October 17, 2005

This week crews will:

- Complete installation of underground utility conduit on the west side of 15th Avenue NE north of NE 180th Street and begin on NE 175th Street west of 15th Avenue NE.
- Complete the remaining service connections on the west side of 15th Avenue NE and begin installing service connections on NE 179th Street.
- Continue installing curbs and gutters on the east side of 15th Avenue NE from NE 180th Street north. Some locations will not have curb and gutter poured as the existing utilities conflict with the proposed new curb locations. These locations will be poured once the existing above ground utilities are removed, sometime in February/March 2006.
- Install driveways on the east side of 15th Avenue NE from NE 175th to 180th Streets.

Drainage work has been delayed as Puget Sound Energy needs to relocate some of its gas main lines.

Shoreline Water District is upgrading water service and fire hydrants for the buildings on the west side of 15th Avenue NE.

Full-time traffic control personnel are on site to help move traffic through the construction sites and to help with pedestrian access during construction.

Please obey the 25 mph speed zone in the area and remember that traffic fines are double in construction zones.
