CONSTRUCTION UPDATE

August 22, 2005

This week crews will be:

- Continuing construction on the services connection along the east side of 15th Avenue NE;
- Working on the utility undergrounding on the west side of 15th Avenue NE with installation of the utility vaults; and
- Continuing to install concrete sidewalks, curbs, gutters and driveways along the east side of 15th Avenue NE as well as along side streets. The sidewalk within the intersections will not be installed until a later date as these sections of sidewalk have the decorated brick finish.

Crews will also work on Saturday, August 27 from 9:00 a.m. to 5:00 p.m. to keep on schedule.

The construction team is holding regular question and answer sessions for businesses to discuss and address individual concerns. The meetings are held at various locations in North City and are advertised to businesses via hand-delivered flyers.

Full-time traffic control personnel are on site to help move traffic through the construction sites and to help with pedestrian access during construction.
