sites and to help with pedestrian access during construction. Please drive carefully.
