CONSTRUCTION UPDATE

August 29, 2005

This week crews will be:

- Continuing installation of the utility vaults on the west side of 15th Avenue NE;
- Working on the utility undergrounding on the west side of 15th Avenue NE including installation of conduit that crosses 15th Avenue NE;
- Installing pole foundations for the new signals and street lights; and
- Continuing to install concrete sidewalks, curbs, gutters and driveways along the east side of 15th Avenue NE as well as along side streets. The contractor will be working north of NE 175th Street this week. The sidewalk near the intersections will not be installed until a later date as these sections of sidewalk have the decorated brick finish.

The construction team has been meeting regularly with businesses to discuss and address individual concerns.

Traffic control personnel will be on site to help with traffic control and safety in the construction area. Police officers will help with traffic control when the contractor digs trenches across 15th Avenue NE at NE 177th Street.
